**TARIFF FORMAT**

- A. Sheet Numbering** – Page numbers appear in the upper right corner of the sheet. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between existing pages with whole numbers, a decimal is added. For example, a new page added between pages 34 and 35 would be page 34.1.
- B. Sheet Revision Numbering** – Revision numbers also appear in the upper right corner of the page. These numbers are used to determine the most current page version on file with the Commission. For example, 4th Revised Page 34 cancels the 3rd Revised Page 34e. Consult the check sheet for the page currently in effect.
- C. Paragraph Numbering Sequent** – There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
  - 2.1.
  - 2.1.1.
  - 2.1.1.A.
  - 2.1.1.A.1.
  - 2.1.1.A.1.(a).
  - 2.1.1.A.1.(a).I.
  - 2.1.1.A.1.(a).I.(i).
  - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheet** – When a tariff is filed with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the tariff pages, with a cross-reference to the current revision number. When new sheets are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this sheet if these are the only changes made. The tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.

**SECTION 2 – RULES AND REGULATIONS (Cont'd)****2.6 Applications for Service (Cont'd)****2.6.2 Affirmative Service Order**

A Carrier Customer may affirmatively request the Company's Switched Access Services either by placing a written request for the Company's service, by sending traffic to and/or accepting traffic from Company End-User Customers and then submitting BNA requests to the Company, or by allowing Company End-User Customers to choose the Carrier Customer as their PIC and, once processed, allowing Company End-User Customers to utilize the Carrier Customer as their primary IXC.

**2.6.3 Constructive Service Order**

Alternatively, a Carrier Customer may constructively order the Company's services if it, without any explicit written request for service from the Company, avails itself of the Company's local exchange network. If a Carrier Customer solicits Company End-User Customers and Company End-User Customers choose to access the Carrier Customers network through the Company's local exchange network, the Carrier Customer has constructively ordered Company's originating and/or terminating switched Access Services.

**2.7 Installation of Service**

All installation is subject to the availability of services and facilities purchased from other Carriers for the provision of service to a Carrier Customer, as well as to the full compliance by the Carrier Customer with all pertinent tariff requirements.

The Carrier Customer shall compensate the Company for any and all traffic exchanged during any on-going negotiations, or until such time as the Carrier Customer cancels its service arrangements in full accordance with the Access Service Termination Procedures set forth herein.

**2.8.1.B. Term of Service**

At the expiration of the initial term specified in each Service Order, or in any extension thereof, service shall continue on a month-to-month basis at the then-tariffed rates for switched access service, unless terminated by either party upon thirty (30) days' written notice to the other party, or in accordance with the timeframes set forth in Sections 2.8.2.A., 2.9.2.A., and 2.9.3.A., whichever is applicable.

**SECTION 2 – RULES AND REGULATIONS (Cont'd)****2.9 Blocking of Access Traffic**

When a Carrier Customer terminates its access arrangements with the Company, it is mandatory that the Carrier Customer ensure that all End-User traffic – both originating and terminating – between the Carrier Customer and the Company is blocked. The Carrier Customer shall have the option of blocking the traffic itself, or arranging for the Company to block the traffic and paying all charges and related costs to compensate the Company for blocking the traffic. Where the Carrier Customer elects to block the access traffic itself, the Carrier Customer will have full responsibility to compensate the Company, at the Company's then-current tariff rates, for any End-User traffic allowed to pass along the discontinued access service route.

Where a Carrier Customer terminates its access arrangements with the Company and the End User is a Shared Customer, the Carrier Customer also must adhere to the following requirements:

**2.9.1 Script Recordings**

The Carrier Customer must record a script to inform the Shared Customer that its interexchange service has been blocked at the request of the Carrier Customer. All recorded scripts must be submitted to the Company for prior approval. The script recording must state the following and there can be no deviation from or additions to this script:

“Your access to [Carrier Customer's] long distance services has been blocked by your long distance provider [Carrier Customer], and not by your local service provider, DSCI Corporation. Because [Carrier Customer] has chosen to block your access to its long distance services, you may no longer dial 1+ to use [Carrier Customer's] long distance service. Instead, you must now either dial an access code to reach a long distance service provider of your choice to handle your long distance calls, or contact another long distance service provider of your choice to handle your long distance calling needs on a 1+ basis. For more information, please contact [Carrier Customer's] customer service representatives at [Carrier Customer's toll-free number].”

