

## **DESCRIPTION & JUSTIFICATION**

Cincinnati Bell Telephone (CBT) proposes to introduce a rate element that will apply when a customer requests an expedited due date on a DS1 order. Currently, expedite charges for all services are billed based on the number of applicable Additional Labor charges required to meet the customer request. For DS1 services only, CBT proposes a flat rate-rate expedite charge per expedited order.

The introduction of this rate element is considered by the Commission to be a tariff restructure. Thus, in addition to cost support data for the DS1 Expedite charge, CBT also is attaching a Tariff Review Plan (TRP), Rate Detail File, and estimated demand reflecting the addition of the DS1 Expedite rate element in the High Capacity/DDS basket.
