**APPLICATION**

(M)

This tariff applies to interstate service supplied to Customers for origination, transport, and termination of Interexchange Communications traffic that is transported in whole, or in part, using the public switched telephone network ("PSTN").

(T)  
(T)

This tariff applies only to the extent that facilities are available and services provided hereunder are used by a Customer for the purpose of originating, transporting, or terminating interstate (including international) communications.

If any provision in this tariff is held to be unlawful, void, unenforceable or, otherwise invalid, such invalidity will affect only the specific provision that is found to be invalid and shall affect such provision only to the extent of the invalidity. In all other respects, this tariff shall remain in full force and effect and be enforceable as if such invalid provision (to the extent of such invalidity) had not been a part hereof.

## SECTION 1 - DEFINITIONS

Certain terms used generally throughout this tariff are described below.

### Advance Payment

Part or all of a payment required before the start of service

### Access Services

Services provided by the Company, or jointly by the Company and one or more other carriers, that enable Interexchange Service Providers with Exchange Access. (T)

### Busy Hour Minutes of Capacity (BHMC)

The term "Busy Hour Minutes of Capacity (BHMC)" denotes the Customer specified maximum amount of Switched Access Service and/or Directory Assistance Service access minutes the Customer expects to be handled in an end office switch during any hour in an 8:00 a.m. to 11:00 p.m. period for the Feature Group and/or Directory Assistance Service ordered. This Customer specified BHMC quantity is the input data the Company uses to determine the number of transmission paths for the Feature Group and/or Directory Assistance Service ordered.

### Central Office Code

The second three digits (NXX) of a ten-digit telephone number in the form NXX-NXX-XXX, where N represents any one of the numbers 2 through 9 and X represents any one of the numbers 0 through 9.

### Common Channel Signaling

The term "Common Channel Signaling" (CCS) denotes a high speed packet switched communications network that is separate (out of band) from the public packet switched and message networks. Its purpose is to carry addressed signaling messages for individual trunk circuits and/or database related services between Signaling Points in the CCS network.

### Company or TELSCAPE COMMUNICATIONS, Inc.

The issuer of this tariff. (T)

---

Issued: December 28, 2011

Effective: December 29, 2011

Issued By:

Issued under transmittal No. 10  
Diana Aguirre  
Regulatory Administrator  
Telscape Communications, Inc.  
355 South Grand Avenue, Suite 3100  
Los Angeles, Ca. 90071-1550

**SECTION 1 – DEFINITIONS, Continued**

Customer

Any Interexchange Service Provider that, through interconnection with the PSTN, knowingly or unknowingly, utilizes, on a prearranged or non-prearranged (casual use) basis, the Company’s Network, in whole or in part, to originate, transport, or terminate Interexchange Communications traffic directly or indirectly to or from End Users. (T)

End Office

The End Office is, in the case of communications originated by the End User, the first point of switching, and, in the case of communications terminated to the End User, the last point of switching. (T)

End User

Any individual, corporation, partnership, association, or other person or entity, including an entity that is affiliated with the Company as well as an unaffiliated entity, that is a customer of an interstate or foreign telecommunications service and is not, itself a carrier, except that a carrier shall be deemed an End User when using telecommunications service for administrative purposes. In addition, a customer of an interconnected or non-interconnected VoIP service shall be deemed an End User with respect to telecommunications that are completed using the PSTN. End Users include, without limitation, enhanced service providers, information service providers, chat line and conference calling providers, call centers, gateway providers, and users of business or residence telephone services, who send or receive telecommunications in whole or in part, directly or indirectly, over the Company’s Network, irrespective of whether such persons or entities are subscribers to the Company’s services. (T)

Exchange

The term “Exchange” denotes a unit generally smaller than a Local Access and Transport Area (LATA) and refers to an exchange area established by an incumbent Exchange Telephone Company (commonly referred to as an incumbent local exchange carrier or “ILEC”) or a state regulatory authority. (T)

Exchange Telephone Company

A company providing service for the transmission of telecommunications between End Users in the Exchange (“Exchange Service”) or to enable access to End Users within an exchange for the completion of Interexchange Communications (“Exchange Access”). (T)

Issued: December 28, 2011

Effective: December 29, 2011

Issued By:

Issued under transmittal No. 10  
Diana Aguirre  
Regulatory Administrator  
Telscape Communications, Inc.  
355 South Grand Avenue, Suite 3100  
Los Angeles, Ca. 90071-1550

**SECTION 1 – DEFINITIONS, Continued**

Interexchange Communications

Communications between end points located in different Exchange areas, including, without limitation, Toll VoIP, as determined by the locations of the Rate Centers associated with the called and calling parties' respective telephone numbers. Interexchange Communications also includes all toll-free (8XX) traffic, irrespective of the locations of the calling and called parties. For the purposes of this tariff, Interexchange Communications does not include calls, other than 8XX calls, between End Users of commercial mobile radio services ("CMRS") and other End Users when, at the time the call begins, the called and calling parties are both in the same major trading area.

