Subject: [EXTERNAL] Frequency Coordination Request Submitted

You don't often get email from donotreply_from_webfcr@faa.gov. [Learn why this is important](#)

Dear Angela Maimo

Your Frequency Coordination Request has been successfully submitted to FAA Spectrum Engineering Services for review. The FAA's goal is to address your coordination requests within 30 calendar days. If you need to communicate with us, please use the following tracking number(s) for reference.

Tracking #	Specific Frequency	Lower Frequency	Upper Frequency	City	State
TRK 240253		4000 MHz	10000 MHz	MERRITT ISLAND	FL
TRK 240254		100 MHz	200 MHz	MERRITT ISLAND	FL
TRK 240255		200 MHz	1784 MHz	MERRITT ISLAND	FL
TRK 240256		2380 MHz	3999 MHz	MERRITT ISLAND	FL

Please note that due to spectrum congestion, the FAA cannot guarantee the availability of frequency assignments in spectrum allocated for aeronautical purposes in some geographical areas for experimental testing. We will keep you informed throughout the coordination process, as necessary.

Best regards,

FAA Spectrum Engineering Services
