Subject: RE: Elbit FCC Experimental License | Leveraging for OKC ETB SIL
Date: Thursday, January 4, 2024 2:20:30 PM

Good afternoon, Mr. Lopez,

After speaking with Engineering and assuming PMOD will process adding the OKC ETB to the existing license and coordinate any additional requirements with the FAA, the FAALC accepts the request to add the ETB as a covered site. Please let me know if email acceptance will suffice or if signatures will be required.

Respectfully,

Jessica Dodd

Subject: RE: Elbit FCC Experimental License | Leveraging for OKC ETB SIL

Jessica –
Good afternoon, and happy new year.

I am attempting to obtain a letter from FAA to attach that states FAA has ok'd the frequencies and there is no interference to Will Rogers IAP radars or radios. So that I may send it on to Elbit for FCC coordination.

Has there been any traction on this effort?

Kind Regards, Michael

Michael S. Lopez

Importance: High

Jessica, Michael, Brian –
Good morning.
Hope and trust all is well. Happy holidays!

Please find the attached [Elbit] MATR-X FCC Experimental License filing and a PMOD agreement memorandum letter to emit at the OKC ETB.
Once you are in concurrence, please respond with an agreement letter.
If you have further questions, please feel free to reach out to me.
Thank you in advance.

Kind Regards, Michael

Michael S. Lopez