(C)  
|  
(C)

Interexchange Service Provider

Any person that: (i) using, in whole or in part, its own facilities (including facilities that are obtained by such person on a leased or other wholesale basis from other parties), provides, on a common carrier or private basis, transmission of Interexchange communications; or (ii) provides prepaid calling card services; provided, that, for the purposes of this tariff, Interexchange Service Provider does not include any such person acting solely in the capacity of a provider of Exchange Access service through use or resale of carrier switched access service obtained pursuant to tariff or contract from an exchange carrier with whom the Company is jointly providing such switched access service on a meet-point billed basis (in such case, such person shall be deemed a Customer of, and shall be responsible for paying Company's charges for, such jointly provided switched access services).

(T)  
|  
(T)

LATA

A Local Access and Transport Area established pursuant to the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0192; or any other geographic area designated as a LATA in the NATIONAL EXCHANGE CARRIER ASSOCIATION, Inc. Tariff F.C.C. No. 4.

**SECTION 1 – DEFINITIONS, Continued**

National Exchange Carrier Association Tariff

National Exchange Carrier Association, FCC Tariff No. 4, which is effective and on file with the Federal Communications Commission.

(D)  
|  
(D)  
(T)  
|  
(T)

Network

Refers to the Company's facilities, equipment, and services that are used by the Company in providing telecommunications services to its customers, including, without limitation, facilities, equipment, and services for such use that are obtained by the Company on a leased or other wholesale basis from other carriers.

Service Commencement Date

The first date on which the Company notifies the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service, which does not conform to standards set forth in the Service Order or this tariff, in which case the Service Commencement Date is the date of the Customer's acceptance. The Company and the Customer may mutually agree on a substitute Service Commencement Date. If the Company does not have an executed Service Order from a Customer, the Service Commencement Date will be the first date on which the service or facility was used by a Customer.

Rate Center

A geographic location that is identified by a name and vertical and horizontal coordinates designated by an Exchange Telephone Company.

(T)  
|  
(T)

Service Switching Point (SSP)

A Service Switching Point denotes an end office or tandem which, in addition to having SS7 and SP capabilities, is also equipped to query centralized data bases.

Serving Wire Center

The term "Serving Wire Center" denotes the wire center from which the Customer designated premises would normally obtain dial tone.

Issued: December 28, 2011

Effective: December 29, 2011

Issued By:

Issued under transmittal No. 10  
Diana Aguirre  
Regulatory Administrator  
Telscape Communications, Inc.

Los Angeles, Ca. 90071-1550

**SECTION 1 – DEFINITIONS, Continued**

Signaling Point (SP)

The term "Signaling Point" (SP) denotes an SS7 network interface element capable of originating and terminating SS7 trunk signaling messages.

Signaling Point of Interface (SPOI)

The term "Signaling Point of Interface" (SPOI) denotes the Customer designated location where the SS7 signaling information is exchanged between the Telephone Company and the Customer.

Signaling System 7 (SS7)

The term "Signaling System 7" (SS7) denotes the layered protocol used for standardized common channel signaling in the United States and Puerto Rico.

Signal Transfer Point (STP)

The term "Signal Transfer Point" (STP) denotes a packet switch which provides access to the Telephone Company's SS7 network and performs SS7 message signal routing and screening.

Signal Transfer Point (STP) Port

The term "Signal Transfer Point (STP) Port" denotes the point of termination and interconnection to the STP.

Toll Free or 8XX

A term to describe an inbound communications service which permits a call to be completed at a location without charge to the calling party. Access to the service is gained by dialing a ten (10) digit telephone number (e.g. NPA is 800, 888, etc.).

Toll VoIP

Communications traffic that is originated or terminated, or both, in Internet Protocol to End Users who are located in different Exchange areas, as determined by the locations of the Rate Centers associated with the called and calling parties' respective telephone numbers.

(T)

(T)

Wire Center

A building in which one or more central offices, used for the provision of Exchange Services, are located.

