Access Service Tariff

EXPLANATION OF SYMBOLS

The following symbols shall be used in this tariff for the purpose indicated below:

- (C) - To signify changed regulation.
- (D) - To signify discontinued rate or regulation.
- (I) - To signify increased rate.
- (M) - To signify a move in the location of text.
- (N) - To signify new rate or regulation.
- (R) - To signify reduced rate.
- (T) - To signify a change in text but no change in rate or regulation

Issued: March 28, 2006

Effective: April 3, 2006

Issued by:

Don Cope, President
1200 V.D. Parrott, Jr., Parkway
P.O. Box 869
Dalton, Georgia 30722-0869

Access Service Tariff**TARIFF FORMAT**

- A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in its tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to the next higher level:
- 2.
 - 2.1
 - 2.1.1
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(A.
 - 2.1.1.A.1.(A..I.
 - 2.1.1.A.1.(A..I.(I.
 - 2.1.1.A.1.(A..I.(I..(1..
- D. Check Sheets - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.) The tariff user should refer to the latest Check Sheet to find out if a particular sheet is the most current on file with the Commission.

Issued: March 28, 2006

Effective: April 3, 2006

Don Cope, President
1200 V.D. Parrott, Jr., Parkway
P.O. Box 869
Dalton, Georgia 30722-0869

Access Service Tariff**SECTION 1 - DEFINITIONS**

Certain terms used generally throughout this tariff for the access services of this Company are defined below.

Access Service: switched access to the network of an interexchange carrier for the purpose of originating or terminating telecommunications.

Access Service Request (ASR): The industry service order format used by Access Service Customers and access providers as agreed to by the Ordering and Billing Forum.

Access Tandem: An exchange carrier's switching system that provides a concentration and distribution function for originating or terminating traffic between local switching centers and Customers' premises.

Authorized User: A person, firm, corporation or other entity that either is authorized by the Customer to use access services or is placed in a position by the Customer, either through acts or omissions, to use access services.

Carrier or Common Carrier: See interexchange carrier or exchange carrier.

Co-Carrier: Any other telecommunications provider authorized by the Commission to provide local exchange service.

Commission: Federal Communications Commission

Common Channel Signaling (CCS): A high-speed packet switched telecommunications network which is separate (out of band) from the public packet switched and message networks. It is used to carry addressed signaling messages for individual trunk circuits and/or database related services between signaling points in the CCS network.

Company: Dalton Utilities.

Customer: The person, firm, corporation or other entity, which orders service and is responsible for the payment of charges and for compliance with the Company's tariff regulations.

800 Data Base Access Service: The term "800 Data Base Access Service" denotes a toll-free originating trunk side access service when the 8XX Service Access Code (i.e., 800, 822, 833, 844, 855, 866, 877, or 888 as available) is used. The term 8XX is used interchangeably with 800 Data Base Service throughout this tariff to describe this service.

Issued: March 28, 2006

Effective: April 3, 2006

Issued by:

Don Cope, President
1200 V.D. Parrott, Jr., Parkway
P.O. Box 869
Dalton, Georgia 30722-0869

Access Service Tariff**SECTION 1 - DEFINITIONS, (cont'd)**

End User: Any individual, association, corporation, governmental agency or any other entity other than an interexchange carrier which subscribes to interstate service provided by an exchange carrier.

Entrance Facility: A trunk facility connecting the Customer's point of presence with the local switching center.

Exchange Carrier: Any individual, partnership, association, joint-stock Company, trust, governmental entity or corporation engaged in the provision of local exchange telecommunications service.

Feature Group D (FGD): A trunk-side access to exchange carrier end-office switching systems and tandems. It provides the equal-access service that the former Bell operating companies must offer, as required by the Modification of Final Judgment. For an interexchange carrier, Feature Group D offers positive call connect and disconnect supervision for accurate call time billing, a uniform access code option (by dialing 1010XX...X), optional calling party identification, recording of access charge billing details, and pre-subscription to a customer-specified interexchange carrier.

Firm Order Confirmation (FOC): Acknowledgment by the Company of receipt of an Access Service Request from the Customer and commitment by the Company of a service date.

Individual Case Basis: A service arrangement in which the regulations, rates and charges are developed based on the specific circumstances of the Customer's situation.

Interexchange Carrier (IXC) or Interexchange Common Carrier: Any individual, partnership, association, joint-stock Company, trust, governmental entity or corporation engaged in interstate or foreign telecommunications for hire by wire or radio, between two or more exchanges.

LATA: A local access and transport area established pursuant to the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0192 for the provision and administration of telecommunications services.

Line Information Data Base (LIDB): The data base which contains base information such as telephone numbers, calling card numbers and associated billed number restriction data used in connection with the validation and billing of calls.

Access Service Tariff

SECTION 1 - DEFINITIONS, (cont'd)

Local Access: The connection between a Customer's premises and a point of presence of the exchange carrier.

Local Switching Center: The switching center where telephone exchange service Customer station channels are terminated for purposes of interconnection to each other and to interoffice trunks.

Meet Point: A point of interconnection that is not an end office or tandem.

Meet Point Billing: The arrangement through which multiple exchange carriers involved in providing access services, divide the ordering, rating, and billing of such services on a proportional basis, so that each exchange carrier involved in providing a portion of the access service agrees to bill under its respective tariff.

Mobile Telephone Switching Office: Location where the wireless Customer maintains a facility for purposes of interconnecting to the Company's network.

Monthly Recurring Charges (MCR): A recurring charge repeated each month. MRC is billed one month in advance.

Mutual Traffic Exchange: A compensation arrangement between certified local exchange service providers where local exchange service providers pay each other "in kind" for terminating local exchange traffic on the other's network.

Network Services: The Company's Telecommunications Access Services offered on the Company's network.

Non-Recurring Charges (NRC): The one-time initial charges for services or facilities, including but not limited to charges for construction, installation, or special fees, for which the Customer becomes liable at the time the service order is executed.

Off-Hook: The active condition of switched access or a telephone exchange service line.

On-Hook: The idle condition of switched access or a telephone exchange service line.

Out of Band Signaling: An exchange access signaling feature which allows Customers to exchange call control and signaling information over a telecommunications path which is separate from the message path.

Access Service Tariff

SECTION 1 - DEFINITIONS, (cont'd)

Point of Presence (POP): Location where the Customer maintains a facility for purposes of interconnecting to the Company's network.

Premises: The space occupied by a Customer or authorized user in a building or buildings or on contiguous property (except railroad rights-of-way, etc.).

Presubscription: An arrangement whereby an End User may select and designate to the Company an interexchange carrier (IXC) or carriers it wishes to access, without an access code, for completing both intraLATA toll calls and/or interLATA calls. The selected IXC(s) are referred to as the end user's primary interexchange carrier (PIC).

Recurring Charges: The monthly charges to the Customer for services, facilities and equipment, which continue for the agreed upon duration of the service. This often referred to as monthly recurring charges (MRC). Recurring charges are billed in advance.

Service Order: The written request for network services executed by the Customer and the Company in a format devised by the Company; or, in the alternative, the submission of an access service request by the Customer in the manner specified in this tariff.

Service(s): The Company's telecommunications access services offered on the Company's network.

Signaling Point of Interface: The Customer designated location where the SS7 signaling information is exchanged between the Company and the Customer.

Signaling System 7 (SS7): The common channel out of band signaling protocol developed by the Consultative Committee for International Telephone and Telegraph (CCITT) and the American National Standards Institute (ANSI).

Switched access Service: Access to the switched network of an exchange carrier for the purpose of originating or terminating telecommunications. Switched access is available to carriers, as defined in this tariff.

Trunk: A telecommunications path connecting two switching systems in a network, used in the establishment of an end-to-end connection.

Wireless Provider: Any carrier authorized to operate as a provider of commercial or private mobile radio services.

Access Service Tariff**SECTION 2 - RULES AND REGULATIONS****2.1 Undertaking of Company****2.1.1 Scope**

The Company's services offered pursuant to this tariff are furnished for Switched Access and Special Access services. The Company may offer these services over its own or resold facilities. Service will be provided on a nondiscriminatory basis however all services offered in this Tariff are subject to availability of service and facilities as determined by the Company.

The Company installs, operates, and maintains the telecommunications services provided herein in accordance with the terms and conditions set forth under this tariff. The Company may act as the Customer's agent for ordering access connection facilities provided by other carriers or entities as required in the Commission's rules and orders, when authorized by the Customer, to allow connection of a Customer's location to the Company network. The Customer shall be responsible for all charges due for such service agreement.

The Company's services and facilities are provided on a monthly basis unless otherwise indicated, and are available twenty-four hours per day, seven days per week.

2.1.2 Shortage of Equipment or Facilities

- A. The Company reserves the right to limit or allocate the use of existing facilities offered by the Company when necessary because of lack of facilities or due to some other reason beyond the Company's reasonable control.
- B. The furnishing of service under this tariff is subject to the availability on a continuing basis of all the necessary facilities and is limited to the capacity of the Company's facilities, as well as facilities the Company may obtain from other carriers from time to time, to furnish service as required at the sole discretion of the Company.
- C. The provisioning and restoration of service in emergencies shall be in accordance with part 64, subpart D, appendix A of the Federal Telecommunications Commission's Rules and Regulations, which specifies the priority system for such activities.

Issued: March 28, 2006

Effective: April 3, 2006

Access Service Tariff

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.1 Undertaking of Company, (cont'd)

2.1.3 Terms and Conditions

- A. Except as otherwise provided herein, service is provided and billed on the basis of a minimum period of at least one month, and shall continue to be provided until canceled by the Customer, in writing, on not less than thirty (30) days notice. Unless otherwise specified herein, for the purpose of computing charges in this tariff, a month is considered to have thirty (30) days.
- B. The Customer agrees to operate Company-provided equipment in accordance with instructions of the Company or the Company's agent. Failure to do so will void Company liability for interruption of service and may make the Customer responsible for damage to equipment pursuant to section 2.1.3.C of this Tariff.
- C. The Customer agrees to return to the Company all Company-provided equipment delivered to Customer within five (5) days of termination of the service in connection with which the equipment was used. Said equipment shall be in the same condition as when delivered to Customer, less normal wear and tear. Customer shall reimburse the Company, upon demand, for any costs incurred by the Company due to Customer's failure to comply with this provision.

