## ACCESS SERVICE

### 1. Application of Tariff

- 1.1 This tariff contains regulations, rates and charges applicable to the provision of Carrier Common Line, End User Access, Lifeline Assistance, Universal Service Fund, Switched Access, Special Access Services, Expanded Interconnection Service, and other miscellaneous services, hereinafter referred to collectively as service(s), provided by the Issuing Carriers of this tariff, hereinafter referred to as the Telephone Company, to customers.
- 1.2 The provision of such services by the Telephone Company as set forth in this tariff does not constitute a joint undertaking with the customer for the furnishing of any service.
- 1.3 References in this tariff to a Special Construction Tariff refers to the following tariff as effective in its respective territories:
- |                      |   |
|----------------------|---|
| TARIFF F.C.C. NO. 21 | for Verizon North Retain Co., Verizon South Inc., GTE Southwest (C) Incorporated, and Verizon California Inc. |

## ACCESS SERVICE

6. Switched Access Service (Cont'd)

6.2 Switched Access Service Arrangements (Cont'd)

6.2.12 Common Channel Signaling System 7 Access Service (Cont'd)

(E) SS7 Transport

SS7 Transport provides for message transport in support of services which require receiving and terminating signaling information using the SS7 protocol. SS7 Transport will route messages to the appropriate global title address or to the signaling point code address based on STP translations. Customer STP interconnection can be obtained by interconnection at any of the Telephone Companies STP pair locations as shown in this section.

Interconnection at primary STP locations will provide for SS7 transport to other primary STP locations within the Telephone Companies SS7 Network. The Telephone Companies primary STP locations are:

Santa Monica and Long Beach, California

Denton and Irving, Texas

Manassas and Occoquan, Virginia

(D)

SS7 Transport is comprised of two rates. One rate is applicable for SS7 Transport between Primary STP locations. The second rate is applicable for SS7 Transport between a Primary STP location and any local STP location.

A customer ordering SS7 Transport must, at minimum, subscribe to the Telephone Company's Common Channel Signaling System 7 (CCS7) Access Service as shown in this section.

## ACCESS SERVICE

6. Switched Access Service (Cont'd)6.2 Switched Access Service Arrangements (Cont'd)6.2.14 Basic Service Elements (Cont'd)(I) Signaling System 7 Message Waiting Indicator (SS7MWI) Signaling Service (Cont'd)

- (5) Additionally, SS7MWI Signaling Service can only be used to update MWI for end users served from suitably equipped switching equipment in designated LATA STPs which are capable of responding appropriately to MWI TCAP messages.
- (6) The customer is responsible for obtaining SS7 interconnection directly from Verizon under the provisions of Section 6.2.12 of this tariff. The customer of record for the SS7 interconnection shall also be the customer of record for SS7MWI Signaling Service. In the event that the customer chooses to use another SS7 provider to interconnect with Verizon, the customer shall be unable to receive the SS7MWI Signaling Service, and will have to make separate arrangements with the SS7 provider.
- (7) SS7MWI Signaling Service shall be ordered separately for each STP pair in each LATA requiring the service. Each such order will be considered a messaging arrangement. Each ASR submitted will contain no more than two (a Primary and a Secondary) Voicemail Platforms per messaging arrangement. If a customer seeks to connect more than two Voicemail Platforms to a given Verizon STP pair, an additional ASR will be required for each additional pair of Voicemail Platforms per STP pair in a LATA.
- (8) A monthly recurring charge as set forth in Section 6.6 applies per messaging arrangement to allow for the transmission of SS7MWI Signaling Service.

