Subject: ITU Cost Recovery Declaration for the SPRITE Satellite Network Operating in
“Non-geostationary Orbit”.

Reference: FCC Application File No. 1183-EX-CN-2024

Dear FCC Secretary,

The University of Colorado Boulder (CU) is aware that in accordance with Resolution 88 of the International Telecommunication Union’s (ITU) Plenipotentiary Conference (Marrakech, 2002), and ITU Council Decision 482, as modified, cost-recovery fees will apply to satellite network filings received by the Radiocommunications Bureau after November 7, 1998. As a consequence, Commission applicants are responsible for any and all fees charged by the ITU to process their satellite network filings. CU hereby states that it is aware of this requirement and unconditionally accepts all cost recovery responsibilities associated with the ITU filings for the SPRITE satellite network. Please address all cost-recovery inquires, and ITU correspondence and filings, related to the SPRITE satellite network to the following point of contact. We understand that should there be any change in the point of contact information, we will inform the Commission within 30 days of change in point in contact.

Point of Contact Name: Gary Henry
Organization Name: University of Colorado Boulder
Laboratory for Atmospheric and Space Physics (LASP)
Address: 1234 Innovation Drive
Boulder, CO 80303
E-Mail: Gary.Henry@lasp.colorado.edu
Telephone Number: (303) 785-0509

CU understands that it must remit payment of any resultant cost-recovery fee to the ITU by the due date specified in the invoice, unless an appeal filed prior to the due date is pending. We fully understand that a license granted in reliance on such a commitment will be conditioned upon discharge of any such cost-recovery obligation. We also acknowledge that, in accordance with 47 C.F.R. §25.111, should we have an overdue ITU cost-recovery fee and have no appeal pending, the Commission may dismiss any application associated with that satellite network.

Sincerely,

Gary L Henry
Executive Associate Director
