Dear winchworks@me.com,

The FAA Spectrum Engineering Services has completed the review of your Frequency Coordination Request.

TRK 250235 is assigned an FAA Coordination number NG T250264 that indicates FAA's coordination that may or may not include operational limits/conditions as part of the requirement for FAA concurrence. The FAA Spectrum Engineering Services has provided the following comments:

COMMENTS: NONE

Please note that this concurrence does not constitute authority to transmit. Your authority to transmit must be obtained from the FCC.

Please provide this concurrence notice to the FCC as part of your frequency application, to demonstrate completion of the FAA coordination process. The FAA Coordination number is only valid until 9/15/2025; if you need an extension, please submit an inquiry via WebFCR .

The attached file contains a Card 3 format with all technical and operational parameters; operations are required to be contained within these parameters for the FAA's concurrence to remain valid. If any of these parameters change, the license to transmit shall be re-coordinated with the FAA and updated with the FCC. A document that explains each field of the Card 3 format in plain text is attached.

The following Revision Table outlines key parameters of this coordination:

Attribute	Record Parameter
Serial Number	NG T250264
Frequency	M1390.0000
City	LANCASTER
State	CA
Transmitter Radius	54 NM
Transmitter Latitude	344247.01N
Transmitter Longitude	1183832.07W
Antenna Height	15 Feet
Receiver Latitude	344247.01N
Receiver Longitude	1183832.07W
Equipment Type	C,SIL SC4480,PD0M
Antenna Type	PATCH
Flight Level	0 Feet
