2. With this filing Verizon removes the Switched Access DS1 Optional Payment Plan (OPP) arrangement from Tariff FCC No. 14. This OPP was grandfathered to existing customers on December 31, 2003 under Transmittal No. 393. There are currently no customers purchasing Switched Access DS1 service in an OPP arrangement under Tariff FCC No. 14.

Also, as part of this filing, certain MetroLAN rates that should have been displayed in zones (California and Texas) are being corrected and a Clear Channel Capability rate that was inadvertently included for both N-MSA and zones (California) is being corrected by deletion of the N-MSA rate. There is no rate impact to customers as a result of these administrative changes.

Supporting material as specified under Section 61.49 of the Commission's rules is not required for this filing. There was no Price Cap base period demand for the OPP in the Price Cap Indices filed in the 2009 Annual Filing. Therefore, there is no impact on any of the Price Cap indices. All the elements will be removed from the Price Cap detail with the next filing requiring Price Cap support.

This transmittal letter and associated attachments are being filed electronically today via the Federal Communications Commission's Electronic Tariff Filing System (ETFS).

Payment in the amount of \$815.00 has been electronically transmitted to the U.S. Bank in St. Louis, Missouri, in accordance with the fee program procedures. The Form 159 is being transmitted electronically via ETFS.

In accordance with the requirements of Section 61.21(a)(3) of the Commission's Rules, the FCC Registration Number (FRN) for Verizon is 0003-7085-00. Verizon is making this filing on behalf of issuing carriers with the following FRNs:
