
ACCESS SERVICE

15. Centralized Equal Access Serving Wire Center

6

15.1 General

This section lists those Telephone Companies that provide FGD and BSA-D service within a Centralized Equal Access ("CEA") Telephone Company access tandem network. Also, those locations for which the Telephone Company has designated the serving wire center(s) and/or an interconnection point(s) for a CEA Telephone Company access tandem network are shown below. The following locations are listed by state. Local Transport charges will be calculated based on regulations set forth in 6.5.2 (A)(1) and (2). When a customer connects to a CEA tandem network at an interconnection point that is not designated as a serving wire center, Local Transport mileage will be measured to the designated serving wire center for that interconnection point, as set forth below. Serving wire centers, CEA Telephone Company access tandems and subtending end offices and the associated V&H coordinates are found in the National Exchange Carrier Association Tariff FCC No. 4.