In the script recording, the Carrier Customer in no way may slander the Company or use any language intending to incur bad will between the Shared Customer and the Company. The Carrier Customer may not use the script recording to encourage the Shared Customer to terminate its service with the Company. The script recording may not be used by the Carrier Customer as an opportunity to market its services. In the event that it is determined that the Carrier Customer has done so, it shall be subject to the imposition of both actual and punitive damages.

**2.9 Blocking of Access Traffic (Cont'd)**

2.9.2 Notification Requirements

2.9.2.A. Carrier Customer Blocking

Where the Carrier Customer elects to block the access traffic from the Shared Customer itself, it must provide the Company with written notice of such intent at least thirty (30) days prior to the blocking of such traffic.

The following information must be included in any such notice submitted to the Company:

- 2.9.2.A.1. Carrier Customer name and address(es);
- 2.9.2.A.2. Carrier Customer contact name(s) and telephone number(s);
- 2.9.2.A.3. A clear indication of each type of access service that Carrier Customer intends to cancel. In the event that the Company is uncertain as to the type(s) of Access Service requested to be discontinued by the Carrier Customer, the Company shall continue to provide the Access Service, and the Carrier Customer shall continue to pay any resulting charges at the Company's then-tariffed rate for such continued service, until the Carrier Customer clarifies unequivocally and in a manner deemed satisfactory to the Company the precise type(s) of Access Service that it seeks to have discontinued;
- 2.9.2.A.4. A complete listing of all access lines and End-User Customers that will be affected by the service cancellation.

---

**SECTION 2 – RULES AND REGULATIONS (Cont'd)****2.9 Blocking of Access Traffic (Cont'd)****2.9.2. Notification Requirements (Cont'd)****2.9.2.B. Company Blocking**

Where the Carrier Customer chooses to have the Company block access traffic to the Carrier Customer, the Carrier Customer must provide to the Company written notice of such intent at least one hundred-twenty (120) days prior to the blocking of such traffic. In addition to the information provided in Section 2.9.2.A., such notice must also include the following information:

- 2.9.2.B.1. All relevant Billing Name and Address (“BNA”) information;
- 2.9.2.B.2. All relevant Automatic Number Identification (“ANI”) information;
- 2.9.2.B.3. General Call Record Detail;
- 2.9.2.B.4. A statement unequivocally authorizing the Company to prohibit an End-User Customer from selecting the Carrier Customer as their Presubscribed Interexchange Carrier (“PIC”), and absolving both the Company and the End-User Customer from any relating liability to the Carrier Customer.

Additionally, the Carrier Customer must certify to the Company, in writing, that any such blocking is consistent with the Carrier Customer’s tariff, the Communications Act, the rules and policies of the FCC and the Commission, and any relevant contractual obligations that exist between the Carrier Customer and the Shared Customer.

---

**SECTION 2 – RULES AND REGULATIONS (Cont'd)****2.10 Effect on Interstate Interexchange Carrier Presubscription**

Where the Carrier Customer affirmatively has terminated access service arrangements with the Company, and has blocked or arranged for the Company to block the Shared Customer from its interstate interexchange service, the Company will place the Shared Customer in a “NO-PIC” status for all interstate toll dialing until such time as the Shared Customer or a submitting carrier informs the Company of the End-User Customer’s new PIC.

The Carrier Customer will be responsible for any PIC change charge assessed on the End-User Customer by the Company or another Carrier.

