4. OPTIONAL CALLING PLANS (Cont'd)4.1 Business Corridor Optional Calling Plan (Cont'd)

(A) General (Cont'd)

- (3) Only billed telephone numbers (BTN) provided and billed by the Telephone Company are qualified for inclusion in this Plan. The ordering Customer and another Customer(s) under common ownership with the ordering Customer may choose to combine BTNs under a single Plan to maximize their monthly volume discount. The ordering Customer must provide a written list of BTNs to the Telephone Company. The ordering Customer will be considered to be under common ownership with another Customer if the ordering Customer (directly or indirectly) owns or controls, or is owned or controlled by, or is under common ownership or control with, the other Customer. For these purposes, the term "own" means to own an equity interest (or the equivalent thereof) of more than fifty (50%) percent.
- (4) The ordering Customer may request changes to the BTN list at any time by written request to the Telephone Company.
- (5) The Plan includes the Telephone Company's provisioning of Corridor Selection Service (CSS), which allows Plan Customers to complete calls within the Corridor areas described above where facilities permit. CSS is an umbrella term that includes any service that eliminates the need for Customers to dial the Corridor Dial-Around Code or any other access code in order to complete a Corridor Call. CSS includes, but is not limited to, the provisioning of Automatic Corridor Service, programming or re-programming of Centrex Automatic Route Selection, Virtual Private Network Routing Control, or Stand Alone Routing Control. CSS will always provide transparent access for Customers placing calls within the Corridor areas. The Telephone Company will provide CSS as a free service with no monthly or non-recurring charges.
- (6) As an alternative, to complete a call under the Plan, the person originating the call can dial a uniform 7 digit access code as follows before dialing the desired telephone number:
 - (a) For calls which originate in the New Jersey portion of the New Jersey and New York Corridor and the New Jersey and Pennsylvania Corridor:
 - 1010NJB (1010652)
 - (b) For calls which originate in the Pennsylvania portion of the Pennsylvania and New Jersey Corridor:
 - 1010BPA (1010272)