2.1.4 Liability of the Company

- A. The liability of the Company for damages arising out of the furnishing of its services, including but not limited to mistakes, omissions, interruptions, delays, errors, other defects, or representations by the Company, or use of these services or damages arising out of the failure to furnish the service whether caused by act or omission, shall be limited to the extension of allowances for interruption as set forth in section 2.6 below. The extension of such allowances for interruption shall be the sole remedy of the Customer and the sole liability of the Company. The Company will not be liable for any direct, indirect, incidental, special, consequential, exemplary or punitive damages to Customer as a result of any Company service, equipment or facilities, or the acts or omissions or negligence of the Company's employees or agents.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.1 Undertaking of Company, (cont'd)

2.1.4 Liability of the Company, (cont'd)

- B. The Company shall not be liable for any delay or failure of performance or equipment due to causes beyond its control, including but not limited to: acts of God, fire, flood, explosion or other catastrophes; any law, order, regulation, direction action, or request of the United States government or of any other government, including state and local governments having or claiming jurisdiction over the Company, or of any department, agency, commission, bureau, corporation, or other instrumentality of any one or more of these federal, state, or local governments, or of any military authority; preemption of existing service in compliance with national emergencies; insurrections; riots; wars; unavailability of rights-of-way or materials; or strikes, lockouts work stoppages, or other labor difficulties.
- C. The Company shall not be liable for (a) any act or omission of any entity furnishing the Company or the Company's Customer's facilities or equipment used for the interconnection of access services; or (b) for the acts or omissions of other common carriers.
- D. The Company shall not be liable for any damages or losses due to the fault or negligence of the Customer or due to the failure or malfunction of Customer-provided equipment or facilities.
- E. The Customer shall indemnify and hold the Company harmless from any and all loss, claims, demands, suits, or other actions, or any liability whatsoever, whether suffered, made, instituted, or asserted by any other party or person(s), and for any loss, damage, or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, condition, location, or use of any installation or equipment provided by the Company. The Company reserves the right to require each Customer to sign an agreement acknowledging acceptance of the provisions of this section 2.1.4.E as a condition precedent to such installations.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.1 Undertaking of Company, (cont'd)

2.1.4 Liability of the Company, (cont'd)

- F. The Company shall not be liable for any defacement of or damage to Customers premises resulting from the furnishing of services or equipment on such premises or the installation or removal thereof, unless such defacement or damage is caused by the gross negligence or willful misconduct of the Company's agents or employees. No agents or employees of other participating carriers shall be deemed to be agents or employees' of the Company.
- G. Notwithstanding the Customer's obligations as set forth in section 2.3 below, the Company shall be indemnified, defended and held harmless by the Customer, or by others authorized by it to use the service, against any claim, loss or damage arising from Customer's use of services furnished under this tariff, including: claims for libel, slander, invasion of privacy or infringement of copyright arising from the material, data, information, or other content transmitted via the Company's service; and patent infringement claims arising from combining or connecting the service offered by the Company with apparatus and systems of the Customer or others; all other claims arising out of any act or omission of the Customer or others, in connection with any service provided by the Company pursuant to this tariff.
- H. The Company shall be indemnified and held harmless by the end user against any claim, loss or damage arising from the end user's use of services offered under this tariff including: claims for libel, slander, invasion of privacy or infringement of copyright arising from the end user's own telecommunications; patent infringement claims arising from the end user's combining or connecting the service offered by the Company with facilities or equipment furnished by the end user of another carrier; or all other claims arising out of any act or omission of the end user in connection with any service provided pursuant to this tariff.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.1 Undertaking of Company, (cont'd)

2.1.4 Liability of the Company, (cont'd)

- L. The Company shall not be liable for the Customer's failure to fulfill its obligations to take all necessary steps including, without limitation, obtaining, installing and maintaining all necessary equipment, materials and supplies, for interconnecting the terminal equipment or telecommunications system of the Customer, or any third party acting as its agent, to the Company's network. The Customer shall secure all licenses, permits, rights-of-way, and other arrangements necessary for such interconnection. In addition, the Customer shall ensure that its equipment and/or system or that of its agent is properly interfaced with the Company's service, that the signals emitted into the Company's network are of the proper mode, band-width, power, data speed, and signal level for the intended use of the Customer and in compliance with the criteria set forth in section 2.1.6 following, and that the signals do not damage Company equipment, injure its personnel or degrade service to other Customers. If the Customer or its agent fails to maintain and operate its equipment and/or system or that of its agent properly, with resulting imminent harm to Company equipment, personnel, or the quality of service to other Customers, the Company, may, upon written notice, require the use of protective equipment at the Customer's expense. If this fails to produce satisfactory quality and safety, the Company may, upon written notice, terminate the Customer's service without liability.
- M. Except as otherwise stated in this tariff, any claim of whatever nature against the Company shall be deemed conclusively to have been waived unless presented in writing to the Company within thirty (30) days after the date of the occurrence that gave rise to the claim.

Access Service Tariff

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.1 Undertaking of Company, (cont'd)

2.1.5 Notification of Service-Affecting Activities

The Company will provide the Customer reasonable notification of service-affecting activities that may occur in normal operation of its business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements and routine preventative maintenance. Generally, such activities are not specific to an individual Customer but affect many Customers' services. No specific advance notification period is applicable to all service activities. The Company will work cooperatively with the Customer to determine the reasonable, notification requirements. With some emergency or unplanned service-affecting conditions, such as an outage resulting from cable damage, notification to the Customer may not be possible.

2.1.6 Provisions of Equipment and Facilities

- A. The Company shall use reasonable efforts to make available services to a Customer on or before a particular date, subject to the provisions of and compliance by the Customer with, the regulations contained in this tariff. The Company does not guarantee availability by any such date and shall not be liable for any delays in commencing service to any Customer.
- B. The Company shall use reasonable efforts to maintain facilities and equipment that it furnishes to the Customer. The Customer may not, nor may the Customer permit others to, rearrange, disconnect, remove, or attempt to repair or otherwise interfere with any of the facilities or equipment installed by the Company, except upon the written consent of the Company.
- C. The Company may substitute, change or rearrange any equipment or facility at any time and from time to time, but shall not thereby alter the technical parameters of the service provided the Customer.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.1 Undertaking of Company, (cont'd)

2.1.6 Provisions of Equipment and Facilities, (cont'd)

- D. Equipment the Company provides or installs at the Customer premises for use in connection with the services the Company offers shall not be used for any purpose other than that for which the Company-provided it.
- E. The Customer shall be responsible for the payment of service charges imposed on the Company by another entity, for visits to the Customer premises when the service difficulty or trouble report results from the use of equipment or facilities provided by any party other than the Company, including but not limited to the Customer.
- F. The Company shall not be responsible for the installation, operation, or maintenance of any Customer-provided telecommunications equipment. Where such equipment is connected to the facilities furnished pursuant to this tariff, the responsibility of the Company shall be limited to the furnishing of facilities offered under this tariff and to the maintenance and operation of such facilities. Notwithstanding the above, the Company shall not be responsible for:
 - 1. The transmission of signals by Customer-provided equipment or for the quality of, or defects in, such transmission;
 - 2. The reception of signals by Customer-provided equipment;
 - 3. Network control signaling where such signaling is performed by Customer-provided network control signaling equipment.
- G. The Company intends to work cooperatively with the Customer to develop network contingency plans in order to maintain maximum network capability following natural or man-made disasters, which affect telecommunications services.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.1 Undertaking of Company, (cont'd)

2.1.6 Provisions of Equipment and Facilities, (cont'd)

- H. The Company reserves the reasonable right to assign, designate or change telephone numbers, any other call number designations associated with Access Services, or the Company serving central office prefixes associated with such numbers, when necessary in the conduct of its business.
- I. The Customer is required to submit an order in writing using a Company-provided format for the provisioning of access services. Installation time will depend upon its type of service being requested. Installation interval begins once the Company verifies that the order contains the necessary information to complete the installation.

2.1.7 Non-routine Installation

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in unusual locations. In such case, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

2.1 Undertaking of Company, (cont'd)

2.1.8 Special Construction

Subject to the arrangement of the Company and to all of the regulations contained in this tariff, special construction of facilities may be undertaken on a reasonable efforts basis at the request of the Customer. Special construction is that construction undertaken and characterized by one or more of the following:

- A. where facilities are not presently available and there is no other requirement for the facilities so constructed;
- B. of a type other than that which the Company would normally utilize in the furnishing of its services;
- C. where facilities are to be installed over a route other than that which the Company would normally utilize in the furnishing of its services;
- D. where facilities are requested in a quantity greater than that which the Company would normally construct;
- E. where installation is on an expedited basis.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.2 Prohibited Uses

- 2.2.1 The services the Company offers shall not be used for any unlawful purposes or for any use as to which the Customer has not obtained all required governmental approvals, authorizations, licenses, consents and permits.
- 2.2.2 The Company may require applicants for service who intend to use the Company's offerings for resale and/or for shared use to file a letter with the Company confirming their use of the Company's offerings complies with relevant laws and applicable regulations, policies, orders, and decisions; and if the reseller intends to provide interstate services, is authorized, as appropriate with the FCC.
- 2.2.3 The Company may require a Customer to immediately shut down its transmission of signals if said transmission is causing interference to others.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.3 Obligations of the Customer

2.3.1 The Customer shall be responsible for:

- A. the payment of all applicable charges pursuant to this tariff;
- B. reimbursing the Company for damage to, or loss of, the Company's facilities or equipment caused by the acts or omissions of the Customer; or the noncompliance by the Customer with these regulations; or by fire or theft or other casualty on the Customer premises, unless caused by the negligence or willful misconduct of the employees or agents of the Company;
- C. providing at no charge, as specified from time to time by the Company, any needed personnel, equipment, space, and power to operate Company facilities and equipment installed on the Customer premises, and the level of heating and air conditioning necessary to maintain the proper operating environment on such premises;
- D. obtaining, maintaining, and otherwise having full responsibility for all rights-of-way and conduit necessary for installation of fiber optic cable and associated equipment used to provide access services to the Customer from the cable building entrance or property line to the location of the equipment space described in 2.3.1.C above. Any costs associated with obtaining and maintaining the rights-of-way described herein, including the costs of altering the structure to permit installation of the Company-provided facilities, shall be owned entirely by, or may be charged by the Company to, the Customer. The Company may require the Customer to demonstrate its compliance with this subsection prior to accepting an order for service;

2.3 Obligations of the Customer, (cont'd)

2.3.1 The Customer shall be responsible for:, (cont'd):

- E. providing a safe place to work and complying with all laws and regulations regarding the working conditions on the premises at which Company employees and agents shall be installing or maintaining the Company's facilities and equipment. The Customer may be required to install and maintain Company facilities and equipment within a hazardous area if, in the Company's opinion, injury or damage to the Company employees or property might result from installation or maintenance by the Company. The Customer shall be responsible for identifying, monitoring, removing, and disposing of any hazardous material (i.e. asbestos) prior to any construction or installation work;
- F. complying with all laws and regulations applicable to, and obtaining all consents, approvals, licenses, and permits as may be required with respect to, the location of Company facilities and equipment in any Customer premises or the rights-of-way for which Customer is responsible obtaining under section 2.3.1.D above; and granting or obtaining permission for Company agents or employees to enter the Customer premises at any time for the purpose of installing, inspecting, maintaining, repairing, or upon termination of service as stated herein, removing the facilities or equipment of the Company;
- G. not creating or allowing to be placed or maintained any liens or other encumbrances on the Company's equipment or facilities.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.3 Obligations of the Customer, (cont'd)

2.3.3 Jurisdictional Reporting

The jurisdictional reporting requirements will be as specified below. When a Customer orders access service, its projected percent interstate usage (PIU) must be provided in whole numbers to the Company. These whole number percentages will be used by the Company to apportion the use and/or charges between interstate and intrastate until a revised report is received as set forth herein. Reported or default PIU factors are used only where the call detail is insufficient to determine the appropriate jurisdiction of the traffic. In regards to actual facilities such as a DS1, DS3, etc. the customer must indicate the PIU Factor on the ASR .

