4. SERVICE CLASSIFICATIONS AND RATES (CONFERENCE)

4.1 Conference Service4.1.1 Definition

- (A) Conference Service is the furnishing of CMTS for telecommunications among an originating station and two or more stations when at least one of the stations is in a different local service area than the originating station. In addition to the regulations in 2. and 3. preceding, the following applies.

Conference service is not available in connection with radiotelephone units served through Air-Ground Service stations.

4.1.2 Conditions Under Which Service is Furnished

- (A) Service is furnished subject to the availability of the service components required.
- (B) All stations, on a conference connection may be so interconnected that each may communicate with all the others, or one station may be the transmitting station and all others receiving stations.
- (C) Service is offered to a specified person or station.
- (D) An operator, upon request, will attempt to arrange for the establishment of a conference call at a specified time.

4.1.3 Rate and Charge Application

CMTS rates apply for two-point service between any two points on a conference call, as set forth in 4.1.4 following.

(A) Timing of Messages

- (1) Chargeable time begins when connection is established between all the stations on the conference.
- (2) Chargeable time ends on a given two-point connection of a conference call when the connection is terminated by the originating station or the called station.
