## ACCESS SERVICE

25. Discount Plans (Cont'd)25.1 Commitment Discount Plans (Cont'd)25.1.3 Plan Commitment Levels (Cont'd)(C) Modifications to an Existing Commitment Discount Plan (Cont'd)

## (6) Surviving CDP Option (Cont'd)

## (f) Service Type Has Not Already Been Established under Surviving CDP

(i) The CDP Customer must choose a commitment period for each individual service type. Such commitment period may not be shorter than the commitment period of any of the plan(s) being cancelled for such service type.

(ii) The Minimum Commitment level for each of the new service type(s) being established under the Surviving CDP must be set at an amount equal to the sum of the individual commitment levels under the plan(s) being cancelled (after the pro-rated true-up specified in (6)(b) preceding).

(iii) If the CDP Customer had combined service types under any of the plan(s) being cancelled, and at least one (1) of those combined service type(s) was established as an individual service type in the Surviving CDP, the CDP Customer may establish such combined service types under the Surviving CDP. The Minimum Commitment level for the combined service types must be set at an amount equal to the sum of the individual commitment levels of the applicable combined service types under the plan(s) being cancelled plus the applicable individual service types that were established under the Surviving CDP. The CDP Customer must choose a commitment period for the newly established combined service types. Such commitment period may not be shorter than the commitment period of any of the plan(s) being cancelled for such combined service types.

(iv) If IEF services were included under one or more of the plans being cancelled, then all of the CDP Customer's IEF terminations must be combined with their Switched Access and Special Access DS3 channel terminations in the Surviving CDP, and a new commitment level must be established, as described in Section 25.1.3(A)(6) preceding.

## ACCESS SERVICE

## 25. Discount Plans (Cont'd)

25.1 Commitment Discount Plans (Cont'd)25.1.7 Application of the Discount Percentage or IEF Term Plan Rates  
(Cont'd)

## (C) Customer has met its Minimum Commitment

If the CDP Customer has satisfied its Minimum Commitment and is below the maximum service level for the preceding six months, no corrective action will be taken.

## (D) Customer has met its Minimum Commitment and Exceeded its Maximum Service Level

If the CDP Customer has satisfied its Minimum Commitment for the preceding six months but exceeded its maximum service level, the Telephone Company will apply an adjustment in order to true-up the discount which was applied in excess of that allowed by the maximum service level. The true-up will result in an adjustment (charge up) of the discounted excess amount back to standard, non-discounted rates, unless the CDP Customer elects to increase its Minimum Commitment upward to at least seventy-five percent (75%) for DDS II services and ninety percent (90%) for all other service types of the total number of DS0 equivalent Standard Channel Terminations for the type of service or combined service type involved at the time the true-up was performed. If an adjustment is to be applied, the Telephone Company will calculate the adjustment as follows.

(Step 1) The Telephone Company will calculate the average number of equivalent DS0 Standard Channel Terminations which were in service over the preceding six months by summing the actual number of equivalent DS0s for each of the last six months, and dividing the resulting total by six. The resulting number represents the average monthly equivalent DS0 Standard Channel Termination count (i.e., monthly equivalent DS0 count.) (D)

(Step 2) The Telephone Company will calculate the average rate assessed per equivalent DS0 by first summing the total reduced monthly charges associated with all channel termination, channel mileage, optional features or functions or BSEs and IEF terminations or IEF interfaces rate elements for the preceding six months and dividing by six. The resulting amount is then divided by the average monthly equivalent DS0 count determined in Step 1.

(Step 3) The Telephone Company will calculate the average Minimum Commitment by first summing the Minimum Commitment for each of the preceding six months, adjusting the Minimum Commitment pursuant to Section 25.1.3 preceding, and dividing by six. The resulting number represents the average Minimum Commitment for the preceding six months. (N)  
(N)

(Step 4) The Telephone Company will determine the applicable maximum service level by multiplying the Minimum Commitment determined in Step 3 by 1.56 (i.e., the Minimum Commitment plus fifty-six percent (56%)) for DDS II service or by multiplying the Minimum Commitment determined in Step 3 by 1.3 (i.e., the Minimum Commitment plus thirty percent (30%)) for all other services. (T)  
(T)

## ACCESS SERVICE

25. Discount Plans (Cont'd)25.1 Commitment Discount Plans (Cont'd)25.1.7 Application of the Discount (Cont'd)

- (D) Customer has met its Minimum Commitment and Exceeded its Maximum Service Level (Cont'd)

(Step 5) The Telephone Company will determine the number of equivalent DS0s which already received a discount over the preceding six months, but were in excess of the maximum service level by subtracting the maximum service level calculated in Step 4 from the average equivalent DS0 Standard Channel Termination count determined in Step 1.

(Step 6) To determine the total dollar amount associated with the equivalent DS0s which received a discount in excess of the maximum service level, the Telephone Company will multiply the excess equivalent DS0 Channel Terminations in Step 5 by the average total rate per DS0 equivalent in Step 2 and multiply the result by six.

(Step 7) To determine the non-discounted total dollar amount for the equivalent DS0s which were in excess of the maximum service level, the Telephone Company will recalculate the amount determined in Step 6 back to standard, non-discounted rates as follows.

First, the Telephone Company will multiply the average total rate per equivalent DS0 determined in Step 2 by the number of equivalent DS0s which were in excess of the maximum service level in Step 5 and divide the result by the discount factor or equivalent (i.e., 1 minus the discount percentage or equivalent). The resulting amount is then multiplied by six. (T)

The equivalent discount factor can be determined by the percent differential between the monthly rate or Base Rate, as applicable, for the channel termination and the applicable SDP channel termination rate. To obtain the percent differential, subtract the SDP channel termination rate from the monthly rate or Base Rate, as applicable, for the channel termination and divide the result by the monthly rate or Base Rate for the channel termination, as applicable. For combined DS3 and IEF services, the equivalent discount factor will be the DS3 discount percentage. For example, a ten percent discount would result in a calculation of 1 minus .1 for a discount factor of .9.

(Step 8) To determine the amount due from the CDP Customer, the Telephone Company will subtract the amount paid in Step 6 from the amount owed in Step 7. The resulting amount will be the amount adjusted (charged up) as a result of the true-up process. The amount due from the CDP Customer is not subject to any late payment factor as specified in Section 2.4.1 preceding.

- (E) In the event that the CDP Customer disputes the amount adjusted by the Telephone Company following the true-up process, the CDP Customer must notify the Telephone Company of the dispute within six months of the adjustment being applied (i.e., prior to the next scheduled true-up).