- A. Originating Access: Originating access minutes consist of traffic originating from the Company local switching center(s). The Customer must provide the Company with a projected PIU factor on a semi-annual basis.

If no PIU for originating minutes is submitted as specified herein, a default PIU of fifty percent (50%) will be applied by the Company.

- B. Terminating Access: Terminating access minutes consist of traffic terminating to the Company local switching center(s). The Customer must provide the Company with a projected PIU factor on a quarterly basis.

If no PIU for terminating minutes is submitted as specified herein, a default PIU of fifty percent (50%) will be applied by the Company.

- C. Except where the Company measured access minutes are used as set forth above, the Customer reported projected PIU factor as set forth above will be used until the Customer reports a different projected PIU factor, as set forth below.

- D. If the Company is able to determine actual jurisdiction, then calls will be rated based on this jurisdiction. This capability will be determined by the Company.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.3 Obligations of the Customer, (cont'd)

2.3.3 Jurisdictional Reporting, (cont'd)

- E. Effective on the first of January and July of each year the Customer shall update its interstate and intrastate jurisdictional report. The Customer shall forward to the Company, to be received no later than fifteen (15) days after the first of each such month, a revised report showing the interstate and intrastate percentage of use for the past three months ending the last day of December and June, respectively, for each service arranged for interstate use, based solely on the traffic originating from or terminating to the Company local switching center. The revised report will serve as the basis for the next six month's billing and will be effective on the bill date for that service. If the Customer does not supply the reports for those services where reports are needed, the Company will assume the percentage to be the same as that provided previously unless determined differently by the Company. For those cases in which a semi-annual report has never been received from the Customer, the Company will assume the percentages to be the same as those provided in the access service request unless determined differently by the Company.
- F. Jurisdictional Reports Verification: For switched access service, if a billing dispute arises or a regulatory Commission questions the projected PIU factor, the Customer will provide the data issued to determine the projected PIU factor. The Customer will supply the data within thirty (30) days of the Company request.
- G. The Customer shall keep records of call detail from which the percentage of interstate and intrastate use can be ascertained and, upon request of the Company, shall make the records available for inspection as reasonably necessary for purposes of verification of the percentages. The Company reserves the right to conduct an audit at any time during the year. The Customer, at its own expense, has the right to retain an independent auditing firm. For these purposes, the Company will deliver this information within thirty (30) days of the request.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.4 Customer Equipment and Connections

2.4.1 General

A Customer may transmit or receive information or signals via the facilities of the Company.

2.4.2 Station Equipment

- A. The Customer is responsible for providing and maintaining any terminal equipment on the Customer premises. The electric power consumed by such equipment shall be provided by, and maintained at, the expense of the Customer. All such terminal equipment must be registered with the Commission under 47 C.F.R., part 68 and all wiring must be installed and maintained in compliance with those regulations. The Company will, where practicable, notify the Customer that temporary discontinuance of the use of a service may be required; however, where prior notice is not practicable, nothing contained herein shall be deemed to impair the Company's right to discontinue forth with the use of a service temporarily if such action is reasonable under the circumstances. In case of such temporary discontinuance, the Customer will be promptly notified and afforded the opportunity to correct the condition, which gave rise to the temporary discontinuance. During such period of temporary discontinuance, credit allowance for service interruptions as set forth in section 2.6 of this tariff is not applicable.
- B. The Customer is responsible for ensuring that Customer-provided equipment connected to Company equipment and facilities is compatible with such equipment and facilities. The magnitude and character of the voltages and currents impressed on Company-provided equipment and wiring by the connection, operation, or maintenance of such equipment and wiring shall be such as not to cause damage to the Company-provided equipment and wiring or injury to the Company's employees or other persons. Any additional protective equipment required to prevent such damage or injury shall be provided by the Company at the Customer's expense.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.4 Customer Equipment and Connections, (cont'd)

2.4.3 Interconnection of Facilities

- A. Any special interface equipment necessary to achieve compatibility between the facilities and equipment of the Company used for furnishing access services and the channels, facilities, or equipment of others shall be provided at the Customer's expense.
- B. Access services may be connected to the services or facilities of other telecommunications carriers only when authorized by, and in accordance with, the terms and conditions of the tariffs of the other telecommunications carriers, which are applicable to such connections.

2.4.4 Inspections

- A. Upon reasonable notification of the Customer, and at reasonable times, the Company may make such tests and inspections as may be necessary to determine that the Customer is complying with the requirements set forth in section 2.4.2.B for the installation, operation, and wiring in the connection of Customer-provided facilities and equipment to Company-owned facilities and equipment. No credit will be allowed for any interruptions occurring during such inspections.
- B. If the protective requirements for Customer-provided equipment are not being complied with, the Company may take such action as it deems necessary to protect its facilities, equipment, and personnel. The Company will notify the Customer promptly if there is any need for further corrective action. Within ten (10) days of receiving this notice, the Customer must take this corrective action and notify the Company of the action taken. If the Customer fails to do this, the Company may take whatever additional action is deemed necessary, including the suspension of service, to protect its facilities, equipment, and personnel from harm. The Company will, upon request, provide the Customer with a statement of technical parameters that the Customer's equipment must meet.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.5 Payment Arrangements

2.5.1 Payment for Service

The Customer is responsible for payment of all charges for services and facilities furnished by the Company to the Customer or its joint or authorized users.

Taxes: The Customer is responsible for the payment of any sales, use, gross receipts, excise, access or other local, state and federal taxes, charges or surcharges (however designated) excluding taxes on the Company's net income imposed on or based upon the provision, sale or use of access services. All such taxes shall be separately designated on the Company's invoices. Tax of other charge exemptions must be provided to the Company in advance of exemption being applied.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.5 Payment Arrangements, (cont'd)

2.5.2 Billing and Collection of Charges

Unless otherwise specified herein, bills are due and payable upon receipt.

The Company shall bill on a regular basis all charges incurred by, and credits due to, the Customer under this tariff attributable to services established, provided, or discontinued during the preceding billing period.

Non-Recurring Charges are due and payable within thirty (30) days after invoice date.

The Company shall present invoices for all charges monthly to the Customer.

The Company may deal with Customers whose accounts show very small balances by withholding the issuance of an invoice until the amount due from the Customer reaches a level which, in the Company's sole discretion, is deemed large enough to justify initiating the billing and collection process; or The Company may invoice low usage Customer every other month unless a Customer invoiced in such a manner requests monthly billing.

Amounts not paid within thirty (30) days after the date of invoice will be considered past due. The Company will assess a late payment charge equal to 1.5% per month for any past due balance that exceeds thirty (30) days. If the Company becomes concerned at any time about the ability of a Customer to pay its bills, the Company may require that the Customer pay its bills within a specified number of days and make such payments in cash or the equivalent of cash.

If a service is disconnected by the Company in accordance with section 2.5.3 and later restored, restoration of service will be subject to all applicable installation charges.

The Customer shall notify the Company of any disputed items on an invoice within thirty (30) days of receipt of the invoice. If the Customer and the Company are unable to resolve the dispute to their mutual satisfaction, the Customer or Company may file a complaint with the Commission in accordance with the Commission's rules of procedures.

Access Service Tariff

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.5 Payment Arrangements, (cont'd)

2.5.2 Billing and Collection of Charges, (cont'd)

The Company shall present invoices for recurring charges monthly to the Customer, in advance of the month in which service is provided, and recurring charges shall be due and payable within thirty (30) days after the date of the invoice. When billing is based upon Customer usage, usage charges will be billed monthly for the preceding period.

When service does not begin on the first day of the month, or end on the last day of the month, the recurring charge for the fraction of the month in which service was furnished will be calculated on a pro rate basis. For this purpose, every month is considered to have thirty (30) days.

If the Company receives any portion of the payment after the date due, or if any portion of the payment is received by the Company in funds that is not immediately available upon presentment, then a late payment penalty shall be due to the Company. The late payment penalty shall be the portion of the payment not received by the date due, multiplied by a late factor. The late factor shall be at a 1.5% compounded rate. Should an account be disconnected for non-payment, the balance due may be turned over to a collection agency, in which case the Customer is responsible for any and all collection fees including court and attorney fees.

The penalty for returned checks is \$30.00 per occurrence plus any financial institution fees imposed upon the company.

2.5.3 Advance Payments

To safeguard its interests, the Company may require a Customer to make an advance payment before services and facilities are furnished. The advance payment will not exceed an amount up to two months of estimated monthly usage charges. In addition, where special construction is involved, the advance payment may also include an amount equal to the estimated non-recurring charges for the special construction and recurring charges (if any) for a period to be set between the Company and the Customer. The advance payment will be credited to the Customer's initial bill. An advance payment may be required in addition to a deposit.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.5 Payment Arrangements, (cont'd)

2.5.4 Deposits

- A. To safeguard its interests, the Company may require the Customer to make a deposit to be held as a guarantee for the payment of charges. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. The deposit will not exceed one and one-half (1 1/2) month's average monthly recurring charges except that the deposit may include an additional amount in the event a termination charge is applicable.
- B. A deposit may be required in addition to an advance payment.
- C. When a service or facility is discontinued, the amount of a deposit, if any, will be applied to the Customer's account and any credit balance remaining will be refunded. Before the service or facility is discontinued, the Company may, at its option, return the deposit or credit it to the Customer's account. The Company retains the right to collect any amounts owing after the deposit has been applied plus any costs related to the collection of any remaining balance.
- D. Deposits held will accrue interest at a rate of 7% without deductions for any taxes on such deposits. Interest will not accrue on any deposit after the date on which reasonable effort has been made to return it to the Customer.

2.5.5 Refusal and Discontinuance of Service

- A. Upon nonpayment of any amounts owing to the Company, the Company may, by giving requisite prior written notice to the Customer discontinue or suspend service without incurring any liability.

