SECTION 1 INTRODUCTION AND SUMMARY

Introduction

The Consolidated Communications Companies, consisting of Consolidated Communications of Texas Company d/b/a Consolidated Communications and Consolidated Communications of Fort Bend Company d/b/a Consolidated Communications, hereby provide a Description and Justification for its limited Tariff Review Plan revisions to F.C.C. Tariff No. 1 with individual company rates (Section 17 and Section 18, respectively), along with supporting documentation proposed under transmittal 32 of the Consolidated Communications Companies. This information is being filed in accordance with the Commission's 2011 TRP Notice released March 29, 2011 (DA 11-569 and DA 11-570) and fulfills the requirements established in Sections 61.41 through 61.49 of the Commission rules.

Description of the Consolidated Communications Companies Operations

The Consolidated Communications Companies (CCC) consists of two separate legal entities: Consolidated Communications of Texas Company (CCTX) d/b/a Consolidated Communications and Consolidated Communications of Fort Bend Company (CCFB) d/b/a Consolidated Communications. Both of these entities are now price cap companies pursuant to FCC Order DA 08-1026¹ that fall under Sections 61.41 through 61.49 of the Commission's Rules and relevant Commission Orders.² They provide local service, toll, private line services, access services, DSL, CLASS services, and other modern telecommunications services to their customers.

CCTX originated with three separate telephone companies that merged over the years. Lufkin Telephone Exchange officially began business in 1898 and was incorporated in the state of Texas in 1910. Conroe Communications Company began providing service in the Conroe area in 1899 and was purchased by the owners of Lufkin Telephone Exchange and incorporated as the Conroe Telephone Company in 1929. The Alto Telephone Company was purchased in 1963. Ownership of the 3 entities was consolidated in 1969 to form Lufkin-Conroe Communications Company. In 1997, Lufkin-Conroe Communications Company and its subsidiaries were purchased by Texas Utilities Company and became TXU Communications Telephone Company. In April 2004, Consolidated Communications, Inc. purchased the company, changing the name to Consolidated Communications of Texas Company (CCTX).

CCTX is a rural East Texas telecommunications carrier providing service to approximately 91,000 customers in two distinct market areas: Conroe and Lufkin. The

¹ See, Order, Consolidated communications Petition for Conversion to Price Cap Regulation and for Limited Waiver Relief, DA 08-1026.

² See, Order, July 2011 Annual Access Charge Tariff Filings, released March 29, 2011, DA 10-569 ("2011 Filing Order"); and Tariff Review Plans, Material to be filed in support of 2011 Annual filings, DA 10-570, released March 29, 2011 ("2011 TRP Order").

16 communities served include: Alto, Apple Springs, Central, Conroe, Cut-N-Shoot, Diboll, Etoile, Fuller Springs, Grangerland, Hudson, Lake Conroe, Lufkin, Montgomery, Riverbrook, Walden, and Wells. The 7 exchanges of the Conroe market area contain approximately 56,000 customers, primarily in Montgomery County.

The Lufkin market area serves 9 exchanges and 35,000 access lines in a separate area 85 miles north of the Conroe area, centered on the city of Lufkin. The area economy is supported primarily through manufacturing of paper and metal products, retail sales, service companies, government entities, and farming.

CCFB began business in 1898 as Fort Bend Telephone Company and was incorporated in Texas in 1910. In May 2000, Fort Bend Telephone Company and its affiliates were purchased by Texas Utilities Company and became Fort Bend Telephone Company d/b/a TXU Communications. In April 2004, TXU Communications, including Fort Bend Telephone Company, was purchased by Consolidated Communications, Inc., which changed the name to Consolidated Communications of Fort Bend Company (CCFB).

CCFB is also a rural carrier with approximately 33,000 access lines in 5 East Texas exchanges: Beasley, Brookshire, Damon, Katy, and Needville. CCFB possesses the same rural characteristics as CCTX, providing service in Brazoria, Harris, Fort Bend and Waller counties.

SECTION 2 OVERVIEW OF FILING PACKAGE

Tariff Support Material

This support material is submitted pursuant to Part 61.49 of the Federal Communications Commission (Commission) Rules and Regulations and the Order issued in WCB/Pricing 11-04, July, 2011 Annual Access Charge Tariff Filings, and Tariff Review Plans issued in WCB/Pricing 11-05, Material to be Filed in Support of 2011 Annual Access Tariff Filings, both adopted and released March 29, 2011.

In addition to the description and justification contained in this volume, the following information is submitted to provide specific support data at the proposed tariff level of detail for the Consolidated local operating companies.

Rate Detail

SECTION 3 TARIFF SUPPORT

PCI Development

In Accordance with the Commission's Rules, the PCI for each service basket were calculated as shown in Exhibit RDEV-1, Page 1 of 8. A GDP-PI factor of 1.3674% was used in calculating the PCI's and is based on the percentage change in the Gross Domestic Product Price Index (GDP-PI) between the quarter ending December 31, 2010 and the corresponding quarter of the 2009 GDP-PI.

As directed by the Commission,³ a workpaper identifying the transmittal or letter filing date where the last index changes were implemented for the price cap categories has been included in Exhibit 2, RDEV-1, pages 3,4, and 5. Also, pursuant to DA 08-1026⁴, Consolidated has excluded ICLS receipts from its CMT PCI calculations.

Because the effects of GDP-PI – X and g are targeted to the Average Traffic Sensitive Rate, the prospective PCI values for the Traffic Sensitive and Trunking Baskets are typically calculated by adjusting the existing PCI values for the effects of exogenous cost changes allocated to those baskets plus the amount of ATS targeting allocated to those baskets. Because Consolidated Communications Companies has already achieved its ATS target rates prior to this filing, the Traffic Sensitive and Trunking PCI values reflect no ATS targeting. The prospective PCI values for the Special Access Basket are calculated using formula found in 61.45(b) of the Commission's rules. Calculation of PCI values is shown in Exhibit 2, RDEV-1, Page 1 of 5.

Determination of Exogenous Changes

In Accordance with the Commission's Rules, Consolidated developed certain exogenous changes for inclusion in the price cap formula. These changes include: (1) North American Number Plan Administration; (2) Regulatory Fees; and (3) Telecommunications Relay Service Fees.

Exogenous cost changes were individually developed for each of the items outlined above, and in the aggregate for all changes. Consolidated used base year 2009 (time of its last tariff filing) to estimate exogenous costs embedded in rates. Consolidated has also normalized the exogenous amounts to reflect any shift in revenue growth. The result is that no exogenous adjustment is made if the support rate has not changed. In other words the rate per line remains unchanged if the factor is unchanged. A brief description of each change follows and a summary of the exogenous changes is shown in Exhibit 2, RDEV-1, Page 2 of 5. The detail of the exogenous changes is shown in its TRP, Form EXG-1, Pages 1 and 2.

³ 2011 TRP Notice, Supra., Paragraph 11.

⁴ See, Order, Consolidated Communications Petition for Conversion to Price Cap Regulation and for Limited Waiver Relief, DA 08-1026 para 18.

North American Numbering Plan Administration

On June 27, 2001, the Federal Communications Commission release an order approving the compensation plan for the North American Numbering Plan Administration (NANPA) for fiscal year 2001.⁵ The Commission reviewed and accepted the North American Numbering Plan Administrator submission and ordered that a contribution factor of 0.000022⁶. This factor is used as an estimate for application to end user revenues of each telecommunications carrier in the United States to fund the program for the 2011 fiscal year (July 2011 to June 2012). The impact of the NANPA support has been included as an exogenous cost in this filing as shown in Exhibit 2, RDEV-1, Page 2 of 5.