## SECTION 2- REGULATIONS

### 2.1 Undertaking of the Company

#### 2.1.1 Scope

The Company undertakes to furnish Access Services in accordance with the terms (T) and conditions set forth in this tariff.

#### 2.1.2 Shortage of Facilities

All service is subject to the availability of suitable facilities. The Company reserves the right to limit the length of communications or to discontinue furnishing services when necessary because of the lack of transmission medium capacity or because of any causes beyond its control.

#### 2.1.3 Terms and Conditions

- A) Service established to Customers through direct access between Customer's facilities and the Company's network is provided on the basis of a minimum period of at least one month, 24-hours per day. For the purpose of computing charges in this tariff, a month is considered to have 30 days.
- B) Customers may be required to enter into written service orders, which shall contain or reference a specific description of the service ordered, the rates to be charged, the duration of the services, and the terms and conditions in this tariff. Customers will also be required to execute any other documents as may be reasonably requested by the Company.

**SECTION 2- REGULATIONS, Continued****2.10 Application of Rates (cont'd)****2.10.4 Territory**

The applicability of particular rates is based on the locations (including any applicable zones) to or from which the Company provides Access Service. Such locations and zones are determined without reference to the physical locations of End Users, but, instead, are determined by reference to the locations of the Rate Centers that are associated, according to the LERG,<sup>1</sup> with the Central Office Codes of the telephone numbers used by or assigned to the involved End Users in connection with the Interexchange Communications for which the Company is providing Access Service. The rates that will be applied by the Company to Access Service provided for a particular location are determined by reference to the incumbent local exchange carrier (“ILEC”) that serves the location (and the zones) as set forth in the National Exchange Carrier Tariff FCC No. 4 (the “NECA Tariff”). As used herein for such purpose:

“AT&T CA” refers to locations served by Pacific Bell Telephone Company in California;

“Verizon CA” refers to locations served by Verizon California, Inc. in California;

“Frontier CA” refers to locations served by Frontier Communications of the Southwest, Inc., and Citizens Telecommunications Company of California, Inc. in California.

“Embarq NV” refers to locations served by Embarq Nevada, Inc. in California (T)

<sup>1</sup> The LERG (Local Exchange Routing Guide) may be obtained from: Telcordia Technologies, Customer Services Division, 60 New England Avenue, Piscataway, NJ.

**SECTION 3 - SERVICE DESCRIPTIONS**

3.1 Access Services

A) Switched Access Service provides a Customer with the ability to utilize the Company's Exchange Access network, alone or in conjunction with services and facilities of other Exchange Access service providers, for the purpose of completing Interexchange Communications. The service provides Interexchange Service Providers transport capability or switching, or both, to enable traffic to be transmitted between a Customer's point of presence (POP) and End Users within an Exchange. Interexchange Communications in both the originating and terminating direction will be completed for all Interexchange Service Providers with whom the Company has direct or indirect interconnection. Switched Access Service for Interexchange Service Providers is provided, when the Company's end office switching facilities are used, as a Feature Group D or similar type trunk side connection. Interexchange calls placed by End Users to toll-free (800, etc.) numbers will be completed, subject to any applicable terms and conditions in Section 3.1.3.(A). Interexchange calls placed by End Users utilizing 500, 700, and 900/976 codes or prefixes will be blocked.

(T)  
|  
(T)

B)

(D)  
|  
(D)

C) Rates and charges for Switched Access Service are set forth in Section 5 following. The application of rates for Switched Access Service is described in Section 3.1.2 following.

---

**SECTION 3 - SERVICE DESCRIPTIONS, Continued**

3.1 Access Services (cont'd)

3.1.2 Standard Rate Categories (cont'd)

C) Local Transport

The Local Transport rate category provides for transmission facilities between the Customer's premises (POP) or collocated interconnection location and the end office switch(es) where the Customer's traffic is switched to originate or terminate its communications.

Charges for Local Transport service are computed in accordance with Section 2.6.6 preceding (Ordering, Rating, and Billing of Access Services Where More Than One Exchange Telephone Company Is Involved) or Section 2.10.3, as applicable. (T)

The following paragraphs describe the Local Transport rate elements.

Local Transport - Common Switched Transport

1) Common Switched Transport

Common Switched Transport provides the transmission from the Serving Wire Center of the Customer's POP to the end office of the end user customer.

Common Switched Transport charges may include, depending on the functionality provided, tandem switching, multiplexing, and transport termination elements, which are applied on a per minute of use basis, and a transport facility element, which is applied on a per mile, per minute basis. (T)
