In this filing Qwest is updating the universal service contribution factors for the fourth quarter of 2009. This update applies the factor as adopted in Public Notice DA 09-2042, released September 14, 2009.

The general USF Charge Factor has been decreased to 0.123 to reflect the fourth quarter 2009 Charge Factor.

Multiline Business USF Charge Factor

As shown in Workpaper 1, "Federal Universal Service Fund Charge Factor Development," the Multiline Business charge factor for each study area is calculated by dividing the Multiline Business lines subject to FCC end user charges by the total number of lines subject to PICC charges pursuant to 47 C.F.R. 69.153. This ratio is multiplied by the fourth quarter 2009 USF Factor to determine the appropriate Multiline Business USF Charge Factor.