**2.11 Payment of Charges**

- 2.11.1. The Carrier Customer is responsible for the payment of all charges for access service furnished to it by the Company.
- 2.11.2. The Carrier Customer terminating its access arrangements with the Company is responsible for compensating the Company for all costs of blocking (where blocking is requested by the Carrier Customer), the PIC change charge, if any, incurred by the Company as a result of the Carrier Customer’s termination of service to that Shared Customer, and all additional costs associated with this process.
- 2.11.3 The Company reserves the right to assess late payment charges for Carrier Customers whose account(s) carries principal owing from the prior billing period. Any charges not paid in full by the due date indicated on the billing statement may be subject to a late fee of 1.5% per month.
- 2.11.4 Recurring monthly charges may be invoiced one month in advance. Invoicing cycles are approximately thirty (30) days in length.
- 2.11.5 Carrier Customers must notify the Company either verbally, in person, or in writing of any disputed charges within thirty (30) days of the billing date, otherwise all charges on the invoice will be deemed accepted. All charges remain due and payable at the due date, although a Carrier Customer is not required to pay disputed charges while the Company conducts its investigation into the matter.

**2.12 Contested Charges**

All bills are presumed accurate, and shall be binding on the Carrier Customer unless objection is received by the Company no more than thirty (30) days after such bills are rendered. In the event that a billing dispute between the Carrier Customer and the Company for service furnished to the Customer cannot be settled with mutual satisfaction, the Carrier Customer may contact the Company in person, by telephone or in writing, and take the following course of action:

2.12.1 First, the Carrier Customer may request, and the Company will provide, an in-depth review of the disputed amount. (The undisputed portion and subsequent bills must be paid on a timely basis or the service may be subject to disconnection.)

**SECTION 3 – DESCRIPTION OF SERVICE****3.1 Timing of Calls**

- 3.1.1 The Carrier Customer's monthly usage charges for the Company's switched access service are based upon the total number of minutes the Carrier Customer uses.
- 3.1.2 Carrier Customer traffic to the Company's end offices will be measured (*i.e.* recorded or assumed) by the Company at end office switches or access tandem switches. Originating and terminating Calls will be measured (*i.e.* recorded or assumed) by the Company to determine the basis for computing chargeable access minutes. In the event that End-User Customer message detail is unavailable because the Company has lost or damaged tapes or experienced recording system outages, the Company will estimate the volume of lost Carrier Customer access minutes of use based upon previously-known values.
- 3.1.3 For originating Calls over Feature Group D ("FGD"), usage measurement/chargeable time begins when the originating FGD switch receives the first wink supervisory signal forwarded from the Customer's point of origination. The measurement of originating Call usage ends when the originating FGD switch receives disconnect supervision from either the originating End-User's end office, indicating the originating End-User has disconnected, or the Carrier Customer's point of termination, whichever is first recognized by the switch.
- 3.1.4 For terminating Calls over FGD, the measurement of access minutes begins when the terminating FGD switch receives answer supervision from the terminating End User's end office, indicating that the terminating End User has answered. For terminating Calls over FGD, the measured minutes are chargeable access minutes. Where assumed minutes are used, the assumed minutes are the chargeable access minutes. The measurement of terminating Call usage over FGD ends when the terminating FGD switch receives disconnect supervision from either the terminating End-User's end office, indicating the terminating End-User has disconnected, or the Customer's point of termination, whichever is recognized first by the switch.
- 3.1.5 For billing purposes, FGD access minutes or fractions thereof (the exact value of the fraction being a function of the switch technology where the measurement is made), are accumulated over the billing period for each end office and then are rounded up to the nearest access minute for each end office and billed in increments of one (1) minute.
- 3.1.6 The Company will not knowingly charge for Incomplete Calls. Upon the Carrier Customer's request and proper verification, the Company shall promptly adjust or credit the Carrier Customer's account for charges or payments for any unanswered Call inadvertently billed due to the unavailability of Feature Group D or due to another carrier's failure to provide answer supervision.

