## **SECTION 1 INTRODUCTION AND SUMMARY**

### **Introduction**

The Consolidated Communications Companies, consisting of Consolidated Communications of Texas Company d/b/a Consolidated Communications and Consolidated Communications of Fort Bend Company d/b/a Consolidated Communications, hereby provide a Description and Justification for its limited Tariff Review Plan revisions to F.C.C. Tariff No. 1 with individual company rates (Section 17 and Section 18, respectively), along with supporting documentation proposed under Transmittal No. 29 of the Consolidated Communications Companies. This information is an update from the filing made on June 16, 2010 and is being adjusted to reflect the submission of the Commission 2010 TRS order as well as updated Regulatory Fee rates per the final Regulatory Fee order. Accordingly, the filing will reflect the new rates inherent with the TRS and Reg Fee orders as well as adding the prorata incremental difference of the exogenous changes between its original June 16 filing and today. It is being filed in accordance with the Commission's 2010 TRP Notice released March 31, 2010 (DA 10-505 and DA 10-506) and fulfills the requirements established in Sections 61.41 through 61.49 of the Commission rules.

### **Description of the Consolidated Communications Companies Operations**

The Consolidated Communications Companies (CCC) consists of two separate legal entities: Consolidated Communications of Texas Company (CCTX) d/b/a Consolidated Communications and Consolidated Communications of Fort Bend Company (CCFB) d/b/a Consolidated Communications. Both of these entities are price cap companies pursuant to FCC Order DA 08-1026<sup>1</sup> that fall under Sections 61.41 through 61.49 of the Commission's Rules and relevant Commission Orders.<sup>2</sup> They provide local service, toll, private line services, access services, DSL, CLASS services, and other modern telecommunications services to their customers.

CCTX originated with three separate telephone companies that merged over the years. Lufkin Telephone Exchange officially began business in 1898 and was incorporated in the state of Texas in 1910. Conroe Communications Company began providing service in the Conroe area in 1899 and was purchased by the owners of Lufkin Telephone Exchange and incorporated as the Conroe Telephone Company in 1929. The Alto Telephone Company was purchased in 1963. Ownership of the 3 entities was consolidated in 1969 to form Lufkin-Conroe Communications Company. In 1997, Lufkin-Conroe Communications Company and its subsidiaries were purchased by Texas Utilities Company and became TXU Communications Telephone Company. In April

<sup>1</sup> See, Order, Consolidated communications Petition for Conversion to Price Cap Regulation and for Limited Waiver Relief, DA 08-1026.

<sup>2</sup> See, Order, July 2010 Annual Access Charge Tariff Filings, released March 31, 2010, DA 10-505 ("2010 Filing Order"); and Tariff Review Plans, Material to be filed in support of 2010 Annual filings, DA 10-506, released March 31, 2010 ("2009 TRP Order").

2004, Consolidated Communications, Inc. purchased the company, changing the name to Consolidated Communications of Texas Company (CCTX).

CCTX is a rural East Texas telecommunications carrier providing service to approximately 94,000 customers in two distinct market areas: Conroe and Lufkin. The 16 communities served include: Alto, Apple Springs, Central, Conroe, Cut-N-Shoot, Diboll, Etoile, Fuller Springs, Grangerland, Hudson, Lake Conroe, Lufkin, Montgomery, Riverbrook, Walden, and Wells. The 7 exchanges of the Conroe market area contain approximately 58,000 customers, primarily in Montgomery County.

The Lufkin market area serves 9 exchanges and 36,000 access lines in a separate area 85 miles north of the Conroe area, centered on the city of Lufkin. The area economy is supported primarily through manufacturing of paper and metal products, retail sales, service companies, government entities, and farming.

CCFB began business in 1898 as Fort Bend Telephone Company and was incorporated in Texas in 1910. In May 2000, Fort Bend Telephone Company and its affiliates were purchased by Texas Utilities Company and became Fort Bend Telephone Company d/b/a TXU Communications. In April 2004, TXU Communications, including Fort Bend Telephone Company, was purchased by Consolidated Communications, Inc., which changed the name to Consolidated Communications of Fort Bend Company (CCFB).

CCFB is also a rural carrier with approximately 35,000 access lines in 5 East Texas exchanges: Beasley, Brookshire, Damon, Katy, and Needville. CCFB possesses the same rural characteristics as CCTX, providing service in Brazoria, Harris, Fort Bend and Waller counties.

## **SECTION 2 OVERVIEW OF FILING PACKAGE**

### **Tariff Support Material**

This support material is submitted pursuant to Part 61.49 of the Federal Communications Commission (Commission) Rules and Regulations and the Order issued in WCB/Pricing 10-03, July, 2010 Annual Access Charge Tariff Filings, and Tariff Review Plans issued in WCB/Pricing 10-04, Material to be Filed in Support of 2010 Annual Access Tariff Filings, both adopted and released March 31, 2010.

In addition to the description and justification contained in this volume, the following information is submitted to provide specific support data at the proposed tariff level of detail for the Consolidated local operating companies.