Access Service Tariff

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.5 Payment Arrangements, (cont'd)

2.5.5 Refusal and Discontinuance of Service, (cont'd)

- B. Upon violation of any of the other material terms or conditions for furnishing service the Company may, by giving ten (10) days prior notice in writing to the Customer, discontinue or suspend service without incurring any liability if such violation continues during that period.
- C. Upon condemnation of any material portion of the facilities used by the Company to provide service to a Customer or if a casualty renders all or any material portion of such facilities inoperable beyond feasible repair, the Company, by notice to the Customer, may discontinue or suspend service without incurring any liability.
- D. Upon any governmental prohibition, or required alteration of the services to be provided or any violation of an applicable law or regulation, the Company may immediately discontinue service without incurring any liability.
- E. Upon the Company's discontinuance of service to the Customer under section 2.5.4.A or 2.5.4.B above, the Company, in addition to all other remedies that may be available to the Company at law or in equity or under any other provision of this tariff, may declare all future monthly and other charges which would have been payable by the Customer during the remainder of the term for which such services would have otherwise been provided to the Customer to be immediately due and payable.
- F. The Company may discontinue the furnishings of any and/or all service(s) to Customer, without incurring any liability:
 - 1. Immediately and without notice if the Company deems that such action is necessary to prevent or to protect against fraud or to otherwise protect its personnel, agents, facilities or services. The Company may discontinue service pursuant to this sub-section if
 - A. the Customer refuses to furnish information to the Company regarding the Customer's credit-worthiness, its past or current use of common carrier telecommunications services or its planned use of service(s); or

F. (cont'd)

1. (cont'd)

- B. the Customer provides false information to the Company regarding the Customer's identity, address, credit-worthiness, past or current use of common carrier telecommunications services, or its planned use of the Company's service(s); or
- C. the Customer states that it will not comply with a request of the Company for security for the payment for service(s) in accordance with section 2.5.3 or 2.5.4 above; or
- D. the Customer has been given written notice by the Company of any past due amount (which remains unpaid in whole or in part) for any of the Company's other common carrier telecommunications services to which the Customer either subscribes or had subscribed or used; or
- E. the Customer uses, or attempts to use service with the intent to void the payment, either in whole or in part, of the tariff charges for the service by:
 - I. using or attempting to use service by rearranging, tampering with, or making connections to the Company's service not authorized by this tariff; or
 - II. using tricks, schemes, false or invalid numbers, false credit devices, electronic devices; or
 - III. any other fraudulent means or devices.

- 2. Upon ten (10) days written notice to the Customer of any sum thirty (30) days past due from date of original invoice.

F. (cont'd)

3. Upon ten (10) days written notice to the Customer, after failure of the Customer to comply with a request made by the Company for security for the payment of service in accordance with section 2.5.3, above; or
4. Seven (7) days after sending the Customer written notice of noncompliance with any provision of this tariff if the noncompliance is not corrected within that seven (7) day period. The discontinuance of service(s) by the Company pursuant to this section does not relieve the Customer of any obligation to pay the Company for charges due and owing for service(s) furnished up to the time of discontinuance.

- G. In the event the Company incurs fees or expenses, including attorney's fees, in collecting, or attempting to collect, any charges owed the Company, the Customer will be liable to the Company for the payment of all such fees and expenses reasonably incurred.

2.5.6 Billing Disputes

A. General

All bills are presumed accurate, and shall be binding on the Customer unless notice of the disputed charge(s) is received by the Company within thirty (30) days of date of invoice. For the purposes of this section, "notice" is defined as written notice to the Company, containing sufficient documentation to investigate the dispute, including the account number under which the bill has been rendered, the date of the bill, and the specific items on the bill being disputed as well as a valid reason for the dispute.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.5 Payment Arrangements, (cont'd)

2.5.6 Billing Disputes, (cont'd)

B. Late Payment Charges

1. The undisputed portions of the bill must be paid by the payment due date to avoid assessment of a late payment charge on the undisputed amount.
2. In the event that a billing dispute is resolved by the Company in favor of the Customer, any disputed amount withheld pending resolution of the billing dispute shall not be subject to the late payment charge.
3. In the event that a billing dispute is resolved in favor of the Company, the Customer shall pay the late payment charge.

C. Adjustments or Refunds to the Customer

1. In the event that the Company resolves the billing dispute in favor of a Customer who has withheld payment of the disputed amount pending resolution of the disputed bill, the Company will credit the Customer's account for the disputed amount in the billing period following the resolution of the dispute.
2. In the event that the Company resolves the billing dispute in favor of a Customer who has paid the total amount of the disputed bill, the Company will credit the Customer's account for any overpayment by the Customer in the billing period following the resolution of the dispute.
3. In the event that the Company resolves the billing dispute in favor of a Customer who has paid the total amount of the disputed bill but canceled the service, the Company will issue a refund of any overpayment by the Customer.
4. All adjustments or refunds provided by the Company to the Customer, and which are accepted by the Customer, are final and constitute full satisfaction, settlement, and/or compromise of all of the Customer's claims for the billing period for which the adjustment or refund was issued.

Access Service Tariff**SECTION 2 - RULES AND REGULATIONS, (cont'd)****2.5 Payment Arrangements, (cont'd)****2.5.7 Cancellation of Application for Service**

Where, prior to cancellation by the Customer, the Company incurs any expenses in installing the service or in preparing to install the service that it otherwise would not have incurred, a charge equal to the costs the Company incurred, less net salvage, shall apply, but in no case shall this charge exceed the sum of the charge for the minimum period of services ordered, including installation charges, and all charges others levy against the Company that would have been chargeable to the Customer had service begun. The special charges described will be calculated and applied on a case-by-case basis.

2.6 Allowances for Interruptions in Service

Interruptions in service which are due to acts, omissions, negligence, or noncompliance with the provisions of this tariff by the Customer, or the operation or malfunction of facilities, power, or equipment provided by the Customer, will not be entitled to any allowance for interruption of service.

The Company will calculate appropriate credit allowances after the Customer notifies the Company of service interruption. The amount of the allowance will depend on the length of the outage and the service impacted. Service outage conditions are defined as complete loss of call origination and/or receipt capability. Credit allowances, if any, will be deducted from the charges payable by the Customer and will be expressly indicated on the next invoice. A service outage begins when the Customer reports the outage to the Company. A service outage ends when the affected circuit and/or associated Company equipment is fully operational in accordance with the technical specifications.

Credit allowances do not apply to outages caused by the Customer due to failure of equipment provided by the Customer; during any period in which the Company is not given access to the service premises; caused by failures of another Company's facilities; are due to mutually agreed upon maintenance and repair; and/or caused by equipment or circumstances beyond the reasonable control of the Company.

Credit allowances received by the Company from another Company for off-net facility outages, which affects the Customer's services, will be passed through to the Customer in the form of a credit on the next invoice.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.6 Allowances for Interruptions in Service, (cont'd)

2.6.1 Limitations on Allowances

No credit allowance will be made for:

- A. interruptions due to the acts and omissions or negligence of, or noncompliance with the provisions of this tariff by the Customer, authorized user, joint-user, or other common carrier providing service connected to the service of Company;
- B. interruptions due to the negligence of any person other than the Company, including, but not limited to, the Customer or other common carriers connected to the Company's facilities;
- C. interruptions due to the failure or malfunction of non-Company equipment;
- D. interruptions of service during any period in which the Company is not given full and free access to its facilities and equipment for the purpose of investigating and correcting interruptions;
- E. interruptions of service during a period in which the Customer continues to use the service on an impaired basis;
- F. interruptions of service during any period when the Customer has released service to the Company for maintenance purposes or for implementation of a Customer order for a change in service arrangements;
- G. interruption of service due to circumstances or causes beyond the reasonable control of the Company.

2.6.1 Allowances

Credits or allowances are only applicable when total loss of service occurs for over 24 hours. The foregoing restrictions apply. Allowances will be calculated as follows:

Under 24 hours - None

Over 24 hours – 1 day for each 24-hour period.

Partial days are rounded to the nearest half-day.

Allowance calculated on recurring charges only.

SECTION 2 - RULES AND REGULATIONS, (cont'd)

2.7 Transfers and Assignments

Neither the Company nor the Customer may assign or transfer its rights or duties in connection with the services and facilities provided by the Company without the written consent of the other party, except that the Company may assign its rights and duties to any subsidiary, parent Company or affiliate of the Company, or pursuant to any sale or transfer of affected assets of the Company, or pursuant to any financing, merger or reorganization of the Company.

2.8 Notices and Communications

2.8.1 The Customer shall designate on the service order or equivalent, an address to which the Company shall mail or deliver all notices and other communications, except that the Customer may also designate a separate address to which the Company's bills for service shall be mailed. The Customer will provide technical contacts for arranging or solving technical coordination issues or remedies.

2.8.2 The Company shall designate on the service order or equivalent, an address to which the Customer shall mail or deliver all notices and other communications, except that the Company may designate a separate address on each bill for service, to which the Customer shall mail payment on that bill.

2.8.3 All notices or other communications required to be given pursuant to this tariff shall be in writing. Notices and other communications of either party, and all bills mailed by the Company, shall be presumed to have been delivered to the other party on the third business day following deposit of the notice, communication, or bill with the U.S. Mail or a private delivery service, prepaid and properly addressed, or when actually received or refused by the addressee, whichever occurs first.

2.8.4 The Company or the Customer shall advise the other party of any changes to the addresses designated for notices, other communications or billing, by following the procedures for giving notice set forth herein.

2.9 Meet Point Billing

Meet point billing applies when more than one exchange telephone company is involved in the provision of access service. All recurring and nonrecurring charges for services provided by each exchange telephone company are billed under each Company's applicable rates and tariffs.

Access Service Tariff**SECTION 3 - ORDERING OPTIONS FOR ACCESS SERVICE****3.1 General**

This section sets forth the regulations and order related charges for access service requests (ASR) for switched access service, as defined in this tariff. These charges are in addition to other applicable charges set forth in other sections of this tariff.

3.1.1 Ordering Conditions

Unless otherwise specified herein, all services offered under this tariff shall be ordered using an ASR. The format and terms of the ASR will be as specified in the industry access service order guidelines, unless otherwise specified. A Customer may order any number of services of the same type and between the same premises on a single ASR. All details for services for a particular order must be identical.

The Customer shall provide all information necessary for the Company to provide and bill for the requested service. Additionally contact information must be provided regarding order coordination, service design, installation and billing.

3.1.2 Provision of Other Services

Unless otherwise specified herein, all services offered under this tariff shall be ordered with an ASR. With the agreement of the Company, other services may be subsequently added to the ASR at any time, up to and including the service date for the access service. When added subsequently, charges for a design change as set forth in this tariff will apply if engineering review is required.

Additional engineering is not an ordering option, but will be applied to an ASR when the Company determines that additional engineering is necessary to accommodate a Customer's request. Additional engineering will be provided by the Company at the request of the Customer only when Customer requests additional technical information after the Company has already provided the technical information included on the design layout report as set forth herein.

Access Service Tariff

SECTION 3 - ORDERING OPTIONS FOR ACCESS SERVICE, (cont'd)

3.1 General, (cont'd)

3.1.2 Provision of Other Services (cont'd)

The Customer will be notified when additional engineering is required, and will be furnished with a written statement setting forth the justification for the additional engineering as well as an estimate of charges. If the Customer agrees to the additional engineering, a firm order will be established. If the Customer does not want the service or facilities after being notified by the Company that additional engineering is required, the Customer may cancel the order and no charges will apply. Once a firm order has been established, the total charge to the Customer for the additional engineering may not exceed the original estimated amount by more than fifteen (15) percent.