## ACCESS SERVICE

### 6. Switched Access Service (Cont'd)

#### 6.5 Rate Categories, Applications, and Regulations (Cont'd)

##### 6.5.6 Determination of Nonpremium and Premium Rates (Cont'd)

###### (A) (Cont'd)

- (2) Nonpremium usage rates apply to all FGA, FGB, BSA-A or BSA-B access minutes (measured or assumed) and all 500 Access Service, Toll Free Access Service and 900 Access Service access minutes that originate from or terminate at end offices not equipped with equal access capabilities, except where the service is provided to AT&T. Nonpremium rates also apply to all FGA, FGB, BSA-A and BSA-B access minutes originating from or terminating to an end office subtending a centralized Telephone Company equal access tandem where the use of a 101XXXX access code is not available. (D)

Where originating and/or terminating measurement capability does not exist for FGA, FGB, BSA-A or BSA-B provided to an entry switch, the number of access minutes that will be assumed are as set forth in Section 6.6.

###### (B) Transition Billing Arrangement

- (1) When FGA, FGB, BSA-A or BSA-B Switched Access Service provided to an entry switch (i.e., dial tone office for FGA or BSA-A and Telephone Company access tandem for FGB or BSA-B) has usage originating from and/or terminating at both end offices that have been converted to equal access and end offices that have not been converted, the premium and nonpremium rates will apply in the following manner:
- (2) All access minutes that originate from or terminate at the equal access end office(s) will be billed at premium rates. Access minutes that originate from or terminate at end offices not equipped with equal access capabilities, and those end offices subtending a centralized Telephone Company equal access tandem as specified in (A)(2), hereinafter, referred to as nonpremium access minutes, will continue to be billed at nonpremium rates. Nonpremium usage rates will apply as follows depending on the type of service.
- (3) The number of non-premium access minutes to be billed at nonpremium rates is derived by subtracting the number of premium rated access minutes from the total number of access minutes.

## ACCESS SERVICE

### 7. Special Access Service (Cont'd)

#### 7.1 Provision of Special Access Service (Cont'd)

##### 7.1.9 Jurisdictional Determination (Cont'd)

- (D) Customers reporting a change in the jurisdiction of special access circuits subject to individual case basis (ICB) rates and charges set forth in this tariff will not be subject to termination liability charges unless the change results in the termination of the service.

##### 7.1.10 Interzone Service

Interzone Service provides the transmission facilities for DS1 and DS3 Special Access between two service areas within a state in association with two customer designated locations within different service areas. The Circuit Mileage will be applied as set forth under 7.2.1(B).

Interzone Service is available between the following service areas, where facilities and conditions permit.

<u>State</u>	<u>Location "A"</u>	<u>CLLI Code</u>	<u>Location "Z"</u>	<u>CLLI Code</u>
<u>California*</u>	Ontario # San Bernardino #	ONTRCAXP SNBRCAXK	Palm Springs # Palm Springs	PLSPCAXG PLSPCAXG

## ACCESS SERVICE

### 7. SPECIAL ACCESS (Cont'd)

#### 7.15 Bonded Digital Link Service (Cont'd)

##### 7.15.2 Terms and Conditions (Cont'd)

- (3) Bonded Digital Link Service is provided with a one-year minimum service period. If service is disconnected prior to satisfying the minimum service period (i.e., within the first twelve months), minimum period charges apply. The minimum one-year period and minimum period charges do not apply if the rates have increased during the one-year period. The minimum period charge is equal to 100 % of the monthly rate from the date of disconnection through the balance of the first twelve months of service.
- (4) This service is used for connectivity within or between wire centers. The rates and charges for Bonded Digital Link Service apply as a flat rate per DS0 equivalent channel.
- (5) Credit for an interruption of Bonded Digital Link Service is subject to the basic credit allowance set forth for Special Access services as set forth in Section 2.7.1.1 preceding.
- (6) Bonded Digital Link Service is provided according to service date intervals as set forth in Section 5.1.7 preceding.
- (7) The rates and charges for Bonded Digital Link Service apply per DS0 equivalent channel (64 kbps). The customer is assessed either an Intra-office or an Inter-office Channel Charge for each DS0.

##### 7.15.3 Rates and Charges

	<u>USOC</u>	<u>Monthly Rates</u>	
Intra-office Channel - Per DS0	CU85X		
Texas		\$3.00	(D) (T)