Regulatory Fees

Earlier Commission decisions⁷ allow local exchange companies to reflect the impact of regulatory fees as an exogenous cost in annual price cap filings. The impact of regulatory fee changes for the July 2011 – June 2012 fiscal year was calculated using a factor of .00361 as prescribed in the Commission's *Regulatory Fee Order*,⁸ and has been used as an estimate and included as an exogenous cost in this filing and is shown in Exhibit 2, RDEV-1, Page 2 of 5. In addition, because of the timing of last year's regulatory fee order, there was a requirement to file a September update to reflect the new order rate. This was embedded in rates at an increased rate because of the requirement to reflect the update over the remaining 9 months of the filing period. Because of this event, it is now necessary to normalize the exogenous rate over the full year thereby reversing the accelerated ratemaking. This exogenous allocation can be seen in RDEV-1, Page 2a.

Telecommunications Relay Service

The Americans with Disabilities Act (ADA) required that all common carriers providing interstate voice telecommunications provide Telecommunications Relay Service (TRS) to customers effective July 26, 1993. In its *Third Report and Order* in CC Docket No. 90-571,⁹ the Commission required that all common carriers providing interstate telecommunications services contribute to an interstate shared fund to support the TRS function. The impact of the TRS exogenous cost for this filing is calculated using the .001056 projected NECA contribution factor prescribed in the Commission's TRS

⁵ *In the Matter of Administration of the North American Number Plan*, CC Docket No. 92-237 and *North American Number Plan Cost Recovery Contribution Factor and Fund Size*, NDS File No. L-00-72, Order (DA 01-1524), released June 7, 2001 (NANP Order)

⁶ *In the Matter of Administration of the North American Numbering Plan*, Proposed North American Numbering Plan Administration Fund Size Estimate and Contribution Factor for July 2011 through June 2012 (filed May 16, 2011) Public Notice, DA 11-884, CC Docket No. 92-237.

⁷ *Price Cap Treatment of Regulatory Fees Imposed by Section 9 of the Communications Act*, 9 FCC 6060 (1994), erratum (November 2, 1994).

⁸ *In the Matter of Assessment and Collection of Regulatory Fees for Fiscal Year 2011*, Notice of Proposed Rulemaking, MD Docket No. 11-76 (FCC 11-68), released May 3, 2011 (*Regulatory Fee Order*).

⁹ *In the Matter of Telecommunications Relay Services and the Americans with Disabilities Act of 1990*, Third Report and Order, CC Docket No. 90-571, released July 20, 1993 (*Third Report and Order*).

Docket¹⁰ and is displayed on Exhibit 2 , RDEV-1, Page 2 of 5. In addition, because of the timing of last year's TRS order, there was a requirement to file a September update to reflect the new order rate. This was embedded in rates at an increased rate because of the requirement to reflect the update over the remaining 9 months of the filing period. Because of this event, it is now necessary to normalize the exogenous rate over the full year thereby reversing the accelerated ratemaking. This exogenous allocation can be seen in RDEV-1, Page 2a.

Rate Detail and other Exhibits

Rate Detail files will be submitted during the Consolidated TRP submission to display demand quantities, current rates, and proposed rates, and the associated quantities for the specific baskets. For CMT, proposed SLC rates are set at current capped levels pursuant to the Consolidated's price cap order¹¹ and PICC and CCL rates continue to be zero. For non-CMT baskets, PCI, SBI, and sub-index calculations are shown.

Consolidated also includes a revenue impact analysis in Exhibit 3, RDET1 to display overall impacts of any rate changes in the filing.

¹⁰ *National Exchange Carrier Association submits payment formulas and funding requirements for the Interstate Telecommunications Relay Service Fund for the July 2011 through June 2012 fund year* , CG Docket No. 03-123, Public Notice DA 11-826, Released May 4, 2011

¹¹ See, Order, Consolidated Communications Petition for Conversion to Price Cap Regulation and for Limited Waiver Relief, DA 08-1026 para 17.