3.2 Access Order

When a Customer requests new or additional Switched Access Service, one or more ASR's may be required. The number of orders required is dependent on the type of services and/or facilities being requested.

3.2.1 Access Service Date Intervals

Access service is provided with one of the following service date intervals:

- Standard Interval
- Negotiated Interval

The Company will specify a Firm Order Completion (FOC) and the service commencement date contingent on the ASR being complete as received. To the extent the access service can be made available with reasonable effort, the Company will provide the access service in accordance with the Customer's requested interval, subject to the following conditions:

A. Standard Interval

The Standard interval for switched service will be twenty (20) business days from the application date. This interval only applies to standard service offerings for a Customer that is on-net and at locations where there are pre-existing facilities to the Customer premises. Access services provided under the standard interval will be installed during Company business hours.

Access Service Tariff

SECTION 3 - ORDERING OPTIONS FOR ACCESS SERVICE, (cont'd)

3.2 Access Order, (cont'd)

3.2.1 Access Service Date Intervals, (cont'd)

B. Negotiated Interval: The Company will negotiate a service date interval with the Customer when:

1. The Customer requests a service date before the applicable standard interval service date; or
2. There is no existing facility connecting the Customer premises with the Company; or
3. The Customer requests a service that is not considered by the Company to be a standard service offering (for example, if additional engineering is required to complete the order); or
4. The Company determines that access service cannot be installed within the standard interval.
5. The Company must use another carrier for a part or all of the services ordered by the Customer.

The Company will offer a service date based on the type and quantity of access services the Customer has requested. All services for which rates are applied on an individual case basis are provided with a negotiated interval.

3.2.2 Non-routine Installation

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in unusual locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

3.2 Access Order, (cont'd)

3.2.3 Special Construction

Subject to the arrangement of the Company and to all of the regulations contained in this tariff, special construction of facilities may be undertaken on a reasonable efforts basis at the request of the Customer. Special construction is that construction undertaken and characterized by one or more of the following:

Where facilities are not presently available and there is no other requirement for the facilities so constructed;

Of a type other than that which the Company would normally utilize in the furnishing of its services;

Where facilities are to be installed over a route other than that which the Company would normally utilize in the furnishing of its services or a new right of way must be acquired;

Where facilities are requested in a quantity greater than that which the Company would normally construct;

Where installation is on an expedited basis;

When the Company furnishes a facility or service for which a rate or charge is not specified in the Company's tariff.

A. Rates and Charges

Rates and charges for special construction shall be determined and presented to the Customer for their approval prior to the start of construction. No construction will commence until and unless the Customer accepts in writing the rates and charges as presented by the Company. Rates and charges shall be based on the costs incurred by the Company and may include any one or any combination of the following:

nonrecurring charges;
recurring monthly rates; and/or
termination liabilities;
usage rates.

SECTION 3 - ORDERING OPTIONS FOR ACCESS SERVICE, (cont'd)

3.2 Access Order, (cont'd)

3.2.3 Special Construction (cont'd)

B. Special Construction Costs

Special construction costs may include one or more of the following items to the extent that they are applicable:

the installed cost of the facilities to be provided including estimated costs for the rearrangements of existing facilities. The installed cost includes but may not be limited to the cost of:

equipment and materials provided or used;
engineering, labor and supervision;
transportation;
rights of way; shipping and delivery;

cost of maintenance;

depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage;

administration, taxes and uncollectible revenue on the basis of reasonable average costs for these items;

license preparation, processing and related fees;

tariff preparation, processing and related fees;

any other identifiable costs related to the facilities provided; or

an amount for return and contingencies.

Access Service Tariff**SECTION 3 - ORDERING OPTIONS FOR ACCESS SERVICE, (cont'd)**

3.2 Access Order, (cont'd)

3.2.4 Ownership of Facilities

Title to all facilities provided in accordance with this tariff remains in the Company, its agents, contractors or suppliers.

3.2.5 Access Service Request Modifications

The Customer may request a modification of its ASR prior to the service commencement date. All modifications must be in writing using the industry ASR process. The Company, in its sole discretion, may accept a verbal modification from the Customer. The Company will make every effort to accommodate a requested modification when it is able to do so with the normal work force assigned to complete such an order within normal business hours.

A. Service Commencement Date Changes

ASR service dates for the installation of new services or rearrangement of existing services may be changed but the new service may not exceed the original service commencement date by more than thirty (30) calendar days. Service date change fees apply. Expedite fees apply if applicable.

If the Customer requested service date is more than thirty (30) calendar days after the original service date, the order will be cancelled by the Company on the 31st day. Appropriate cancellation charges will be applied. If the Customer still requires the service, the Customer must place a new ASR with the Company.

The service date change charge will apply on a per order, per occurrence basis for each date change. The applicable charges are set forth in section 3.5.

Access Service Tariff**SECTION 3 - ORDERING OPTIONS FOR ACCESS SERVICE, (cont'd)**

3.2 Access Order, (cont'd)

3.2.5 Access Service Request Modifications (cont'd)

B. Design Change Charge

The Customer may request a design change to the service ordered. A design change charge is any change to an ASR, which requires engineering review.

An engineering review is a review by Company personnel of the service ordered and the requested changes to determine what change(s) in the design, if any, are necessary to meet the Customer's request. Design changes include such changes as the addition or deletion of optional feature or functions, a change in the type of transport termination (switched access only) or type of channel interface. Any other changes are not considered design changes for purposes of this subsection and will require issuance of a new ASR and the cancellation of the original ASR with appropriate cancellation charges applied.

The design change charge will apply on a per order, per occurrence basis, for each order requiring a design change. The applicable charges, as set forth in section 3.5 are in addition to any service date change charges that may apply.

C. Expedited Order Charge

When placing an access order for service(s) for which a standard interval exists, a Customer may request a service commencement date that is earlier than the standard interval service date, in which case an expedite charge will apply. The request for an earlier service date may be received from the Customer prior to its issuance of an ASR, or after the ASR has been issued but prior to the service date. The Company has the exclusive right to accept or deny the expedite order request. However if, upon reviewing availability of equipment and scheduled workload, the Company agrees to provide service on an expedited basis and the Customer accepts the Company's proposal, an expedite charge will apply.

If the Company is subsequently unable to meet an agreed upon expedited service date, then the expedite charge will not apply.

Access Service Tariff**SECTION 3 - ORDERING OPTIONS FOR ACCESS SERVICE, (cont'd)**

3.2 Access Order, (cont'd)

3.2.5 Access Service Request Modifications (cont'd)

C. Expedited Order Charge (cont'd)

In the event the Company provides service on an expedited basis on the Customer's request, and the Customer delays service or is not ready for delivery of service at the time of installation, a service date change charge will apply in addition to the expedite charge.

In the event that the Customer cancels an expedited request, the expedite charge will be added to any applicable cancellation charge specified herein.

In the event that the Customer requests a service date change after the Company has received the original expedite request, the expedite charge will still apply.

An expedite charge will not be applied to orders expedited for Company reasons.

If costs other than additional administrative expenses are to be incurred when the access order is expedited, the regulations and charges for special construction as set forth in this tariff will apply.

The expedited order charge will apply on a per order, per occurrence basis, as specified in section 3.5.

D. Cancellation of Access Service Request

A Customer may cancel an ASR for the installation of access service at any time prior to notification by the Company that the service is available for the Customer's use. The cancellation date is the date the Company receives written notice from the Customer that the order is to be canceled. The verbal notice must be followed by written confirmation within ten (10) days.

A Customer may negotiate an extension of a service date of an ASR for installation of new services or rearrangement of existing service, in which case a service date change charge will apply.

Issued: March 28, 2006

Effective: April 3, 2006

Access Service Tariff**SECTION 3 - ORDERING OPTIONS FOR ACCESS SERVICE, (cont'd)**

3.2 Access Order, (cont'd)

3.2.5 Access Service Request Modifications (cont'd)

D. Cancellation of Access Service Request (cont'd)

However, the new service date cannot exceed the originally established service date by more than thirty (30) calendar days. On the 31st day beyond the original service date, the ASR will be canceled and the appropriate cancellation charges will be applied. If the cancellation occurs prior to the Company's receiving the ASR, no charges will apply.

If the Company misses a service date for a standard or negotiated interval access order due to circumstances such as acts of God, governmental requirements, work stoppages and civil commotions, the Company shall not be liable for such delay and the Customer may cancel the ASR without incurring cancellation charges.

3.2.6 Minimum Period of Service

The minimum period for which access service is provided and for which charges are applicable is twelve (12) months.

A. The following changes will be treated as a discontinuance of the existing service and a request for installation of a new service. All associated non-recurring charges will apply for the new service, and a new minimum period will be established:

1. a change in the identity of the Customer of record; or
2. a move by the Customer to a different building; or
3. a change in type of service; or
4. a change in access service interface; or
5. a change in access service traffic type.

Access Service Tariff

SECTION 3 - ORDERING OPTIONS FOR ACCESS SERVICE, (cont'd)

3.2 Access Order, (cont'd)

3.2.6 Minimum Period of Service_ (cont'd)

B. When access service is disconnected prior to the expiration of the minimum period, charges are applicable for the balance of the minimum period. The minimum period charge for monthly billed services will be determined as follows:

1. for switched access service, the charge for a month or fraction thereof is equivalent to 50,000 billed minutes of use per DS1 for the applicable service for each remaining month;
2. all applicable non-recurring charges for the service will be billed in addition to the minimum period charge;
3. fifty percent (50%) of recurring charges for each month remaining for the term of agreement.

C. Term Discounts

All monthly recurring and non-recurring (installation) charges are based on a one-year (twelve month) term. Customers may receive a discount for committing to a longer term. The specific discounts, if offered, are defined in the applicable rate paragraph of this Tariff. Discounts do not apply to usage sensitive rates. Monthly rates, if requested by the Customer, May be made available on an individual case basis.

3.3 Ordering and Billing of Access When More Than One Company is involved.

Each exchange carrier will provide its portion of the access service within its operating territory to an interconnection point(s) with the other telephone company(s). Billing percentages will be determined by the exchange carriers involved in providing the access service and listed in National Exchange Carrier Association, Inc. Tariff F.C.C. No. 1. The exchange carrier will adhere to the standards for billing of access service by multiple companies that are set forth in reference documents Ordering and Billing Forum: Multiple Exchange Carrier Access Billing (MECAB) and Ordering and Billing Forum: Multiple Exchange Carrier Ordering and Design (MECOD).

Access Service Tariff**SECTION 3 - ORDERING OPTIONS FOR ACCESS SERVICE, (cont)****3.3 Ordering and Billing of Access When More Than One Company is Involved. (Cont'd)**

For the service(s) ordered as set forth following, the Customer must also supply a copy of the order to the exchange carrier in whose operating territory a Customer designated premises is located and any other exchange carrier(s) involved in providing the service. Additionally, when service is provided through a centralized equal access provider, the Customer must supply a copy of the order to that provider.

