Subject: ITU Cost Recovery Declaration for the Cygnus NG-21 Satellite Network Operating in Non-geostationary Orbit in the Planned Frequency Bands. (Northrop Grumman Systems Corporation, Cygnus NG-21 Spacecraft)

Reference: FCC Application File No. (0881-EX-ST-2024); Callsign WU9XHC

Dear FCC Secretary,

Northrop Grumman Systems Corporation is aware that in accordance with Resolution 88 of the International Telecommunication Union's (ITU) Plenipotentiary Conference (Marrakech, 2002), and ITU Council Decision 482, as modified, cost-recovery fees will apply to satellite network filings received by the Radiocommunications Bureau after November 7, 1998. As a consequence, Commission applicants are responsible for any and all fees charged by the ITU to process their satellite network filings. Northrop Grumman Systems Corporation hereby states that it is aware of this requirement and unconditionally accepts all cost recovery responsibilities associated with the ITU filings for the Cygnus NG-21 satellite network. Please address all cost-recovery inquiries, and ITU correspondence and filings, related to the Cygnus NG-21 satellite network to the following point of contact. We understand that should there be any change in the point of contact information, we will inform the Commission within 30 days of the foreseen event.

Point of Contact Name: Scott Duffin, Program Director, ISS Commercial Resupply Services

Organization Name: Northrop Grumman Systems Corporation

Address: 45101 Warp Drive Sterling, VA 20166

E-Mail: Scott.Duffin@ngc.com

Telephone Number: 703-404-7575

Northrop Grumman Systems Corporation understands that it must remit payment of any resultant cost-recovery fee to the ITU by the due date specified in the ITU invoice, unless an appeal filed prior to the due date is pending with the ITU. We fully understand that a license granted in reliance on such a commitment will be conditioned upon discharge of any such cost-recovery obligation. We also acknowledge that, in accordance with 47 C.F.R. §25.111, should we have an

overdue ITU cost-recovery fee and have no appeal pending with the ITU, the Commission may dismiss any application associated with that satellite network.

Sincerely,

/ _____ /

Scott Duffin

CRS Program Director

Northrop Grumman Systems Corporation
