2. General Regulations (Cont'd)2.3 Limitations of Liability

- 2.3.1 Because the Company has no control of communications content transmitted over its system, and because of the possibility of errors incident to the provision and use of its service, service furnished by the Company is subject to the terms, conditions and limitations herein specified.
- 2.3.2 The Company is not liable to Carrier Customers for interruptions in service except as set forth in Section 2.5 of this tariff.
- 2.3.3 The liability of the Company for errors in billing that result in overpayment by the Carrier Customer shall be limited, unless otherwise ordered by the Commission, to a credit equal to the dollar amount erroneously billed or, in the event that payment has been made and service has been discontinued, to a refund of the amount erroneously billed.
- 2.3.4 Except in instances of gross negligence or willful misconduct, the Company shall not be liable for and the Carrier Customer shall indemnify and hold the Company harmless against any claims for loss or damages involving:
 - (A) Any act or omission of: (i) the Carrier Customer; or (ii) any other entity furnishing service, equipment or facilities for use in conjunction with services or facilities provided by the Company;
 - (B) Interruptions or delays in transmission, or errors or defects in transmission, or failure to transmit when caused by or as a result of acts of God, fire, war, riots, government authorities or causes beyond the Company's control;
 - (C) Any unlawful or unauthorized use of the Company's facilities and services;
 - (D) Libel, slander or infringement of copyright arising directly or indirectly from content transmitted over facilities provided by the Company;
 - (E) Infringement of patents arising from combining apparatus and systems of the User with facilities provided by the Company;
 - (F) Claims arising out of any act or omission of the User in connection with service provided by the Company.

2.4 Responsibilities of the Carrier Customer (Cont'd)2.4.6 Identification and Rating of VoIP-PSTN Traffic(A) Scope

VoIP-PSTN Traffic is defined as traffic exchanged between a Telephone Company end user and the customer in Time Division Multiplexing ("TDM") format that originates and/or terminates in Internet Protocol ("IP") format. This section governs the identification of VoIP-PSTN Traffic that is required to be compensated at interstate access rates, unless the parties have agreed otherwise, by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (November 18, 2011) ("FCC Order"). Specifically this section establishes the method of separating VoIP-PSTN Traffic from the customer's traditional intrastate access traffic, so that VoIP-PSTN Traffic can be billed in accordance with the FCC Order.

- (B) VoIP-PSTN Traffic identified in accordance with this tariff section will be billed at rates equal to the Telephone Company's applicable tariffed interstate switched access rate as specified in Section 4 following.

(C) Calculation and Application of Percent-VoIP-Usage Factors

Telephone Company will determine the number of VoIP-PSTN Traffic minutes of use ("MOU") to which interstate rates will be applied under (B) preceding, by applying an originating Percent VoIP Usage ("PVU") factor to the total intrastate access MOU originated by a Telephone Company end user and delivered to the customer and by applying a terminating PVU factor to the total intrastate access MOU terminated by a customer to the Telephone Company's end user.

2.4 Responsibilities of the Carrier Customer (Cont'd)2.4.6 Identification and Rating of VoIP-PSTN Traffic (Cont'd)(C) Calculation and Application of Percent-VoIP-Usage Factors (Cont'd)

- (1) The customer will calculate and furnish to the Telephone Company an originating PVU factor representing the whole number percentage of the customer's total originating intrastate access MOU that the customer exchanges with the Telephone Company in the state that is received from the Telephone Company and that is terminated in IP format and that would be billed by the Telephone Company as intrastate access MOU.
- (2) The customer will calculate and furnish to the Telephone Company a terminating PVU factor representing the whole number percentage of the customer's total terminating intrastate access MOU that the customer exchanges with the Telephone Company in the state that is sent to the Telephone Company and which originated in IP format and that would be billed by the Telephone Company as intrastate access MOU.
- (3) The customer shall not modify their reported PIU factor to account for VoIP-PSTN traffic.
- (4) Both the customer provided originating PVU and the terminating PVU shall be based on information such as the number of the customer's retail VoIP subscriptions in the state (e.g. as reported on FCC Form 477), traffic studies, actual call detail or other relevant and verifiable information which will be provided to Telephone Company upon request.
- (5) The customer shall retain the call detail, work papers and information used to develop the PVU factors for a minimum of one year.
- (6) If the customer does not furnish the Telephone Company with a PVU factor, the Telephone Company will utilize a PVU equal to zero.

2.4 Responsibilities of the Carrier Customer (Cont'd)2.4.6 Identification and Rating of VoIP-PSTN Traffic (Cont'd)(D) Initial Implementation of PVU Factors

- (1) If the PVU factors cannot be implemented in the Telephone Company's billing systems by December 29, 2011, once the factors can be implemented, the Telephone Company will adjust the customer's bills to reflect the PVU factors prospectively in the next bill period, if the PVU factors are provided by the customer to the Telephone Company prior to April 15, 2012.
- (2) The Telephone Company may choose to provide credits based on the reported PVU factors on a quarterly basis until such time as the billing system modifications can be implemented.