3.4 Rating and Billing of Service

Each Company will provide its portion of the access service based on the regulations, rates and charges contained in its access service tariff, subject to the following rules, as appropriate:

- A. The charges billed by this Company for what is normally considered mileage sensitive rate elements will be billed at a flat rate.
- B. The application of non-distance sensitive rate elements may be billed at a flat rate or by rate elements according to the rate structure and the location of the facilities involved:
 - 1. when rates and charges are listed on a per point of termination basis,
 - 2. this Company's rates will be billed or the termination(s) within this Company's operating territory;
 - 3. when rates and charges are listed on a per unit basis, this Company's rates and charges will apply for units located in this Company's operating territory. When rates and charges are developed on an individual case basis, such rates will be developed for the portion of the service;
 - 4. when rates and charges are listed on a per service basis, this Company's rates and charges are allocated based upon the ratio of points on the access circuit that this Company owns. In relation to the total number of points on the circuit;
 - 5. for switched interoffice channel facility termination rates, rates will apply for each end of the switched interoffice channel provided by the Company;
 - 6. where this Company is the end office Company, 100% of the Company's interconnection charge will apply;
 - 7. for nonrecurring charges, 100% of this Company's charge shall apply.

Access Service Tariff**SECTION 4 - SWITCHED ACCESS SERVICE****4.1 General**

Switched access service, which is available to Customers for their use in furnishing their services to end users, provides a two-point telecommunications path between a Customer's premises and an end user's premises. It provides for the use of common terminating, switching and transport facilities. Switched access service provides the ability to originate calls from an end user's premises to a Customer's premises, and to terminate calls from a Customer's premises to an end user's premises.

Switched access service is available when originating or terminating calls from or to an end user who subscribes to the Company's local exchange services.

Rates and charges are set forth in Section 5. The application of rates for switched access service is described in Section 5.

4.2 Provision and Description of Switched Access Service Arrangements**4.2.1 Feature Group D (FGD) Access**

FGD access, which is available to Customers, is provisioned on a DS1 level and provides trunk side access to Company local switching center switches, with an associated uniform 101XXXX access code for the Customer's use in originating and terminating calls. Basic FGD service will be provided with multi-frequency in band signaling End user's of the Customer's service may also originate calls to certain FGD access Customers without dialing the 101XXXX access code if the end user is presubscribed, as described herein.

The access code for FGD switching is a uniform access code of the form 101XXXX. A single access code will be assigned a number of all FGD access provided to the Customer by the Company. No access code is required for calls to a Customer over FGD access service if the end user's telephone exchange service is arranged for presubscription to that Customer, as set forth herein.

Access Service Tariff

SECTION 4 - SWITCHED ACCESS SERVICE, (cont'd)

4.2 Provision and Description of Switched Access Service Arrangements, (cont'd)

4.2.1 Feature Group D (FGD) Access (cont'd)

Where no access code is required, the number dialed by Customer's end user shall be a seven or ten digit number for calls in the North American Number Plan (NANP), except for 00-dialed calls which are routed by the predesignated Customer. For international calls outside the NANP, a seven to twelve digit number may be dialed. The form of numbers dialed by the Customer's end user is NXX-XXXX, 0 or 1+NXX-XXX, NPA+NXX-XXXX, 0 or 1+ NPA + NXX-XXXX and when the local switching center is equipped for International Direct Distance Dialing (IDDD), 01+CC+NN or 011+CC+NN. These services are available subject to Company's operational ability to provide them.

When the 101XXXX access code is used, FGD switching also provides for dialing digit 0 for access to the Customer's operator, 911 for access to the Company's emergency service, or end-of-dialing digit (#) for cut through access to the Customer's premises. These services are available subject to Company's operational ability to provide them.

In addition, end users may originate calls by dialing the 950-XXXX access code specific to a particular interexchange carrier, provided that the interexchange carrier has subscribed to the Company's Feature Group D with 950 access common switching optional feature. If the end user is presubscribed to that interexchange carrier, no access code is necessary. These services are available subject to Company's operational ability to provide them.

4.2.2 Manner of Provision

Trunks used for access service may be configured for one-way (either originating only or terminating only) or for two-way directionality. It is the Customer's responsibility to order a sufficient number of trunks of each type in order to meet its desired grade of service objective. At the Customer's request, the Company will assist the Customer in sizing access trunk groups.

Access Service Tariff**SECTION 4 - SWITCHED ACCESS SERVICE, (cont'd)****4.2 Provision and Description of Switched Access Service Arrangements, (cont'd)****4.2.3 Bill Validation Service**

The Company may arrange to have its billing validation data stored in one of the existing Line Information Databases (LIDB). It will be the responsibility of the Customer to identify this database through established industry procedures and to query the billing validation data in the LIDB. Based on the received query information, the LIDB will respond with an SS7 formatted confirmation of validity or denial for the requested billing option. Access to the LIDB provides Customers with potential toll fraud detection.

LIDB will contain a record for every working line number and billed number group served by the Company. The Company will update LIDB information daily. LIDB services are available subject to Company's operational ability to provide them.

LIDB service is provided on an on-line, call-by-call basis. Company data accessed from the LIDB shall remain the sole property of the Company and may not be stored or reproduced by the Customer for any reason. The Company will have procedures in place to deactivate billing validation data in the event that it is being used fraudulently.

4.2.4 Originating 800 FG Access

800 database access service is a service offering using originating trunk side switched access service. When an 8XX + NXX + XXXX call is originated by an end user, the Company will perform Customer identification based on screening of the full ten-digits of the 8XX number to determine the Customer location to which the call is to be routed. These services are available subject to Company's operational ability to provide them.

4.2.5 Terminating FG Access

FGD Access, when used in the terminating direction, may only be used to access end users who are subscribing to the Company's local exchange services. Calls in the terminating direction will not be completed to 950-0XXX or 950-1XXX access codes, local operator assistance (0- and 0+), directory assistance, (411 or 555-1212. service codes 611 and 911 and 101XXXX access codes.

Access Service Tariff

SECTION 4 - SWITCHED ACCESS SERVICE, (cont'd)

4.3 Reports and Testing

4.3.1 Design Layout Report: At the request of the Customer, the Company will provide to the Customer the makeup of the facilities and services provided from the Customer's premises to the first point of switching. This information will be provided in the form of a basic design layout report. The design layout report will be provided to the Customer at no charge and in a format designed by the Company.

4.3.2 Acceptance Testing: At no additional charge the Company will, at the Customer's request, cooperatively test the service at the time of installation to ensure that standard BELLCORE parameters have been and the circuit is performing in accordance with the ASR.

Access Service Tariff**SECTION 5 - SWITCHED ACCESS RATES****5.1 General**

This section contains the specific regulations governing the rates and charges that apply for switched access services:

There are three types of rates and charges that apply to switched access service:

- Non-Recurring Charges (NRC): One-time charges that apply for a specific work activity.
- Recurring Charges (MRC): Fixed charges apply each month and depend on the number and type of facilities in place.
- Usage Charges: Charges that are applied on a per access minute basis. Usage rates are accumulated over a monthly period.

5.2 Rate Elements

Following are rate element descriptions that may be incorporated into usage sensitive switched access service. Not all rate elements will apply to every call. Switched access rates billed by the Company may be billed at one flat rate encompassing these elements, or on an element by element basis, or a combination of the two.

1. Carrier Common Line, End Office

The Carrier Common Line rate category provides for the use of company common lines by Customers for access to end users to furnish Customer interstate telecommunications. Carrier common line is provided where the Customer obtains Company-provided switched access service. It connects the serving End Office to the End User. Additionally there is a Carrier Common Trunk Port charge however the Company does not charge for this port when the Customer is using the Company's Switched Access Service. This is a usage based element applied to all originating and terminating calls on a per minute basis.

Dalton, Georgia 30722-0869

Access Service Tariff**SECTION 5 - SWITCHED ACCESS RATES, (cont'd)****5.2 Rate Elements (cont'd)****2. Local Switching, End Office**

The Local Switching rate category establishes the charges related to the End Office switching facilities. In some cases this may include a Remote Switching Module(s) where the Customer's traffic is switched to originate or terminate the Customer's calls. This is a usage based element applied to all originating and terminating calls on a per minute basis.

Local Switching is a two-way voice frequency transmission path composed of facilities determined by the telephone company. In some cases it may be engineered as one-way. The voice frequency transmission path permits the transport of calls in the originating direction (from the end user end office switch to the Customer designated premises) and in the terminating direction (from the Customer designated premises to the end office, but not simultaneously. The voice frequency transmission path may be comprised of any form or configuration of plant capable of and typically used in the telecommunications industry for the transmission of voice and associated telephone signals within the frequency bandwidth of approximately 300 to 3000 Hz.

The local switching rate element establishes the charges related to the use of end office switching equipment, the terminations in the end office of end user lines, the terminations of calls at telephone company intercept operators or recordings, the STP costs, and the SS7 signaling function between the end office and the signaling transfer point.

3. Local Transport

For purposes of this Tariff Local Transport in the combination of the two usage based elements Carrier Common Line and Local Switching End Office charges. When used, billing will be provided for all End Office related charges under this element and will be a flat rate. Utilization of the Local Transport Charge, when used, will be determined by combing the rates of Common Carrier Line and Local Switching charges. This is a usage based element applied to all originating and terminating calls on a per minute basis.

P.O. Box 869
Dalton, Georgia 30722-0869

Access Service Tariff**SECTION 5 - SWITCHED ACCESS RATES, (cont'd)****5.2 Rate Elements (cont'd)****4. Common Transport**

The Common "Switched" Transport rate element recovers a portion of the costs associated with a telecommunications path between a tandem and an end office on circuits that are switched at a tandem switch. This charge applies if the Company is providing the circuits connecting the local area tandem and the Company's End Office. This is a usage based element applied to all originating and terminating calls on a per minute, per mile basis. The calculated distance is defined in 5.3.2 This usage rate element would not apply if the Customer delivers the call to the Company's End Office via leased or owned facilities, also known as Direct Trunk Transport.

5. Toll Free Query

The Toll Free 8XX Data Base Query applies for each toll free call query received at the Company's (or it's provider's) Toll Free Data Base.

6. Federal Subscriber line Charge (also known as EUCL)

This per line charge recovers the costs associated with connecting to other telecommunications service provider's interstate network. The Federal Communications Commission regulates pricing levels for dominant providers. If service is delivered via a PRI, DS1 or CENTREX the charge applies per voice equivalent path.

5.3 Rate Regulations**1. Recording and Measuring Call Detail Records**

When access minutes are used to determine access charges, they will be accumulated using call detail recorded by the Company equipment. The Company measuring and recording equipment will be associated with end office or local tandem switching equipment and will record each originating and terminating access minute where answer supervision is received. The accumulated access minutes will be summed on a line-by-line basis, by end office for each Customer and then rounded to the nearest minute.

Access Service Tariff

SECTION 5 - SWITCHED ACCESS RATES, (cont'd)

5.3 Rate Regulations, (Cont'd)

2. Mileage Measurement

Where applicable, the V&H coordinates method is used to determine mileage. This method is set forth in the National Exchange Carrier Association, Inc. Tariff F.C.C. No. 1 for Wire Center Information (V&H coordinates).

