SECTION 1 INTRODUCTION AND SUMMARY

Introduction

The Consolidated Communications Companies, consisting of Consolidated Communications of Texas Company d/b/a Consolidated Communications and Consolidated Communications of Fort Bend Company d/b/a Consolidated Communications, hereby provide a Description and Justification for its consolidated tariff, with individual company rates (Section 17 and Section 18, respectively), proposed under Transmittal No. 21 of the Consolidated Communications Companies Tariff FCC No. 1.

Description of the Consolidated Communications Companies Operations

The Consolidated Communications Companies (CCC) consists of two separate legal entities: Consolidated Communications of Texas Company (CCTX) d/b/a Consolidated Communications and Consolidated Communications of Fort Bend Company (CCFB) d/b/a Consolidated Communications. Both of these entities are now price cap companies pursuant to FCC Order DA 08-1026¹ that fall under Sections 61.41 through 61.49 of the Commission's Rules and relevant Commission Orders.² They provide local service, toll, private line services, access services, DSL, CLASS services, and other modern telecommunications services to their customers.

CCTX originated with three separate telephone companies that merged over the years. Lufkin Telephone Exchange officially began business in 1898 and was incorporated in the state of Texas in 1910. Conroe Communications Company began providing service in the Conroe area in 1899 and was purchased by the owners of Lufkin Telephone Exchange and incorporated as the Conroe Telephone Company in 1929. The Alto Telephone Company was purchased in 1963. Ownership of the 3 entities was consolidated in 1969 to form Lufkin-Conroe Communications Company. In 1997, Lufkin-Conroe Communications Company and its subsidiaries were purchased by Texas Utilities Company and became TXU Communications Telephone Company. In April 2004, Consolidated Communications, Inc. purchased the company, changing the name to Consolidated Communications of Texas Company (CCTX).

CCTX is a rural East Texas telecommunications carrier providing service to approximately 105,000 customers in two distinct market areas: Conroe and Lufkin. The 16 communities served include: Alto, Apple Springs, Central, Conroe, Cut-N-Shoot, Diboll, Etoile, Fuller Springs, Grangerland, Hudson, Lake Conroe, Lufkin, Montgomery,

¹ See, Order, Consolidated communications Petition for Conversion to Price Cap Regulation and for Limited Waiver Relief, DA 08-1026.

² See, Order, July 2008 Annual Access Charge Tariff Filings, released March 28, 2008, DA 08-758 ("2008 Filing Order"); and Tariff Review Plans, Material to be filed in support of 2008 Annual filings, DA 08-759, released March 28, 2008 ("2008 TRP Order").

Riverbrook, Walden, and Wells. The 7 exchanges of the Conroe market area contain approximately 65,000 customers, primarily in Montgomery County.

The Lufkin market area serves 9 exchanges and 40,000 access lines in a separate area 85 miles north of the Conroe area, centered on the city of Lufkin. The area economy is supported primarily through manufacturing of paper and metal products, retail sales, service companies, government entities, and farming.

CCFB began business in 1898 as Fort Bend Telephone Company and was incorporated in Texas in 1910. In May 2000, Fort Bend Telephone Company and its affiliates were purchased by Texas Utilities Company and became Fort Bend Telephone Company d/b/a TXU Communications. In April 2004, TXU Communications, including Fort Bend Telephone Company, was purchased by Consolidated Communications, Inc., which changed the name to Consolidated Communications of Fort Bend Company (CCFB).

CCFB is also a rural carrier with approximately 42,000 access lines in 5 East Texas exchanges: Beasley, Brookshire, Damon, Katy, and Needville. CCFB possesses the same rural characteristics as CCTX, providing service in Brazoria, Harris, Fort Bend and Waller counties.

SECTION 2 OVERVIEW OF FILING PACKAGE

Tariff Support Material

This support material is submitted pursuant to Part 61.49 of the Federal Communications Commission (Commission) Rules and Regulations and the Order issued in WCB/Pricing 08-14, July, 2008 Annual Access Charge Tariff Filings, and Tariff Review Plans issued in WCB/Pricing 08-15, Material to be Filed in Support of 2008 Annual Access Tariff Filings, both adopted and released March 28, 2008.

In addition to the description and justification contained in this volume, the following information is submitted to provide specific support data at the proposed tariff level of detail for the Consolidated local operating companies.

