

Cincinnati Bell Telephone LLC

Tariff FCC No. 35

Transmittal No. 845

DESCRIPTION & JUSTIFICATION

Cincinnati Bell Telephone (CBT) proposes introduce its Incremental Spend Discount Plan (ISDP). ISDP is an optional discount plan that allows a customer, that increases the amount of Special Access Services it purchases from CBT, to aggregate the increased revenue spend and receive a discount.

The ISDP is a term plan consisting of 12 consecutive full monthly billing periods. Base Revenue is calculated on gross billed revenue for Qualifying Services.

Base Revenue is determined prior to the beginning of the Term. The Telephone Company will determine Base Revenue by averaging the billed revenue for three full months of Qualifying Services in the Customer's ACNA(s) prior to the start of the Term and annualize by multiplying by twelve.

Term Revenue is the revenue billed for Qualifying Services during the Term within the Customer's ACNA(s), less past due, disputed billed amounts, and early termination charges, which will not be included in the calculation of the Term Revenue. Credits given to the Customer during the term will be included in the calculation of the Term Revenue.

Incremental Spend is the amount by which Term Revenue Exceeds the Base Revenue. Qualifying Services are the current recurring billing month Channel Terminations, Channel Mileage, and Optional Functions and Features for Special Access services purchased by the Customer specified below:
