The credit shall be applied to each rate element associated with the interrupted facility (e.g., channel termination, channel mileage, and optional features and functions;) and shall be credited at the rate in effect on the day the outage is reported by the customer. The credits shall not exceed the monthly rate for the facility interrupted in any one monthly billing period.

(7) SONET and Ethernet Virtual Private Line (EVPL) Performance Maintenance Guarantee

For Shared SONET Ring Services, Gateway SONET Ring Services and Ethernet Virtual Private Line service, no credit shall be allowed for an interruption of less than one minute. If covered facilities fail for one minute or more, the customer will be credited 100% of the monthly recurring charges associated with the interrupted facility.

## ACCESS SERVICE

7. Special Access Service (Cont'd)7.4 Rate Regulations (Cont'd)7.4.20 Ethernet Virtual Private Line (Cont'd)(E) Service Level Agreement (Cont'd)(1) SLA Definitions (Cont'd)Jitter

Jitter measures the variance in frame delay (in milliseconds) between two performance test frames as measured at the ingress and egress NIDs for Gold and Silver QoS. (C)

This SLA will be calculated for the Gold and Silver QoS by averaging the measured jitter of "in-band" test frames for each of the customer's eligible QoS queue within the EVPL (i.e., between each pair of connections) during a calendar month. (C)  
An example of the calculation is displayed below:

Example: Monthly average was 5 ms.

Total MRC of \$1,200 \* 3/30 = Credit amount of \$120.00
