- ❑ Parts 61 and 69 of the Commission's Rules as stated herein.

The *LEC Price Cap Order* requires an annual access tariff filing in which Ameritech Operating Companies (Ameritech) is required to adjust the price cap indices (PCIs) for each basket of services, based on the change in the Gross Domestic Product Price Index (GDP-PI), a transitional mechanism (x-factor) and exogenous cost changes. Ameritech has incorporated the demand and revenue/cost of those new services introduced during the 2009 base period, and has calculated the PCI for each affected basket and service category, including the new services, in accordance with the Commission's Rules and the *LEC Price Cap Order*.

## **2. EXOGENOUS COST DEVELOPMENT ( $\Delta Z$ )**

Part 61.45(a) requires that local exchange carriers (LECs) adjust their PCIs to reflect the dollar effect of the exogenous cost changes ( $\Delta Z$ ). According to Parts 61.45(b), this dollar effect must be measured at the base period level of operations.

In the 2010 Annual Filing, Ameritech will make the following exogenous adjustments, which are allowable in accordance with the *Code of Federal Regulations* (CFR) or were designated in Commission Orders:

- Excess Deferred Tax (EDT)
- Investment Tax Credit (ITC)
- Regulatory Fee Payment Exogenous
- Telecommunications Relay Service (TRS)

Part 61.45(d)(3) requires that exogenous cost changes be apportioned between price cap services and excluded services. Ameritech adjusted the exogenous cost changes to remove impacts associated with services that are excluded from price cap regulation, to the extent that revenues

for these services existed and were identifiable. The costs associated with non-price cap services, included in Parts 36 and 69 costs, are not identifiable. Consequently, Ameritech assumes that the costs for these services are equivalent to the revenue from these services. Ameritech excluded a percentage of exogenous costs equivalent to the percentage of total identifiable interstate access, including revenue associated with approved pricing flexibility petitions, and Interexchange services revenue that represents non-price cap service revenue. In accordance with Part 61.45(d)(3), no exogenous adjustment will be allocated to Average Traffic Sensitive (ATS) revenue.

## **2.A EXCESS DEFERRED TAX**

The FCC, in its *LEC Price Cap Reconsideration Order*, paragraph 72, allowed exogenous treatment of the flow-through of Excess Deferred Income Tax (EDT). In this filing, Ameritech reflects the estimated exogenous cost changes associated with this item for the 2010-2011 tariff period. **Exhibit 2** provides the development of the EDT impacts for each Ameritech study area. **Exhibit 2.1** provides additional historical information for EDT and the remaining EDT available for future annual filings.

## **2.B INVESTMENT TAX CREDIT AMORTIZATION**

The FCC, in its *LEC Price Cap Reconsideration Order*, paragraph 72, allowed exogenous treatment of the flow-through of the repeal of the Invest Tax Credit (ITC). In this filing, Ameritech reflects the estimated exogenous cost changes associated with this item in **Exhibit 2.2** for the 2010-2011 tariff period. **Exhibit 2.3** provides additional historical information for ITC and the remaining ITC available for future annual filings.

## **2.C COMBINED EFFECT**

The combined effect of EDT and ITC is developed to determine the impact of all exogenous cost changes on the interstate revenue requirements. *Exhibit 2.4* summarizes this impact. Details pertaining to this calculation are shown in *Exhibit 2.5*.

## **2.D TELECOMMUNICATIONS RELAY SERVICES (TRS) FUND**

The Commission has also ruled Telecommunications Relay Service (TRS) fund payments<sup>1</sup> may be treated as exogenous. On May 14, 2009, the Commission released FCC 09-39 (CC Docket 03-123), revising the TRS factor from .01012 to .01137, which is being employed as the basis of this exogenous change as no revised factor has yet been released. Therefore, Ameritech is estimating the total TRS contribution amount for the ensuing tariff period based on the revised factor and revenue. The development of the TRS exogenous cost for this filing is provided in *Exhibit 2.6A*, and will be updated in the June 2010 tariff filing if, in the interim, the Commission modifies the factor.

## **2.E REGULATORY FEE PAYMENTS EXOGENOUS ADJUSTMENTS**

The filing for exogenous treatment of Regulatory Fees is consistent with Parts 61.45(a) and 61.45(d)(1)(vi) of the Commission's Rules and Regulations and the Common Carrier Bureau's October 7, 1994 Order.<sup>2</sup> On April 13, 2010, the Commission released its Order, In the Matter of Assessment and Collection of Regulatory Fees for Fiscal Year 2010, MD Docket 10-87 (FCC

---

<sup>1</sup> In the Matter of Telecommunications Relay Service, and the Americans with Disabilities Act of 1990, CC Docket No. 90-571, Second Order on Reconsideration and Fourth Report and Order, released September 29, 1993, paragraph 18.

<sup>2</sup> Price Cap Treatment of Regulatory Fees Imposed by Section 9 of the Communications Act Order, (DA 94-1119) (Common Carrier Bureau, released October 7, 1994), (Erratum released November 2, 1994) paragraph 6, granting a waiver to permit exogenous cost treatment of regulatory fees.

10-51), detailing the proposed factor for the Fiscal Year 2010. Ameritech is estimating regulatory fee payments and the corresponding exogenous adjustment based on the proposed factor and revenue. The exogenous adjustment is detailed in *Exhibit 2.6B*.

