2.4 Payment Arrangements and Credit Allowances (Cont'd)

2.4.8 Optional Payment Plans (Cont'd)

(D) Transport Payment Plan (Cont'd)

(4) Disconnects (Cont'd)

(f) A change of jurisdiction from interstate to intrastate service constitutes a disconnection of service for which termination charges are applicable. However, if such service continues between the same serving locations, and the customer enters into a new TPP arrangement in the intrastate jurisdiction for the same or larger service capacity and associated rate elements for a service period equal to or greater than the service period remaining under the interstate TPP arrangement, no interstate termination liability charge will be applicable.
(1)

(5) Moves of Service Under TPP

- (a) Moves to a different building will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply as stated in 7.4.5, 7.5.9, 23.5, 29.1.7 and 29.1.9 except as provided in 2.4.8(D)(5)(c) following. A four month minimum service period must be satisfied for all service rate elements serving the original building location.
- (b) Moves of service within the same building will not constitute a disconnection of service for purposes of the application of termination liability charges. Current month-to-month nonrecurring charges specified in 7.4.5, 7.5.9, 23.5, 29.1.7 and 29.1.9 are applicable.
- (c) Termination Liability Charges will not apply to customer requests for moves of service to a different building subject to the following conditions:
- The move from the original location to the new location must be completed within thirty days of the original premises disconnect date. For LightGate systems, the new customer premises must be served by the same serving wire center as the original location. (c)
 - No lapse in billing will occur for moves of service under a TPP arrangement. (c)
 - Orders to disconnect the existing service and reestablish it at the new location must be related together and received by the Telephone Company at the same time.
