Form 442 File Number: TBD

Subject: Form 442 Question 4: Government Project Description

To Whom It May Concern:

This purpose of this experimental license is to develop an experimental 5G testbed in support of a contract with DARPA. The testbed will involve 5G base stations and user equipment utilizing software-defined radios (SDRs). The 5G test environment will require operating (transmitting/receiving) in the 5G NR Frequency Range 1 (FR1) FDD and TDD bands to ensure desired operational fulfillment of the contract. The DARPA contract number is 140D0424C0009 and the period of performance is 3 years.

Sincerely,

Thomas McCombie
