Thank you so much for the prompt reply.

I've copied the test director, Shah Ronak, who'll be able to provide additional information, as needed, regarding specifics and timing of Dream Chaser EMI testing inside the SSPF (High Bay) facility at Kennedy Space Center (KSC), in advance of Dream Chaser's first flight to and back from the International Space Station ([Sierra Space's Dream Chaser New Station Resupply Spacecraft for NASA - NASA](#)).

Thanks again for your consideration.

Respectfully,

This is to request your consent for proposed EMI testing operations in the 2320-2345 MHz band, based on a directive from the FCC's Space Bureau.
The proposed testing is per FCC STA File Number 0341-EX-ST-2024 ([OET Special Temporary Authority Report \(fcc.gov\)](#)).
Thank you for your consideration.