#### ***Description and Justification***

### **SECTION 3 TARIFF SUPPORT**

#### **PCI Development**

In Accordance with the Commission's Rules, the PCI for each service basket were calculated as shown in Exhibit RDEV-1, Page 1 of 5. A GDP-PI factor of 0.6410% was used in calculating the PCI's and is based on the percentage change in the Gross Domestic Product Price Index (GDP-PI) between the quarter ending December 31, 2009 and the corresponding quarter of the 2008 GDP-PI.

As directed by the Commission,<sup>3</sup> a workpaper identifying the transmittal or letter filing date where the last index changes were implemented for the price cap categories has been included in Exhibit 2, RDEV-1, pages 4,5, and 6. Also, pursuant to DA 08-1026<sup>4</sup>, Consolidated has excluded ICLS receipts from its CMT PCI calculations and has accordingly set exogenous costs to zero for its Common Line Basket.

Because the effects of GDP-PI – X and g are targeted to the Average Traffic Sensitive Rate, the prospective PCI values for the Traffic Sensitive and Trunking Baskets are typically calculated by adjusting the existing PCI values for the effects of exogenous cost changes allocated to those baskets plus the amount of ATS targeting allocated to those baskets. Because Consolidated Communications Companies has already achieved its ATS target rates prior to this filing, the Traffic Sensitive and Trunking PCI values reflect no ATS targeting. The prospective PCI values for the Special Access Basket are calculated using formula found in 61.45(b) of the Commission's rules. Calculation of PCI values is shown in Exhibit 2, RDEV-1, Page 1 of 5.

#### **Determination of Exogenous Changes**

In Accordance with the Commission's Rules, Consolidated developed certain exogenous changes for inclusion in the price cap formula. These changes include: (1) North American Number Plan Administration; (2) Regulatory Fees; and (3) Telecommunications Relay Service Fees.

Exogenous cost changes were individually developed for each of the items outlined above, and in the aggregate for all changes. Consolidated used base year 2008 (time of its last tariff filing) to estimate exogenous costs embedded in rates. Consolidated has also

---

<sup>3</sup> 2010 TRP Notice, Supra., Paragraph 10.

<sup>4</sup> See, Order, Consolidated Communications Petition for Conversion to Price Cap Regulation and for Limited Waiver Relief, DA 08-1026 para 18.

normalized the exogenous amounts to reflect any shift in revenue growth. The result is that no exogenous adjustment is made if the support rate has not changed. In other words the rate per line remains unchanged if the factor is unchanged. A brief description of each change follows and a summary of the exogenous changes is shown in Exhibit 2, RDEV-1, Page 2 of 5. The detail of the exogenous cost changes is shown in its TRP, Form EXG-1, Pages 1 and 2.

#### North American Numbering Plan Administration

On June 27, 2001, the Federal Communications Commission release an order approving the compensation plan for the North American Numbering Plan Administration (NANPA) for fiscal year 2001.<sup>5</sup> The Commission reviewed and accepted the North American Numbering Plan Administrator submission and ordered that a contribution factor of 0.0000181<sup>6</sup>. This factor is used as an estimate for application to end user revenues of each telecommunications carrier in the United States to fund the program for the 2010 fiscal year (July 2010 to June 2011). The impact of the NANPA support has been included as an exogenous cost in this filing as shown in Exhibit 2, RDEV-1, Page 2 of 5.

#### Regulatory Fees

Earlier Commission decisions<sup>7</sup> allow local exchange companies to reflect the impact of regulatory fees as an exogenous cost in annual price cap filings. The impact of regulatory fee changes for the July 2010 – June 2011 fiscal year was calculated using a factor of .00349 as prescribed in the Commission's *Regulatory Fee Order*,<sup>8</sup> and has been included as exogenous cost in this filing and is shown in Exhibit 2, RDEV-1, Page 2 of 5.

#### Telecommunications Relay Service

The Americans with Disabilities Act (ADA) required that all common carriers providing interstate voice telecommunications provide Telecommunications Relay Service (TRS) to customers effective July 26, 1993. In its *Third Report and Order* in CC Docket No. 90-571,<sup>9</sup> the Commission required that all common carriers providing interstate telecommunications services contribute to an interstate shared fund to support the TRS function. The impact of the TRS exogenous cost for this filing is calculated using the

.00585 contribution factor prescribed in the Commission's TRS Order<sup>10</sup> and is displayed on Exhibit 2 , RDEV-1, Page 2 of 5.

### **Rate Detail and other Exhibits**

Rate Detail files will be submitted during the Consolidated TRP submission to display demand quantities, current rates, and proposed rates, and the associated quantities for the specific baskets. For CMT, proposed SLC rates are set at current capped levels pursuant to the Consolidated's price cap order<sup>11</sup> and PICC and CCL rates continue to be zero. For non-CMT baskets, PCI, SBI, and sub-index calculations are shown.

Consolidated also includes a revenue impact analysis in Exhibit 3, RDET1 to display overall impacts of any rate changes in the filing.