Description and Justification

Exhibit 4 – Development of Trunk Ports and Tandem Switch Multiplexing Rate

Tariff Review Plan

Rate Detail

SECTION 3 TARIFF SUPPORT

PCI Development

In Accordance with the Commission's Rules, the PCI for each service basket were calculated as shown in Exhibit RDEV-1, Page 1 of 5. A GDP-PI factor of 2.6383% was used in calculating the PCI's and is based on the percentage change in the Gross Domestic Product Price Index (GDP-PI) between the quarter ending December 31, 2007 and the corresponding quarter of the 2006 GDP-PI.

This is Consolidated Communications Companies first price cap filing and will be used to initialize its PCI based on current rates.³ Also, pursuant to DA 08-1026⁴, Consolidated has excluded ICLS receipts from its CMT PCI calculations.

Because the effects of GDP-PI – X and g are targeted to the Average Traffic Sensitive Rate, the prospective PCI values for the Traffic Sensitive and Trunking Baskets are typically calculated by adjusting the existing PCI values for the effects of exogenous cost changes allocated to those baskets plus the amount of ATS targeting allocated to those baskets. Because Consolidated Communications Companies has already achieved its ATS target rates prior to this filing, the Traffic Sensitive and Trunking PCI values reflect no ATS targeting. The prospective PCI values for the Special Access Basket are calculated using formula found in 61.45(b) of the Commission's rules. Calculation of PCI values is shown in Exhibit 2, RDEV-1, Page 1 of 5.

Determination of Exogenous Changes

In Accordance with the Commission's Rules, Consolidated developed certain exogenous changes for inclusion in the price cap formula. These changes include: (1) North American Number Plan Administration; (2) Regulatory Fees; and (3) Telecommunications Relay Service Fees.

Exogenous cost changes were individually developed for each of the items outlined above, and in the aggregate for all changes. Consolidated used base year 2006 (time of its last tariff filing) to estimate exogenous costs embedded in rates. A brief description of each change follows and a summary of the exogenous changes is shown in Exhibit 2, RDEV-1, Page 2 of 5. The detail of the exogenous cost changes is shown in its TRP, Form EXG-1, Pages 1 and 2.

³ See, Order, Consolidated Communications Petition for Conversion to Price Cap Regulation and for Limited Waiver Relief, DA 08-1026 para 4.

⁴ See, Order, Consolidated Communications Petition for Conversion to Price Cap Regulation and for Limited Waiver Relief, DA 08-1026 para 18.

North American Numbering Plan Administration

On June 27, 2001, the Federal Communications Commission release an order approving the compensation plan for the North American Numbering Plan Administration (NANPA) for fiscal year 2001.⁵ The Commission reviewed and accepted the North American Numbering Plan Administrator submission and ordered that a contribution factor of 0.0000165⁶ be applied to end user revenues of each telecommunications carrier in the United States to fund the program for the 2008 fiscal year (July 2008 to June 2009). The impact of the NANPA support has been included as an exogenous cost in this filing as shown in Exhibit 2, RDEV-1, Page 2 of 5.

Regulatory Fees ↗

Earlier Commission decisions⁷ allow local exchange companies to reflect the impact of regulatory fees as an exogenous cost in annual price cap filings. The impact of regulatory fee changes for the July 2007 – June 2008 fiscal year was calculated using a factor of .00317 as prescribed in the Commission's *Regulatory Fee Order*,⁸ and has been included as exogenous cost in this filing and is shown in Exhibit 2, RDEV-1, Page 2 of 5.

Telecommunications Relay Service

The Americans with Disabilities Act (ADA) required that all common carriers providing interstate voice telecommunications provide Telecommunications Relay Service (TRS) to customers effective July 26, 1993. In its *Third Report and Order* in CC Docket No. 90-571,⁹ the Commission required that all common carriers providing interstate telecommunications services contribute to an interstate shared fund to support the TRS function. The impact of the TRS exogenous cost for this filing is calculated using the .01012 contribution factor prescribed in the Commission's TRS Order¹⁰ and is displayed on Exhibit 2 , RDEV-1, Page 2 of 5.