## **2.F SUMMARY OF EXOGENOUS COSTS & DISTRIBUTION**

Part 61.45(d)(4) of the Rules requires that exogenous cost changes be apportioned between price cap services and excluded services. The combined exogenous cost changes have been adjusted to remove impacts associated with services that are excluded from price cap regulation, to the extent that revenues for these services existed and were identifiable. The costs associated with non-price cap services, included in Parts 36 and 69 costs, are not identifiable. It is assumed that the costs for these services are equivalent to the revenue from these services. A percentage of exogenous costs are equivalent to the percentage of total identifiable interstate access and Interexchange services revenue that represents non-price cap service revenue. Totals of all exogenous costs applied in this filing are summarized on *Exhibit 2.9*.

## **10. PART 69 WAIVERS**

The following is a list of Part 69 waivers involving Ameritech, Southwestern Bell Telephone Company (SWBT), Pacific Bell Telephone Company (PBTC), Nevada Bell Telephone Company (NBTC), The Southern New England Telephone Company (SNET), and BellSouth Telecommunications, Inc. (BellSouth), collectively the AT&T Companies, including a citation to the Order granting the waiver and the basket and service category, if applicable, and the treatment of rate elements created by the waiver:

- SBC Companies – Order (DA 05-1607), released June 6, 2005, granting permission to waive True IP to PSTN (TIPTop) services from price caps for the 2005 Annual access tariff filing requirements.

- SNET and Ameritech - Order, released December 2, 1996, granting waiver of Parts 69.110, 69.111 and 69.112 to establish new rate elements associated with a new SONET-based switched transport service. These charges are included in the HiCap Category of the Trunking Basket.
- Ameritech - Order, released March 27, 1996, to establish unbundled rate elements for SS7 service. These rate elements are included in the Traffic Sensitive and Trunking baskets.
- SWBT - Bureau Order, released January 26, 1996, granting the establishment of a new-switched access rate element to recover the costs incurred in provisioning of file transfer in conjunction with DirectLine Custom Service. This rate element is in the Information Service Category of the Traffic Sensitive Basket.
- SWBT - Bureau M O & O, released December 6, 1994, granting the establishment of five new rate elements for Designated Operator Services (DOS). These rate elements are included in the Interexchange Basket.
- SBC Companies - Bureau Order, released November 30, 1994, granting establishment of a new rate element for 500 Access Service. SWBT, Ameritech, and PBTC include this rate element in the Local Switching Service Category of the Traffic Sensitive Basket. SNET includes this rate element in the Database Service Category of the Traffic Sensitive Basket. NBTC does not offer the service.
- SBC Companies - Bureau Order, released December 17, 1993, granting a waiver of Part 69.113, for all LECs to allow tariffing of a Nonpremium charge for the interconnection charge. This resolved a conflict between the Transport Order and the Rules. This rate element is included in the Interconnection Service Category of the Trunking Basket.
- SBC Companies - Bureau Order, released July 23, 1993, granting a blanket waiver of Part 69 of the Commission Rules to enable all Local Exchange Carriers to tariff interstate access elements that reasonably reflect facility arrangements for transport between the Telecommunications Relay Service (TRS) service bureau and associated tandem switches until October 31, 1995, when the interim local transport structure was scheduled to be replaced. These rate elements are included in the HiCap Service Category of the Trunking Basket.
- SBC Companies - Bureau Order, released February 26, 1993, granting an additional routing option for Interexchange carriers (IXCs). It allows IXCs to terminate FGB traffic to nonconverted end offices over the IXC's access tandem network FGD trunk groups at rates equal to the FGD (premium rate). Implementation of this provision affects Local Switching demand in the Traffic Sensitive Basket, Interconnection demand in the Trunking Basket and the Carrier Common Line demand in the Common Line Basket.

The Commission established a blanket waiver for all carriers who provide operator services to include Line Status Verification, Call Interruption and Operator Transfer. The Commission did not specify applicable price cap baskets or service categories in the waiver.
- SWBT - Bureau MO&O, released June 15, 1990, granting establishment of new switched access rate elements to recover the cost incurred in the provision of DirectLine Custom Service. These rate elements are included in the Information Service Category of the Traffic Sensitive Basket.
- SWBT and PBTC - Bureau MO&O, releases May 31, 1990, granting the establishment of rate elements for Operator Call Processing Service. These rate elements are included in the Interexchange Basket.
- SBC Companies - Bureau MO&O, released September 28, 1988, granting establishment of a rate element for the recovery of costs incurred in the provision of 900 Access Service. This rate element is included in the Local Switching Service Category of the Traffic Sensitive Basket.
- SBC Companies - Order, released September 3, 1987, granting permission to determine the Message Unit Credit (MUC) on a statewide basis instead of an exchange basis, as stated in Part 69.106(c). The waiver was extended via the 1989 and 1990 Waiver Orders. This charge is included in the Local Switching Service Category of the Traffic Sensitive Basket.
- SBC Companies - Bureau MO&O, released June 12, 1987, granting an additional routing option for Interexchange carriers to have their Nonpremium 800 service traffic routed over existing access tandem network Feature Group D trunk groups at premium rates. This affects the rate elements included in the Local Switching and Interconnection service categories of the Traffic Sensitive and Trunking baskets, respectively.
- SNET - Commission Order, released June 7, 1985, granting permission to disaggregate the Directory Assistance Charge into a charge "per call" and a charge "per minute of use (MOU)." This waiver was extended indefinitely "pending further order" in the Commission's

1989 Waiver Order, paragraph 6, released December 2, 1988. This charge is included in the Information Service Category of the Traffic Sensitive Basket.

- SBC Companies - Commission MO&O, released August 22, 1983, established the \$25.00 Special Access Surcharge (waiving Part 69.115 (c)) for private line subscribers who actually leak traffic into the local network. This grant was extended in the 1985 Waiver Order, released June 7, 1985, and again addressed in the 1989 Waiver Order, released December 2, 1988, granting waiver in force pending resolution of the Special Access Surcharge issues. This rate element is included in the Common Line Basket.