The date on which a Carrier Customer notifies the Company, in writing, of its intention to terminate its access arrangements with the Company, or the date on which the Company notifies the Carrier Customer, in writing, of its intention to terminate access service to the carrier Customer. Such dates must confirm to the effective dates for cancellation of service or notification of the Carrier Customer's intention to block or have the Company's access traffic blocked, as set forth in Sections 2.9.2.A., 2.9.3.A. and 2.8.2.A.

In the event that the Company terminates service *without notice* for the reasons set forth in Section 2.8.2.B., the Service Cancellation Date shall be the date that the Company terminates service with the Carrier Customer

**SECTION 3 – DESCRIPTION OF SERVICE (Cont'd)****3.4 Access Service Offerings**

Where technically and economically feasible, the Company offers Access Services to Carrier Customers pursuant to contractual arrangements. The Customer's total monthly use of the Company's service is charged at the applicable rates, in addition to any monthly service charges.

**3.4.1 Carrier Switched Access Service**

Switched Access Service is available to Carrier Customers for their use in furnishing service to End Users. This service allows for a communications path between a Carrier Customer's tandem service provider of choice and an End-User Customer's premises. Switched Access Service provides the ability to originate Calls from an End-User Customer premises to a Carrier Customer's premises, and to terminate Calls from a Carrier Customer's premises to an End-User Customer's premises. There are several rate categories that apply to Carrier Switched Access Service: Common Carrier Line, Local Switching and Transport.

3.4.1.A Tandem Switching – The Tandem Switching cost category establishes a communications path between two trunks.

3.4.1.B Local Switching – The End Office Switching cost category establishes a communications path with the Company's local switching equipment to end users.

3.4.1.C 800 Database Access - Provides telecommunications carriers access to the Company's 800 service, which is an originating offering that provides a carrier identification function for numbers using toll free service access codes (e.g.,800 or 888-NXX-XXXX). The carrier identification function is performed using queries which are routed using the Company's CCS/SS7 network to the Company's Service Control Point (SCP). 800 service may be provided with Call-Routing Capability, and Carrier-ID-Only Capability and may be provided in conjunction with the telecommunications carrier's Feature Group D (FGD) Switched Access Service.

3.4.1.D. Common Transport – The Common Transport cost category establishes the charges related to the transmission and/or tandem switching facilities between the Carrier Customer designated premises and the end office switch(es) where the Carrier Customer's traffic is switched to originate or terminate the End-User Customer's communications.

**3.4.2 Blocking of Access Traffic Service**

Blocking Service is available to Carrier Customers where the Carrier Customer chooses to have the Company block access traffic to or from the Company's End User Customer.

---

**SECTION 3 – DESCRIPTION OF SERVICE (Cont'd)****3.5 Additional Carrier Customer Service Offerings****3.5.1 Miscellaneous Services****3.5.1.A Access Order Change**

An Access Order Change is a change in the Carrier Customer's service requested subsequent to installation.

**3.5.1.B Carrier Identification Code (CIC Activation)**

Upon request, the Company will activate the Carrier Customer's assigned Carrier Identification Code ("CIC") per end office or tandem switch, as applicable, to enable the use of Feature Group D switched Access Services.

**3.5.1.C Bad Check Charge**

If payment for Service is made by a check, draft, or similar instrument (collectively "Check") that is returned to the Company unpaid by a bank or another financial institution for any reason, the Company may bill the Carrier Customer a returned check charge. In addition, the Customer may be required to replace the returned Check with a payment in cash or equivalent to cash, such as cashier's check, certified check or money order.

**3.5.1.D Late Payment Fee**

A late payment fee of 1.5% will be applied to service charges not paid by the due date of the bill. The late payment fee will not be applied to previous late payment charges that have been assessed but remain unpaid, but will apply to the accumulated amount for which the Carrier Customer is in arrears. This late fee may be assessed only once per bill for services rendered.
