

Attachment A: Contract Description

LIME is funded through a firm fixed price subcontract for NOVI LLC from the Utah State University Space Dynamics Laboratory (SDL). Prime funding is from the Air Force Research laboratory under contract number FA9453-22-D-0005. The subcontract began January 10th, 2024, and continues through a year of on-orbit operations. It covers costs associated with the launch contract, environmental testing, delivery of the 3U LIME CubeSat, one year of in-orbit satellite operations, and a final report summarizing collected data.
