2.5 Responsibilities of the Customer

- 2.5.1 The customer is responsible for taking all necessary legal steps for interconnecting the customer-provided terminal equipment or communications systems with the Company's services. If the Federal Communications Commission or some other appropriate certifying body certifies terminal equipment as being technically acceptable for direct electrical connection with interstate communications service, Company will permit such equipment to be connected with its channels without the use of protective interface devices.
- 2.5.3 If the customer fails to maintain the equipment and/or system properly, with resulting imminent harm to the Company's underlying carrier's equipment, personnel or the quality of service to other customers, Company may, upon written notice, require the use of protective equipment at the customer's expense. 2.6 Cancellation for Cause by the Company

2.6.1 The Company may discontinue the furnishing of any and/or all service(s) to a customer, without incurring any liability:

D. After sending the customer written notice of the customer's failure to fulfill a contractual commitment to pay for tariffed services previously furnished to the customer.

2.6.2 The discontinuance of service(s) by the Company pursuant to this Section does not relieve the customer of any obligation to pay for charges due and owing for service(s) furnished up to the time of discontinuance. In the event the Company cancels the customer's service for cause, and the customer is committed to a term or other plan for which charges apply, in the event of customer termination for convenience, the Company will charge, and the customer will be obligated to pay, as though it had terminated service for its own convenience.

- 2.8.1 Without incurring liability, the Company may interrupt the provision of services at any time in order to perform tests and inspections to assure compliance with tariff regulations and the proper installation and operation of Customer equipment and may continue such interruption until any items of noncompliance or improper equipment operation so identified are rectified, in compliance with the Commission Rules. When a Customer(s) service is interrupted and remains out of service for twenty four consecutive hours as a result of the above, or after being reported to the Company by an affected Customer, the Company shall make an appropriate adjustment to the Customer's bill.
- 2.8.2 Credit allowances for interruptions of service which are due to the negligence of the Customer, or the failure of channels, equipment or communication systems provided by the Customer, are subject to the general liability provisions set forth in Section 2.5 herein. It shall be the obligation of the Customer to notify the Company immediately of any interruption of service for which a credit allowance is desired by Customer, unless the Company is aware or should be aware of system outages. Before giving such notice, Customer shall ascertain that the trouble is not within his or her control, or is not in wiring or equipment, if any furnished by Customer.

SECTION 3.0 - DESCRIPTION OF SERVICES OFFERED

3.1 Service Offering

3.1.1 International Telecommunications Service

The Company offers International Telecommunications Service on a per call basis to customers between, among and beyond locations in the United States and the international locations set forth in Section 4.

Service is offered pursuant to the rate schedules set forth in Section 4 of this Tariff. International Service consists of the furnishing of switched message telephone service and is available twenty-four (24) hours per day, seven (7) days per week.

3.2 Billing Increments

Unless otherwise indicated, all calls are billed in billing increments of sixty seconds for the initial period of the call followed by sixty second increments for the remainder of each call. The "Initial" rate is for the first sixty seconds. The "Additional" (Add'l) rate is for each additional 60 seconds.

3.3 Timing of Calls

The customer's international usage charges are based on the actual usage on the Company's service. Usage begins when the called party picks up the receiver. When the called party picks up is determined by hardware answer supervision in which the local telephone company sends a signal to a switch or the software utilizing audio tone detection. When software answer supervision is employed, up to sixty (60) seconds of ringing is allowed before it is billed as usage. Chargeable time ends when either party hangs up, thereby releasing the network connection.

3.4 Credit and Refunds

All requests for call credits due to bad connection, disconnection, wrong number dialed, etc. shall be made through the Company's Customer Service Department in Dallas, Texas by dialing the toll free number, (800) 875-9235 ((800) 520-4001 TTY for people with hearing and/or speech disabilities), or notice must be given and delivered, postage prepaid, to the following address: Matrix Telecom, Inc. d/b/a Excel Telecommunications, P.O. Box 650582, Dallas, TX 75265-0582. SECTION 4.0 - RATES AND CHARGES, (CONT'D.)

4.13 Minimum Usage Fee

Customers of any and all services described in Section 4 will be assessed a Minimum Usage Fee, per account, in each billing cycle in which their qualifying Excel charges do not meet the minimum usage amount for their bill type. The Minimum Usage Fee is the difference between the minimum usage amount (i.e., \$7.50 or \$10.00 based on bill type) and the Customer's qualifying charges in a billing cycle. Customers billed directly by Excel will be assessed a Minimum Usage Fee if their qualifying charges total less than \$10.00 in a billing cycle. Customers billed through their local telephone company will be assessed a Minimum Usage Fee if their qualifying charges total less than \$7.50 in a billing cycle. The Minimum Usage Fee will not apply to Customers of Excel's local exchange services or to customer accounts with no call usage in a given billing cycle when the account is assigned to a rate plan without a monthly fee or to one with only a monthly access fee, a fee which is billed only if the customer has used the service during the billing cycle.

Qualifying charges to be applied toward calculating the monthly usage minimum will be derived only from the following Excel charges: all long distance, calling card, toll free, operator assisted and directory assistance usage charges, Carrier Cost Recovery Fee as well as any monthly access fees or monthly recurring charges associated with the customer's rate plan.
