

## Exhibit A - Description of Experimental Program

- Company Name: PNC Inc. dba Valley Internet
- FRN # 0018500694
- Form 442: EL949995
- Month, Year: Submitted December 2, 2023

In the recent 6 GHz Report & Order, the Commission designated additional spectrum for unlicensed operations, envisioning its use for “new innovative technologies and services that will advance the Commission's goal of making broadband connectivity available to all Americans, especially those in rural and underserved areas.” Unlicensed Use of the 6 GHz Band, 35 FCC Rcd 3852, 3853 (2020).

Through this application for an experimental license, PNC Inc. dba Valley Internet seeks to advance these goals by testing available equipment across the UNII-5 band for the potential delivery of enhanced fixed wireless broadband services.

The experimental operations will involve field deployment and testing of Cambium Networks 6 GHz radio technology on 2 towers (located at 38.32678, -122.122443 referred to internally as ‘GV03’ and 38.30358, -122.168588 referred to internally as ‘GV06’) at rural sites serving Suisun Valley, Mankas Corner to Grapevine Lane, Gordon Valley and SE Fairfield in Solano County, California. These operations will evaluate the greater throughput capabilities available in these bands using 80/160 MHz channels. The program will also use up to 50 remote units at customer locations.

PNC Inc. dba Valley Internet's data collection program will operate without causing harmful interference to incumbent users. PNC Inc. dba Valley Internet will work with any nearby licensed incumbents that it identifies, based on information provided in the FCC's databases, to ensure that its operations will avoid any harmful impact on such existing users