Mileage Formula

$$\sqrt{\frac{(V1-V2)^2 + (H1-H2)^2}{10}}$$

To determine the rate to be billed, first compute the airline mileage using the V&H coordinates method. If the calculation results in a fraction of a mile, always round up to the next whole mile before determining the mileage and applying the rates. Then multiply the mileage by the appropriate rate.

Access Service Tariff

SECTION 5 - SWITCHED ACCESS RATES, (cont'd)

5.4 Rates and Charges

- The following Switched Access/Termination rates apply to both origination and termination of interstate calls and are based on the incumbent local exchange company rates:

<u>Per Minute Rates</u>	
Carrier Common Line	n/a
Carrier Common Trunk Port	n/a
Local Switching	\$0.00565
Local Transport (combination of above)	\$0.00565
Common Transport	\$0.000165(per minute per mile)
Interoffice Facility Termination	\$0.000416
Tandem Switching	\$0.001669
<u>Other Usage Rates</u>	
Information Surcharge	\$0.01880
LNP Query	\$0.00429
Toll Free Query	\$0.00100
<u>Monthly Charges</u>	
Federal Subscriber Line Charge, each (also know as EUCL)	
Residential Lines	\$6.00
Business Lines	\$6.00
Voice grade equivalent access path	\$6.00 (applies to PRI, DS1 or Centrex)

- The Company will apply rates equal to the rate being charged by other rural local exchange companies where an interconnection agreement is not in effect.
- The Company may enter into interconnect agreements with other local exchange companies in which case the agreement will supersede this tariff.

Access Service Tariff**SECTION 6 – MISCELLANEOUS CHARGES**

6.1 Rate Elements

6.1.1 Equal Access Subscription

A. Description

Equal access subscription is a procedure whereby a Customer designates to the Company the carrier, which the Customer wishes to be their carrier of choice for IntraLATA and InterLATA toll calls without dialing an access code. The Customer may designate a carrier for IntraLATA toll, a different carrier for InterLATA toll, or the same carrier for both. The carrier is identified by a unique carrier identification code (CIC) shown on the Customer service record.

B. Confirmation/Verification of Choice of Carrier

Carriers must request confirmation/verification of choice from their Customers. All letters of agency, recordings, or other evidence of confirmation/verification shall be maintained by the soliciting Carrier for at least two years from the date the Customer's service was switched. Failure to maintain such records shall constitute evidence that consent from the Customer was not obtained. No Carrier shall submit to the Company a primary or preferred interexchange carrier (PIC) change unless that order has first been confirmed in accordance with one of the following procedures:

1. the carrier has obtained the Customer's written authorization to submit the order that explains what occurs when a PIC is changed and confirms the Customer's billing name, address and telephone number to be covered by the PIC change order, and the Customer's understanding of PIC change fee; or
2. the carrier has obtained the Customer's electronic authorization to submit the change order in accordance with current state and federal regulations; or

6.1 Rate Elements, (cont'd)

6.1.1 Equal Access Subscription, (cont'd)

B. Confirmation/Verification of Choice of Carrier, (cont'd)

3. an appropriately qualified and independent third party has obtained the Customer's oral authorization to submit the PIC change order that confirms and includes appropriate verification data in accordance with current state and federal regulations. The independent third party must operate in a location physically separate from the carrier and may not be owned, managed, controlled, or directed by the soliciting carrier; or
4. Such other verification procedures as may be specified by the Federal Communications Commission in rules or regulations which are consistent with the rules determined by the Federal Communications Commission pursuant to 47 United States Code Section 258. Should there be a conflict in subscription rules between this tariff and either a state Public Service Commission or FCC rules, the latter shall apply.

Access Service Tariff**SECTION 6 – MISCELLANEOUS CHARGES, (cont'd)****6.1 Rate Elements, (cont'd)****6.1.1 Equal Access Subscription, (cont'd)****C. Discrepancies**

When a discrepancy is determined regarding a Customer's or provider's authorized agent's designation of a preferred IntraLATA carrier, the following applies depending upon the situation described:

1. When two or more carrier orders are received for a Customer line, the order with the latest application date determines the Customer's choice. Carriers involved in the changes will be notified an agreed upon media.
2. When a Customer provider or authorized agent denies requesting a change in the IntraLATA carrier subscription, as submitted by the carrier, and the carrier is unable to produce proof of verification, the carrier will be assessed an unauthorized subscription change charge, as applicable, to correct the unauthorized change. The Customer provider will be credited for the amount of the disputed charge and this charge will be passed to the carrier.

D. Equal Access Subscription Application

1. New Customers provider (or their authorized agent) will be asked to select a preferred carrier for IntraLATA at the same time they place an order with the Company for local service. There will be no charge for this initial selection.

A subscription charge will apply for each IntraLATA PIC change submitted, except as provided in number 6.1.1.D.1 preceding. The applicable subscription charge for each InterLATA PIC change submitted is as set forth in the Dalton Utilities FCC Tariff No. 1. If Customers change the InterLATA and IntraLATA PIC at the same time only one PIC change fee will be charged.

Access Service Tariff

SECTION 6 – MISCELLANEOUS CHARGES, (cont'd)

6.1 Rate Elements, (cont'd)

6.1.1 Equal Access Subscription, (cont'd)

D. Equal Access Subscription Application, (cont'd)

2. At the option of the carrier, the nonrecurring charge for a change in Subscription may be billed to the carrier instead of the Customer or location provider or authorized agent, when the change order is submitted to the Company. The carrier must arrange for this prior to submitting PIC changes.

E. Nonrecurring charges for a change in IntraLATA Equal Access Subscription are as follows:

1. IntraLATA equal access subscription change when not performed simultaneously to the same carrier with InterLATA PIC change:

	<u>NRC</u>
A. billed to Customer or payphone location provider or authorized agent	\$2.50
B. billed to carrier	\$2.50

2. IntraLATA equal access subscription charge when performed simultaneously to the same carrier with InterLATA PIC change will result in only the InterLATA PIC change charge fee.

3. Nonrecurring charge for an unauthorized change in InterLATA subscription is as follows:

	<u>NRC</u>
A. per business or residence line or trunk	\$30.00

Note: If an unauthorized change in the IntraLATA and InterLATA subscription occurs at the same time, on the same business, residence line or trunk, and the subscribed carrier is the same for IntraLATA and InterLATA subscription, the carrier will be assessed one unauthorized subscription charge for each offense.

Access Service Tariff

SECTION 6 - MISCELLANEOUS CHARGES, (cont'd)

6.2 Billing

6.2.1 Standard Billing

The Customer will receive monthly access bills in a standard format at no additional charge. Additional copies of the access bill may be requested and all copies will be sent to the Customer's billing address. Additional paper copies are available for the following fees:

Per Invoice Charge	\$20
Per Page Charge	\$0.10

Electronic copies or CD Rom are available on an ICB basis.

6.2.2 Detailed Billing

As an option, the Customer and for an additional charge, billing detail may be provided. Rates for the retrieval of call detail records are \$50 per request and \$0.012 per record.

6.3 Billing Name and Address (BNA)

Company will provide standard one-time notification to carriers regarding BNA information if an end user has the assigned CIC of that carrier, or if any changes to the end user's account takes place. It is the carrier's obligation to notify the Company in advance that they desire to receive this information and to provide appropriate contact information. Information will be provided to the carrier using the Company's format by either fax or email. There is no fee for Standard BNA reporting. This service commences approximately ten (10) days after receipt of the request from the carrier. Information will be provided in a timely manner.

Any special requests in addition to the above, such as a complete listing of all end users with ANI's assigned to that carrier, request for old information (if available), or any other special request may be provided. Carrier agrees to pay Special BNA Report fee of \$50 per request and \$0.30 per ANI. Special BNA Reports are available solely at the Company's discretion.

6.4 Federal Universal Service Fund (FUSF)

The Company will charge end users a like amount as it is required to contribute to the Federal Government. The applicable percentage will be applied to interstate and international usage as defined by the FCC.

Access Service Tariff**SECTION 7 – SPECIAL ACCESS****7.1 Special Access Description****7.1.1 General**

Special Access service provides a transmission path to connect Customer designated premises directly, or through a Company's hub or hubs where bridging or multiplexing functions are performed, or to connect a Customer designated premises and the Company's serving office.

7.1.2 Channel Types

The company offers this service at standard DS1 levels and pricing. All other levels, such as DS3, will be on an individual case basis.

7.1.3 Service Configurations

There are three types of service configurations over which Special Access services are provided:

A. Two-Point Service

Two-point service connects two Customer designated premises, either on a directly connected basis or through a hub where multiplexing functions are performed. This service may not be used for Feature Group Access.

Applicable rate elements may include Service Establishment, Channel Termination, Channel Mileage (per mile and fixed), NID Termination, Interoffice Charge if applicable, and other optional features and functions when applicable)

Access Service Tariff

SECTION 7 – SPECIAL ACCESS, (cont'd)

7.1 Special Access Description (cont'd)

7.1.3 Service Configurations (cont'd)

B. Multipoint Service

Multipoint service connects three or more Customer designated premises through one or more Company hubs. The channel between hubs (i.e., bridging locations) on a multipoint service is a mid-link. There is no limitation on the number of mid-links available with a multipoint service. However, when more than three mid-links in tandem are provided the quality of the overall service may be degraded. If the Company determines that the requested characteristics for a multipoint service are not compatible, the Customer will be advised and given the opportunity to change the order.

Applicable rate elements may include Service Establishment, Channel Termination, Channel Mileage (per mile and fixed), NID Termination, bridging/muxing, Interoffice Charge if applicable, and other optional features and functions when applicable)

C. Dedicated Special Access Service

A Dedicated Special Access Service circuit connects a Customer designated switching location or POP directly to the Company's Serving End Office for purposes of originating and/or terminating Feature Group D traffic.

Applicable rate elements include Service Establishment, Channel Termination, Channel Mileage (per mile and fixed), NID Termination, Interoffice Charge if applicable, and other optional features and functions when applicable)

Access Service Tariff

SECTION 7 - SPECIAL ACCESS, (cont'd)

7.2 Rate Regulations

This section contains the specific regulations governing the rates and charges that apply for Special Access.

1. Multiplexing

Multiplexing provides an arrangement for converting a single, higher capacity or bandwidth circuit to several lower capacity or bandwidth circuits.

When a derived channel is itself multiplexed to derive additional channels with a lesser capacity, this is referred to as cascade multiplexing. When cascade multiplexing occurs, a charge for the additional multiplexing function applies. When cascade multiplexing is performed at different hubbing locations, direct trunked transport charges also apply between the hubs.

Multiplexing is only available at wire centers identified in National Exchange Carrier Association, Inc. Tariff No. 1, Wire Center Information.

