Subject: ITU Cost Recovery Declaration for the Polylingual Experimental Terminal (PEXT)
Satellite Network Operating in Non-geostationary Orbit in the Planned Frequency
Bands.

Reference: FCC Application File No. 1500-EX-CN-2023; Callsign WA3XDS

Dear FCC Secretary,

Johns Hopkins University, Applied Physics Laboratory is aware that in accordance with Resolution 88 of the International Telecommunication Union's (ITU) Plenipotentiary Conference (Marrakech, 2002), and ITU Council Decision 482, as modified, cost-recovery fees will apply to satellite network filings received by the Radiocommunications Bureau after November 7, 1998. As a consequence, Commission applicants are responsible for any and all fees charged by the ITU to process their satellite network filings. Johns Hopkins University, Applied Physics Laboratory hereby states that it is aware of this requirement and unconditionally accepts all cost recovery responsibilities associated with the ITU filings for the PEXT satellite. Please address all cost-recovery inquiries, and ITU correspondence and filings, related to the PEXT satellite to the following point of contact. We understand that should there be any change in the point of contact information, we will inform the Commission within 30 days of the foreseen event.

Point of Contact Name: Yang Hoon Yoon, EME Engineer

Organization Name: Johns Hopkins University, Applied Physics Laboratory

Address: 11100 Johns Hopkins Road, Laurel, MD 20723

E-Mail: yang.yoon@jhuapl.edu

Telephone Number: 240-592-3993

Johns Hopkins University, Applied Physics Laboratory understands that it must remit payment of any resultant cost-recovery fee to the ITU by the due date specified in the ITU invoice, unless an appeal filed prior to the due date is pending with the ITU. We fully understand that a license granted in reliance on such a commitment will be conditioned upon discharge of any such cost-recovery obligation. We also acknowledge that, in accordance with 47 C.F.R. §25.111, should we have an overdue ITU cost-recovery fee and have no appeal pending with the ITU, the Commission may dismiss any application associated with that satellite network.

Sincerely,

Yang Yoon
EME Engineer
Johns Hopkins University, Applied Physics Laboratory
