186th Revised Page 1

On December 12, 2008, NBTC proposed to modify its Tariff F.C.C. No. 1. The proposed modification would address the Customer's obligations and the Telephone Company's role when a hazardous electrical environment existed at the Customer's location. The proposal would have obligated the Customer to obtain and install appropriate high-voltage protection equipment whenever services were provided at any Customer location that presented a hazardous electrical environment (i.e., any premises that included electrical facilities or equipment operating at voltages of 300V peak asymmetrical or greater). Transmittal 193 is scheduled to become effective on December 27, 2008.

With this filing, NBTC wishes to withdraw the tariff material filed under Transmittal 193, without its becoming effective. NBTC wishes to withdraw Transmittal 193 in order to review issues identified in the proposed modification.

In accordance with Section 61.14, this transmittal letter and associated attachments are being filed electronically today via the Federal Communications Commission's Electronic Tariff Filing System (ETFS) in compliance with the electronic filing procedures.
