

STA Description

Space Exploration Holdings, LLC (“SpaceX”) hereby requests authority to engage in, for an additional period of 180 days, direct-to-cell testing in the same location and with the same characteristics and limitations as the Commission has previously granted under ELS File No. 0934-EX-ST-2024. The specifics of that testing are hereby incorporated by reference.

That STA application requested a 180-day test period from May 20, 2024 until November 16, 2024. However, the application was granted on October 2, 2024 with no change to the requested end date, resulting in a test period of only 45 days.
