With this filing, BellSouth is proposing to grandfather Exchange Access Frame Relay Service (XAFRS) and BellSouth Managed Shared Frame Relay Service (MSFRS). BellSouth's 214 application for grandfathering these services was automatically deemed granted effective September 19, 2011. BellSouth also proposes to eliminate the Termination Liability Charge for Customers subscribing to these services that terminate service prior to expiration of their term plan agreement.

Additionally, clean-up items are proposed to remove both charges for Maintenance of Service and an unrelated unused footnote reference. A filing was issued under Transmittal No. 15 on October 17, 2011, which is scheduled to become effective on November 1, 2011, to deregulate Maintenance of Service. The removal of charges for Maintenance of Service was inadvertently omitted from that filing.
