ACCESS SERVICE16. Public Packet Data Network (Cont'd)16.5 Multi-Megabit Ethernet Transmission Service (METS) (Cont'd)16.5.1 General Description(A) Basic Service Description

Multi-Megabit Ethernet Transmission Service (METS) is a high-speed packet based service for the transmission of data between a customer designated premises (CDP), the customer's Serving Wire Center, and either another CDP served by the Telephone Company, a CDP served by another telephone company or another telecommunications carrier. METS services between CDP within the Telephone Company's serving areas and CDPs outside the Company's serving areas will be provided either on a joint basis by the Telephone Company and another telephone company or by a telecommunications carrier connecting to the Telephone Company through a CDP within the Company's serving areas. If joint-provisioning by the Telephone Company and another telephone company is required, it is the responsibility of the Customer to order and pay for services provided by the other telephone company. Where joint-provision applies, the Telephone Company will provide its portion of jointly-provided services on a Multiple Bill basis as described at Section 2.4.7(B)(2) preceding.

For purposes of this Section, the term Telephone Company refers individually to the issuing carriers listed as providers of METS services in the METS Provider Table preceding.

METS provides dedicated bandwidth at the capacities indicated for the respective Telephone Companies offering METS listed at the METS Provider Table preceding.

ACCESS SERVICE

16. Public Packet Data Network (Cont'd)

16.5 Multi-Megabit Ethernet Transmission Service (METS) (Cont'd)

16.5.1 General Description (Cont'd)

(B) Service Provisioning

METS is provisioned over existing Telephone Company facilities. METS will be provided subject to the availability and limitations of the Telephone Company wire centers and outside plant facilities. New construction may be undertaken at the option of the Telephone Company at additional cost to the Customer.

The subscriber is provided with an Ethernet electrical interface.

METS is available 24 hours per day, 7 days per week, except for preventative maintenance.

ACCESS SERVICE

16. Public Packet Data Network (Cont'd)

16.5 Multi-Megabit Ethernet Transmission Service (METS) (Cont'd)

16.5.1 General Description (Cont'd)

(C) Responsibility of the Telephone Company

The Telephone Company will provision and maintain METS for the customer.

The Telephone Company is not responsible for the installation, operation, or maintenance of any equipment provided by the customer.

Company provided shared network equipment, for use in METS is not accessible for the customer.

(D) Responsibility of the Customer

The customer is responsible for the provision and maintenance of all customer provided equipment and to insure that the operating characteristics of this equipment are comparable with and do not interfere with the service offered by the Telephone Company.
