

**Cincinnati Bell Telephone LLC**

**Tariff FCC No. 35**

**2010 Mid-Year Tariff Review Plan Filing**

**Transmittal No. 854**

**December 16, 2010**

## **Description & Justification**

### **Introduction**

Cincinnati Bell Telephone Company (CBT) makes this mid-year 2010 Tariff Review Plan (TRP) Filing in order to adjust rates in Section 6 – Switched Access Service and also to introduce a new DS3 Expedite element in Section 7 - Special Access Service. This filing also revises the Federal Universal Service Fund contribution factor for first quarter 2011.

### **Switched Access**

CBT is lowering the rates for its 1.544 Mbps STP Ports and 1.544 Mbps IP STP Ports. These rate elements are in the Price Caps Traffic Sensitive Basket.

Accordingly, CBT is increasing rates for the Local Switching and DS0 End Office Trunk Port rate elements within the Traffic Sensitive Basket. , CBT is reflecting In the attached Tariff Review Plan (TRP), and Rate Detail the impact of the Switched Access rate changes.

### **DS3 Expedite Charge**

Cincinnati Bell Telephone (CBT) proposes to introduce a rate element that will apply when a customer requests an expedited due date on a DS3 order. Currently, expedite charges for DS3 service are billed based on the applicable Additional Labor charges required to meet the customer request. For DS3 services CBT proposes a flat rate-rate expedite charge per expedited order.

The introduction of this rate element is considered by the Commission to be a tariff restructure. Thus, in addition to cost support data for the DS3 Expedite charge, CBT is reflecting in the attached Tariff Review Plan (TRP), Rate Detail File, and estimated demand sheet the addition of the DS3 Expedite rate element in the High Capacity/DDS basket.

### **Universal Service Fund**

Cincinnati Bell Telephone (CBT) proposes to revise the Universal Service Fund (USF) factor per Commission Order. The Commission released its *Proposed First Quarter 2011 Contribution Factor*, DA 10-2344 on December 13, 2010. The Commission proposed a USF factor of 15.5 % up from the previous factor of 12.9 %. CBT recovers its USF contribution, pursuant to the Commission's Contribution Methodology Order<sup>1</sup> by applying the relevant USF Contribution factor to the following charges:

- \* EUCL
- \* Presubscribed Interexchange Carrier (PIC) change charge
- \* End-User Special Access
- \* Interstate IntraLATA Toll usage

The USF surcharge for these services is reflected as a separate line item, clearly identified on the customer's bill.

---

<sup>1</sup> Report and Order and Second Further Notice of Proposed Rulemaking in CC Docket No. 96-45, CC Docket No. 98-171, CC Docket No. 90-571, CC Docket No. 92-237, CC Docket No. 99-200, CC Docket No. 95-116, and CC Docket No. 98-179, FCC 02-329, Released December 13, 2002.
