

## NARRATIVE STATEMENT

Sennheiser Electronic Corporation (“Sennheiser”), a leading manufacturer of wireless microphones, respectfully requests special temporary authority (“STA”) to demonstrate a Wireless Multi-Channel Audio System (“WMAS”) with an electronic key to the Aerospace and Flight Test Radio Coordinating Council (“AFTRCC”) on November 20, 2024. The demonstration is a proof of concept that is intended to prevent interference to AFTRCC users in the 1.4 GHz band.

Sennheiser will be providing a demonstration of WMAS to explain its electronic key and how the system protects other users of the spectrum. The demonstrations are scheduled to occur as follows:

Date	Location	Frequency	Power
November 20, 2024	Sheraton Albuquerque Uptown 2600 Louisiana Blvd NE Albuquerque, NM 87110	Within 1435-1525 MHz	50 mW