The following multiplexing arrangements are offered for use with switched access service:

- A. DS3 to DS1 multiplexing charges specified in Section 7.8 apply when a high capacity DS3 entrance facility or high capacity DS3 direct trunked transport is connected with high capacity DS1 direct trunked transport. The DS3 to DS1 multiplexer will convert a 44.736 Mbps channel to 28 DS1 channels using digital time division multiplexing
- B. DS1 to DS0 multiplexing apply when a high capacity DS1 entrance facility or high capacity DS1 direct trunked transport is connected with DS0 direct trunked transport. However, a DS1 to DS0 multiplexing charge does not apply when a high capacity DS1 entrance facility or high capacity DS1 direct trunked transport is terminated at an electronic end office and only switched access service is provided over the DS1 facility (i.e., DS0 dedicated access channels are not derived). The DS1 to DS0 multiplexer will convert a 1.544 Mbps channel to 24 DS0 channels.

P.O. Box 869
Dalton, Georgia 30722-0869

Access Service Tariff

SECTION 7 - SPECIAL ACCESS, (cont'd)

7.2 Rate Regulations (cont'd)

2. Channel Termination

The circuit charge rate category recovers the costs associated with the Telecommunications path between the two points. Included, as part of the Channel Termination is a standard channel interface arrangement, which defines the technical characteristics associated with the type of facilities to which the Access Service is to be connected at the Point of Termination.

One circuit charge applies per Customer designated premises at which the channel is terminated. This charge will apply even if the Customer designated premises and the serving wire center are collocated in a Company building.

3. Channel Mileage

The channel mileage charge applies to the miles between the points of the circuit. There is both a fixed rate and a per mile rate.

4. Bridging

If applicable, joins two or more point-to-point circuits into one continuous path. This charge applies to each link connected to the bridge.

6. NID Termination

The NID Termination charge applies when the Customer must install and maintain a network interface device at one or more ends of the circuit. This charge applies for each NID installed.

Access Service Tariff

SECTION 7 – SPECIAL ACCESS, (cont'd)

7.3 Types of Rates and Charges

There are three types of rates and charges. These are monthly rates, nonrecurring charges and off-net charges. The rates and charges are described as follows:

1. Monthly Rates

Monthly rates are recurring rates that apply each month or fraction thereof that a Special Access Service is provided. For billing purposes, each month is considered to have thirty (30) days.

2. Nonrecurring Charges

Nonrecurring charges are one-time charges that apply for specific work activity including but not limited to installation or changes to an existing service.

3. Off-Net Charges

If services involve using another company to complete the circuit, all applicable charges apply as well as charges incurred by the other company. Charges incurred by another provider, if applicable will be on an ICB basis.

7.4 Mileage Measurement

The mileage to be used to determine the monthly rate for the Channel Mileage Facility is calculated on the airline distance between the locations involved.

Mileage charges are shown with each channel type. To determine the rate to be billed, first compute the mileage using the V&H coordinates method, as set forth in the National Exchange Carrier Association, Inc. Tariff F.C.C. No. 1, then multiply the resulting number of miles times the channel mileage facility per mile rate, and add the channel mileage termination rate for each termination. When the calculation results in a fraction of a mile, always round up to the next whole mile before determining the mileage and applying the rates.

Access Service Tariff**SECTION 7 – SPECIAL ACCESS, (cont'd)****7.5 Custom Services**

Other Special Access services not described in this tariff or services considered to be non-standard configurations will be handled on an individual case basis.

7.6 Special Construction

Special construction rates, terms and conditions apply pursuant to section 3.2.3 of the preceding and will be considered on an individual case basis.

7.7 Time and Materials

This service provides for the labor and material charges associated with installation, maintenance, testing and repair deemed to be associated with equipment and facilities not provided by the Company or deemed to be non-standard or non-routine.

The Company shall have no responsibility for the maintenance or repair of any kind with respect to equipment and facilities not provided by the Company. The Company will charge the Customer time and material charges for any maintenance visits with respect to service problems which are determined to arise from equipment or facilities not provided by the Company.

When a Customer reports a trouble to the Company for clearance and no trouble is found in the Company's facilities, the Customer shall be responsible for payment of time and material charges based on the period of time from when the Company personnel were dispatched to the Customer's premises to when the work is completed. Failure of

Company personnel to find trouble in Company facilities will result in no charge if the trouble is actually in those facilities, but not discovered at the time.

These charges will be billed as incurred according to the rates in the Tariff unless special terms and conditions were agreed upon in writing by both parties.

These rates are located in Section 3.5 of this Tariff.

7.8 Rates and Charges

The following rates and charges apply to DS1 level service. All DS3 or other levels will be considered on an individual case basis. The following rates apply to on-net facilities. Off-net facilities, if used will have those rates considered on a case by case basis.

		<u>Monthly</u>	<u>Non-Recurring</u>
A.	Service Establishment, per circuit	n/a	\$400
B.	Channel Termination per termination	\$125	\$303
C.	Channel Mileage, per mile	\$12	n/a
D.	Channel Mileage, Fixed Charge per termination	\$50	n/a
E.	NID Termination, per NID installed by Company	\$15	\$250
F.	Multiplexing		
	DS1 to DS0	\$200	n/a
	DS3 to DS1	\$450	n/a
G.	Bridging, each DS1	\$35.00	\$150.00
E.	Interoffice Charge	ICB	ICB
F.	Entrance Facility	ICB	ICB

7.9 Term Discounts

All rates in this Section are based on a minimum one year term. Discounts for monthly recurring charges for longer term commitments are defined below:

24 month term	5% discount
36 month term	10% discount
60 month term	20% discount

Discounts do not apply to any non-recurring charges or usage sensitive rates.

Access Service Tariff

SECTION 8 – Wireless Termination Service

8.1 General

This section applies to intraMTA traffic originated by a Commercial Mobile Radio Service (CMRS) provider and terminated to end-user subscribers of the Company (i.e. wireless to wireline traffic) without the direct interconnection of the CMRS provider's and the Company's networks and where the CMRS provider is physically connected with and delivers traffic to a third party ILEC(s) which in turn delivers the traffic to the Company.

- 8.1.1 This service is provided to CMRS providers licensed by the Federal Communications Commission (FCC).
- 8.1.2 Wireless Termination Service (WTS) is limited to wireless to wireline traffic that originates and terminates within the same Major Trading Area (MTA), i.e. intraMTA traffic. The MTA as defined in 47 C.F.R. paragraph 24-102 of the FCC Rules and Regulations.
- 8.1.3 WTS is not available to wireless to wireline traffic that originates and terminates in two different MTA's, i.e. interMTA traffic. In those cases where a CMRS provider terminates interMTA traffic to the end users of the Company, then the rates, terms and conditions of the appropriate access tariff will apply. These Rates and regulations are in addition to the rates, regulations and charges in other Company tariffs or price lists.
- 8.1.4 This Section applies except as otherwise provided in an approved interconnection agreement between the CMRS provider and the Company, or an approved terminating traffic agreement between the CMRS provider and the Company.

Access Service Tariff**SECTION 8 – Wireless Termination Service****8.1 General (cont'd)**

8.1.5 The Company shall issue a bill to the CMRS provider based on the best information available to the Company including but not limited to records of terminating traffic created by the Company's end office or tandem switch. If possible the CMRS provider will provide to the Company billing records in standard industry format regarding calls it originates that terminate on the Company's network. Records will be provided at an individual call detail record with sufficient information to identify the specific date and time of call, call duration, and originating and terminating numbers. If a CMRS provider is unable to provide these billing records to the Company, the Company may use usage reports and/or records generated by a third party ILEC whose network is used to transit the traffic as the basis for billing the CMRS provider. If the CMRS provider is unable to provide billing records, the CMRS provider will have the responsibility of providing on a quarterly basis (or otherwise as agreed to by the Company), a report to the Company providing the percentage of the CMRS provider's traffic terminated to the Company that is intraMTA and interMTA traffic. The report will also detail what percentage of the interMTA traffic is interstate and what percentage is intrastate. Such reports shall be based on studies of actual traffic originated by the CMRS provider and terminated by the Company.

Access Service Tariff**SECTION 8 – Wireless Termination Service****8.1 Wireless Termination Service (cont'd)**

8.1.6 Reports regarding the percentages of intraMTA or interMTA traffic, and the intrastate/interstate jurisdiction, shall be based on a reasonable traffic study conducted by the CMRS providers and available to the Company upon request. Said studies should be conducted no less than once each quarter to ensure the jurisdictional factors are accurate. The CMRS provider shall pay the Company for all charges in accordance with the rates set forth in Section 8.1.8 of this tariff. Such payments are to be received within twenty (20) days from the effective billing date of the invoice. The CMRS provider shall pay a late fee for any payment not received by the due date in accordance with this Tariff. The late fee shall be the lesser of 1.5% per month or the maximum allowed by law, whichever is less. The CMRS provider shall pay the Company the reasonable amount of the Company's expenses related to the collection of overdue bills including reasonable attorney fees, collection fees and court costs.

The CMRS provider will be responsible for the accuracy and quality of its data as submitted to the Company. Upon reasonable written notice, the Company or its authorized representative shall have the right to conduct a review and verification of the CMRS provider's records and procedures to ensure compliance and accuracy of the reports. This includes on-site verification reviews at the CMRS provider's or vendor's location. The review may consist of an examination and verification of data involving records, systems, procedures and other information and practices related to the traffic originated by the CMRS provider and terminated to the Company. The CMRS provider will provide the Company with reasonable access to such information as is necessary to determine amounts payable under this Tariff.

8.1.7 If the CMRS provider fails to comply with any of the terms and conditions of the Tariff, including remittance of timely payments, the Company may on five (5) day's written notice, refuse additional applications for service and/or refuse to complete any pending orders for service, and/or discontinue the provision of the services (i.e. termination of CMRS provider's calls) by the non-complying CMRS provider at any time thereafter. In the case of such discontinuance, all applicable charges under this Tariff shall become due. If the Company is unable to effectuate discontinuance of service at its own office it may request the assistance of other LEC's with whom the Company's network is connected.

Access Service Tariff**SECTION 9 - SPECIAL ARRANGEMENTS****9.1 Individual Case Basis (ICB) Arrangements**

Arrangements will be developed on an Individual Case Basis (ICB) in response to a bona fide special request from a Customer or prospective Customer to develop a competitive bid for a service, or to establish rates for services for which the Company has not yet established generically tariffed rates. ICB rates will be offered to the Customer in writing and on a non-discriminatory basis.

The Company reserves the right to rate and bill all usage sensitive rate elements at the same rate billed by other companies should rates exceed the rates published in this tariff.

9.2 Contracts

The Company may provide any of the services offered under this tariff, or combinations of services, to Customers on a contractual basis. The terms and conditions of each contract offering are subject to the agreement of both the Customer and Company. Such contract offerings will be made available to similarly situated Customers in substantially similar circumstances. Rates in other sections of this tariff do not apply to Customers who agree to contract arrangements, with respect to services within the scope of the contract.

Services provided under contract are not eligible for any promotional offerings, which may be offered by the Company from time to time.
