Re: Request for Status of FCC Action (ELS File No. 1457-EX-CN-2023)

Anduril Industries, Inc. (“Anduril”)¹ respectfully requests a status update regarding pending Commission action on the above-referenced experimental license application.² This application requests authority to test the Teledyne FLIR radar so Anduril may assess the radar’s detection and tracking system at a testing site in Tucson, Arizona.³ Anduril filed this application on September 13, 2023.⁴ Given timing sensitivities with this experiment, Anduril kindly requests a status update and asks the Commission to act on this application as soon as feasible.

Respectfully submitted,
