The cancellation date is the date the Telephone Company receives written or verbal notice from the customer that the order is to be cancelled. The verbal notice must be followed by written confirmation within 10 days.

Applicable charges are based on the amount of provisioning completed by the Telephone Company at the time the order is cancelled. The estimated costs incurred are determined based on the following:

- (1) Certain Telephone Company critical dates are associated with an Access Order provisioning interval, whether Standard or Negotiated. These dates are used by the Telephone Company to monitor the progress of the provisioning process. At any point in the Access Order interval, the Telephone Company is able to determine which critical date was the last date passed and can thus determine what percentage or portion of the Telephone Company's provisioning costs have been incurred as of that critical date.
- (2) The critical dates tracked by the Telephone Company are as follows:
 - Application Date (APP): The date the customer provides a firm commitment and sufficient information as detailed in 5.1 preceding to the Telephone Company. This is also the order date.
 - Records Issue Date (RID): The date when all circuit IDs are created and validated, the Outside Plant and Inter-Office Facilities are checked, designed and reserved and the assignment information is ready to be sent to the central office and installation forces. (C)
(C)
 - Scheduled Issue Date (SID): The date that the order is to be entered in the Telephone Company's order distribution system.
 - Design Layout Report Date (DLRD): The date the Design Layout Report (DLR) is to be forwarded to the customer.
 - Confirming Design Layout Report Date (CDLRD): The date the Design Layout Report (DLR) is to be confirmed by the customer.

- Wired and Office Tested Date (WOT): The date by which all intraoffice wiring is to be completed, all plug-ins optioned, aligned, and frame continuity established, and the interoffice facilities, if applicable, tested. In addition, switching equipment, including translation loading, is to be installed and tested.
 - Plant Test Date (PTD): The date on which overall testing of the service is to be started.
 - Service Date (DD): The date on which service is to be made available to the customer. This is sometimes referred to as the Due Date.
- (3) The percentage or portion of the total provisioning costs incurred by the Telephone Company at a particular critical date varies by the type of service as shown in (4) following.

(4) (Cont'd)

For services specified in (a) through (c) following, when a customer cancels an Access Order, or part of an Access Order, before the WOT date, the Telephone Company will apply cancellation charges to the order by multiplying all the nonrecurring charges associated with the order, or that part of the order being cancelled, by the percentage shown following for the critical date last passed on the order. (T)

When the cancellation occurs on or after the WOT date and before the service date, the Telephone Company will apply cancellation charges to the order by multiplying the sum of the minimum monthly charge for the minimum period and all the nonrecurring charges associated with the order, or that part of the order being cancelled, by the percentage shown following for the critical date last passed on the order.

For services specified in (d), (e), (f), and (i) following for which actual cancellation charges are provided (i.e., charges in lieu of cancellation percentages), the cancellation charge shown for the critical date last passed on the order will apply when a customer cancels an Access Order, or part of an Access Order, at any time prior to accepting service.