(E) PVU Factor Updates

The customer may update the PVU factors quarterly using the method set forth in (C)(1) and (2) preceding. If the customer chooses to submit such updates, it shall forward to the Telephone Company, no later than 15 days after the first of January, April, July and/or October of each year, revised PVU factors based on data for the prior three months, ending the last day of December, March, June and September, respectively. The revised PVU factors will serve as the basis for future billing and will be effective on the next bill date, and shall serve as the basis for subsequent monthly billing until superseded by new PVU factors. No prorating or backbilling will be done based on the updated PVU factors.

(F) PVU Factor Verification

- (1) Not more than twice in any year, the Telephone Company may request from the customer an overview of the process used to determine the PVU factors, the call detail records, description of the method for determining how the end user originates or terminates calls in IP format, and other information used to determine the customer's PVU factors furnished to the Telephone Company in order to validate the PVU factors supplied. The customer shall comply, and shall reasonably supply the requested data and information within 15 days of the Telephone Company's request.

 - (a) A review of the requested data and information provided by the customer.
 - (b) The Telephone Company's reasonable review of other market information, FCC reports on VoIP lines, such as FCC Form 477 or state level results based on FCC Local Competition Report or other relevant data.
 - (c) A change in the reported PVU factor by more than five percentage points from the preceding quarter.
- (3) If after review of the data and information, the customer and the Telephone Company establishes revised PVU factors, the customer and the Telephone Company will begin using those revised PVU factors with the next bill period.
- (4) If the dispute is unresolved, the Telephone Company may initiate an audit. The Telephone Company shall limit audits of the customer's PVU factor to no more than twice per year. The customer may request that the audit be conducted by an independent auditor. In such cases, the associated auditing expenses will be paid by the customer.
 - (a) In the event that the customer fails to provide adequate records to enable the Telephone Company or an independent auditor to conduct an audit verifying the customer's PVU factors, the Telephone Company will bill the usage for all contested periods using the most recent undisputed PVU factors reported by the customer. These PVU factors will remain in effect until the audit can be completed.

2.5 Allowances for Interruptions in Service

2.5.1 General

- (A) A service is interrupted when it becomes unusable to the User, e.g., the User is unable to transmit or receive communications due to the failure of a component furnished by the Company under this tariff.
- (B) An interruption period begins when the Carrier Customer reports the service to be inoperative and releases it for testing and repair. An interruption period ends when the service is operative.
- (C) If the Carrier Customer reports a service to be inoperative but declines to release it for testing and repair, the service, facility or circuit is considered to be impaired but not interrupted. No credit allowances will be made for a service considered by the Company to be impaired.
- (D) The Company will make every reasonable effort to prevent interruptions of service and shall work to clear 85% of all out-of-service troubles within twenty-four (24) hours of the time the report is received by the Company, unless the Carrier Customer specifically requests a later date.
- (E) The Company's service objective is to maintain service so that the average rate of Carrier Customer trouble reports in a local exchange does not exceed eight (8) reports per one hundred (100) access lines per month.

- (A) At the Customer's request, when a Carrier Customer's access to the Company's network is unavailable and remains unavailable a period of six (6) hours or more, after being found or reported to the Company, the Company shall refund to the Carrier Customer an amount to be determined by the Company on a case-by-case basis, and dependent upon the length of the interruption period. In no event shall such a refund exceed an amount equivalent to the proportionate charge to the Carrier Customer for the period of service during which the event that gave rise to the claim for a credit occurred.
- (B) Any such interruption will be measured from the time it is reported to or detected by the Company, whichever occurs first.
- (C) In the event the Carrier Customer is affected by such interruption for a period of less than six (6) hours, no adjustment will be made. No adjustments will be earned by accumulating non-continuous periods of interruption.

- (4) during any period in which the Company is not given full and free access to the its facilities and equipment for the purpose of investigating and correcting the interruption;
- (5) during any period in which the Carrier Customer continues to use the service on an impaired basis;
- (6) during any period in which the Carrier Customer has released service to the Company for maintenance purposes or for implementation of a Carrier Customer order for a change in service arrangements; and
- (7) that was not reported to the Company within thirty (30) days of the date that service was affected.

2.6 Applications for Service

The Company will accept both affirmative orders and constructive orders for Carrier-Customer access services. The Company does not require a written service order for the initiation of switched access services to Carrier-Customers.

