(3) (Cont'd)

For a period of two years from the date of BellSouth SWA FGD or BellSouth SWA TSBSA 3 discontinuance, the IC discontinuing service will be responsible for paying the change charge for any of its designated end users or location providers or its authorized agents.

- (4) The Telephone Company will waive the applicable subscription change charge to the end user or location provider or its authorized agent when the end user or location provider or its authorized agent has been incorrectly assigned.

(5) Interexchange Carrier Pays Billing Option

The Interexchange Carrier Pays (IC Pays) Billing Option is an option that permits an Interexchange Carrier to be charged by the Telephone Company for their end user's PIC change charge when the Telephone Company changes an end user's primary IC assignment.

The PIC change may either be requested via an IC-provided end user or agent list submitted in the Customer Account Record Exchange (CARE) format (IC Pays – Carrier Initiated) or by the end user customer directly to the Telephone Company (IC Pays – Customer Initiated).

ICs that subscribe to "IC Pays – Carrier Initiated" have the option to redirect billing of the PIC change charge on a case by case basis.

For ICs that subscribe to "IC Pays – Customer Initiated", all billing of end user PIC changes to the IC's CIC (and at the IC's option, changes from the IC's CIC to "No PIC") initiated through the Telephone Company will be redirected to the IC.

The IC submitting the PIC change must sign an IC Pays Billing Option agreement with the Telephone Company for either of the IC Pays Billing Options to apply.

When these conditions have been met, the end user customer will not be assessed the Subscription Change charge for the PIC change. The IC participating in the IC Pays Billing Option will be charged the Subscription change charge per line or trunk as set forth in (E), following.

- (E) The nonrecurring charge for a change in subscription and the charges for On-Line Transfer Service are as follows:
- a. Manual - Manually handled PIC changes are initiated via direct customer contact from End User customers to their appropriate BellSouth Service Center. Service orders with PIC change requests received from End User customers will receive a manual PIC change charge per request. Manual subscriber order lists submitted to the Equal Access Service Center (EASC) require resources in the EASC to handle these requests and are assessed a manual PIC change charge.
  - b. Mechanized - The IC may initiate mechanically generated PIC change requests via available BellSouth ordering systems.

Simultaneous PIC Changes (PIC and LPIC changes) Simultaneous PIC changes are when either the End User customer or the IC changes both the PIC and LPIC and the IC is the same for both the PIC and LPIC, made at the same time (period of time/day), on the same service order.<sup>1</sup>

Note 1: When a end user requests one IC for their PIC and another IC for their LPIC, the order is not a simultaneous change. If two ICs issue an order for the same end user customer on the same day and one IC is the end user's PIC and one IC is the end user's LPIC, the order is not considered a simultaneous change as two unrelated service orders are issued independently.
