In this filing Qwest is updating the universal service contribution factor to reflect changes ordered in FCC 08-51, released February 14, 2008, which provided relief sought by the American Public Communications Council (APCC). In this Order, the FCC ruled that "LECs may not charge additional USF Line-item amounts related to the Centrex adjustments to PSPs." Hence, while the general USF Charge Factor remains constant at 0.113, the Centrex Factor per Individual station line and the Multiline Business Factor per individual line or trunk will increase.

### Multiline Business USF Charge Factor

As shown in Workpaper 1, "Federal Universal Service Fund Charge Factor Development," the Multiline Business charge factor for each study area is calculated by dividing the Multiline Business lines subject to FCC end user charges by the total number of lines subject to PICC charges pursuant to 47 C.F.R. 69.153. This ratio is multiplied by the second quarter 2008 USF Factor to determine the appropriate Multiline Business USF Charge Factor.

Centrex USF Charge Factor

As shown in Workpaper 1, "Federal Universal Service Fund Charge Factor Development," the Centrex USF Charge Factor is one-ninth of the Multiline Business USF Charge Factor.

As part of this filing Qwest is also updating one technical publication reference and removing another obsolete technical publication reference.

Supporting information discussed under Sections 61.38 and 61.49 of the Commission's Rules is, to the extent required, included in this transmittal letter and the attached documentation.

As part of this filing Qwest is also adding fourteen new special construction cases in its Tariff F.C.C. No. 2, Special Construction. Supporting information for this case, discussed under Section 61.38 of the Commission's Rules, is included in the attached Special Construction Description and Justification (D&J).

The Tariff filing fee in the amount of \$775.00 is being paid by credit card through the appropriate entries in Section E of the ETFS generated Form 159.
