To David Copeland KC3CQJ

Dear Dave,

In response to your coordination request the IARU Satellite frequency coordination panel coordinated the following frequencies for **silversat**.  
Up- and downlink on 437.175 MHz with emission designators 14K4F1D and 150HA1A with max. EIRP 28 dBm  
Planned launch date: Q2 2025 followed by deployment from ISS.  
Licensing administration: USA  
Planned height and Orbit: Low Earth Orbit  
Earth Command station: KC3VWW  
IARU has coordinated frequencies in a bands allocated to the amateur satellite service. All frequencies in the amateur satellite service are shared frequencies. Please inform me about the final launch date and the API number as soon as that information becomes available.

Best wishes for a successful project.

A handwritten signature in black ink that reads 'HP Blondeel' followed by a stylized monogram.
