Multiline Business USF Charge Factor

As shown in Workpaper 1, "Federal Universal Service Fund Charge Factor Development," the Multiline Business charge factor for each study area is calculated by dividing the Multiline Business lines subject to FCC end user charges by the total number of lines subject to PICC charges pursuant to 47 C.F.R. 69.153. This ratio is multiplied by the second quarter 2008 USF Factor to determine the appropriate Multiline Business USF Charge Factor.

Centrex USF Charge Factor

As shown in Workpaper 1, "Federal Universal Service Fund Charge Factor Development," the Centrex USF Charge Factor is one-ninth of the Multiline Business USF Charge Factor.

Qwest is also updating the Universal Service Contribution Factor contained in its Tariff F.C.C. No. 4, Interstate IntraLATA Message Telecommunications Service, for the second quarter of 2008. This revision also applies the factor as adopted in Public Notice DA 08-576, released March 14, 2008.

As part of this filing Qwest is also revising the Frame Relay Service (FRS) Renewal Discount Plan in Section 8, Advanced Communications Networks. Under this new plan, FRS customers will be offered a larger incentive to retain their Qwest FRS. Qwest estimates that implementation of this plan will save an additional 185 customers resulting in saved revenue of \$845,300.

In addition, Qwest is removing an obsolete Nonrecurring Charge associated with DS1 Netplan. This Charge should have been removed on July 16, 2005 when obsolete language associated with DS1 Netplan was removed.

Supporting information discussed under Sections 61.38 and 61.49 of the Commission's Rules is, to the extent required, included in this transmittal letter and the attached documentation.

As part of this filing Qwest is also adding twelve new special construction cases in its Tariff F.C.C. No. 2, Special Construction. Supporting information for this case, discussed under Section 61.38 of the Commission's Rules, is included in the attached Special Construction Description and Justification (D&J).

The Tariff filing fee in the amount of \$775.00 is being paid by credit card through the appropriate entries in Section E of the ETFS generated Form 159.