The amount of the prospective TRS recovery at the .01012 contribution factor is compared to the amount of TRS cost currently recovered in Consolidated Companies

⁵ *In the Matter of Administration of the North American Number Plan*, CC Docket No. 92-237 and *North American Number Plan Cost Recovery Contribution Factor and Fund Size*, NDS File No. L-00-72, Order (DA 01-1524), released June 7, 2001 (NANP Order)

⁶ *In the Matter of Administration of the North American Numbering Plan*, Proposed North American Numbering Plan Administration Fund Size Estimate and Contribution Factor for July 2008 through June 2009 (filed May 22, 2008) Public Notice, DA 08-1201, CC Docket No. 92-237.

⁷ *Price Cap Treatment of Regulatory Fees Imposed by Section 9 of the Communications Act*, 9 FCC 6060 (1994), erratum (November 2, 1994).

⁸ *In the Matter of Assessment and Collection of Regulatory Fees for Fiscal Year 2008*, Notice of Proposed Rulemaking, MD Docket No. 08-65 (FCC 08-126), released May 8, 2008 (*Regulatory Fee Order*).

⁹ *In the Matter of Telecommunications Relay Services and the Americans with Disabilities Act of 1990*, Third Report and Order, CC Docket No. 90-571, released July 20, 1993 (*Third Report and Order*).

¹⁰ *In the Matter of Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities Order*, CG Docket No. 03-123, Public Notice DA 08-1055, Released May 2, 2008 (*TRS Order*)

rates last filed in 2006. Work papers reflecting this exogenous change are shown in Exhibit 2, RDEV-1, Page 2 of 5.

Rate Detail and other Exhibits

Rate Detail files will be submitted during the Consolidated TRP submission to display demand quantities, current rates, and proposed rates, and the associated quantities for the specific baskets. For CMT, proposed SLC rates are set at current capped levels pursuant to the Consolidated's price cap order¹¹ and PICC and CCL rates continue to be zero. For non-CMT baskets, PCI, SBI, and sub-index calculations are shown.

Consolidated also includes a revenue impact analysis in Exhibit 3, RDET1 to display overall impacts of any rate changes in the filing.

Additionally, in accordance with Sections 69-106 and 69.111 of the FCC rules, the development of trunk ports and tandem switch multiplexing rates is displayed in Exhibit 4, UNB ELEM - 1.

¹¹ See, Order, Consolidated Communications Petition for Conversion to Price Cap Regulation and for Limited Waiver Relief, DA 08-1026 para 17.

Line #	Description	Source	Cost per DS3/DS1 Mux
1	Investment per DS3/DS1 Muxing Equipment	Per Network Engineering	\$ 2,180.08
2	Total Muxing Equipment		28
3			
4	Total Investment for DS3/DS1 Muxing Equipment		\$ 61,042.24
5	Depreciation Reserve Level	CCTX Cost Study	31.27%
6	Annual Charge Factors:		
7	Maintenance		0.015371
8	Prop.Tax Expense Factor		0.01328
9	Power Expense Factor		0.00271601
10	Other Ntwk.Oper.Expense Factor		0.019501
11	Billing&Bus.Ofc.Exp.Factor		0.013148
12	Total Expense Factor	Sum Ln 7 thru 11	0.064016
13			
14	Depreciation Expense		0.065955
15	Return on Investment		0.1125
15a	Debt %		66%
15b	Equity %		34%
16	Tax Gross Up		0.181462
17	Total Investment Cost Factor	Ln 14+(Ln 15 * Ln5)+(Ln 16*(Ln 15*Ln 5))	0.107513468
18			
19	Total Cost Factor	Ln 12 + Ln 17	0.171529
20			
21	Annual Costs	Ln 4 * Ln 19	\$ 10,470.53
22			
23	Allocation between shared & dedicated DS3/DS1 muxing		
24	Shared DS3/DS1 Muxing Costs	Ln 21 * Note 1b	\$ 3,600.39
25	Dedicated DS3/DS1 Muxing Costs	Ln 21 * Note 1a	\$ 6,870.14
26	Total	Ln 24 + Ln 25	\$ 10,470.53
27			
28	Demand		
29	LEC Transport MOU		72,535,776
30	Dedicated Port Demand	11*28*24	7,218
31			
32	Shared Muxing Rate	Ln 24 / Ln 29	0.00005
33	Dedicated Muxing Rate	Ln 25 / Ln 30	0.95

Notes

1 Allocation between shared & dedicated DS3/DS1 muxing costs was based on the relative percentages of shared & dedicated DS1 ports as follows:

a) Dedicated DS1 Trunks	187	65.61%
b) Shared Trunks	98	34.39%
c) Total	285