2.6.1 Service Orders

The signing of a Service Order by the Carrier Customer and acceptance by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff, but the duration of the service is calculated from the Service Commencement Date. Should a Carrier Customer use the Company's access service without an executed Service Order, the Company may, at its option, request that the Carrier-Customer submit a Service Order. The Company may accept the Service Order either by submitting Billing Name and Address ("BNA") information to the Carrier Customer at the request of the Carrier Customer or by the Carrier Customer accepting PIC requests by End User-Customers that request the Carrier Customer as their PIC.

ACCESS SERVICE

2. General Regulations (Cont'd)2.6 Applications for Service (Cont'd)2.6.2 Affirmative Service Order

A Carrier-Customer may affirmatively request the Company's switched access services either by placing a written request for the Company's service, by sending traffic to and/or accepting traffic from Company End User-Customers and then submitting BNA requests to the Company, or by allowing Company End User-Customers to choose the Carrier-Customer as their PIC and once processed, allowing Company End User-Customers to utilize the Carrier-Customer as their primary IXC.

2.6.3 Constructive Service Order

Alternatively, a Carrier Customer may constructively order the Company's services if it, without any explicit written request for service from the Company, avails itself of the Company's local exchange network. If a Carrier Customer solicits Company End User-Customers and Company End User-Customers choose to access the Carrier Customer's network through the Company's local exchange network, the Carrier-Customer has constructively ordered Company's originating and/or terminating switched access services.

2.7 Installation of Service

All installation is subject to the availability of services and facilities purchased from other Carriers for the provision of service to a Carrier Customer, as well as to the full compliance by the Carrier Customer with all pertinent tariff requirements.

ACCESS SERVICE

2. General Regulations (Cont'd)2.8 Termination of Access Service2.8.1 Carrier Customer Termination of Service(A) General

The Carrier Customer may terminate access and access-related service with the Company only through adherence to the procedures set forth herein. Requests for termination may not be unreasonably discriminatory and must otherwise comply with requirements of the Communications Act of 1934, as amended, and with all other applicable laws, policies and regulations.

In deference to the unique nature of the relationship between the Company and the Carrier Customer, and in acknowledgement of the legitimate interests that the Company has with respect to Shared Customers, strict adherence by the Carrier Customer to the Access Service Termination Procedures contained herein is mandatory. Failure on the part of the Carrier Customer to follow these procedures, or deviation from such procedures, may be construed by the Company, at its sole option, as part of on-going negotiations between the Company and the Carrier Customer, and not as a final position by the Carrier Customer. The Carrier Customer shall compensate the Company for any and all traffic exchanged during any on-going negotiations, or until such time as the Carrier Customer cancels its service arrangements in full accordance with the Access Service Termination procedures set forth herein.

(B) Term of Service

At the expiration of the initial term specified in each Service Order, or in any extension thereof, service shall continue on a month-to-month basis at the then-tariffed rates for switched access service, unless terminated by either party upon thirty (30) business days' written notice to the other party, or in accordance with the timeframe set forth in Section 2.8.2(A), whichever is applicable.

Service will continue to be provided to the Carrier Customer until terminated by the Carrier Customer or the Company in accordance with this Section.

2. General Regulations (Cont'd)2.8 Termination of Access Service (Cont'd)2.8.1 Carrier Customer Termination of Service(C) Access Service Termination Procedures

In order to comply with the Company's Access Service Termination Procedures, the Carrier Customer must fulfill certain obligations, including, but not limited to the following:

- (1) The Carrier Customer must notify the Company of its intention to cancel access service arrangements with the Company in accordance with Section 3.3 following, and in such format and including such information as determined and required by the Company. Any such termination notice provided by the Carrier Customer must be stated in reasonably explicit and unequivocal terms. No request for termination will be accepted by the Company where the termination notice is equivocal or where the Carrier Customer acts in a manner inconsistent with the termination notice. Such acts include, but are not limited to, the following:
 - (a) Continued acceptance by the Carrier Customer of the Company's switched access traffic;
 - (b) Entering into new negotiations with the Company;
 - (c) Failure to specify the exact service to be cancelled;
 - (d) Failure to initiate talks with the Company regarding the manner in which to notify Shared Customers of the Carrier Customer's termination of service with the Company.

The Company is not responsible for notifying Shared Customers of the Carrier Customer's cancellation of the Company's access services; notifying the Shared Customers is the solely the responsibility of the Carrier Customer. The Carrier Customer must provide to the Company, for the Company's prior approval, the language and format which it proposes to use to notify the Shared Customers of its intent to cancel access service arrangements with the Company. Such notice must contain the following information:

- (1) The Carrier Customer must specifically state that, due to the Carrier Customer's termination of its access arrangements with the Company, the Shared Customer will not be able to maintain its existing service arrangements with both the Company and the Carrier Customer;
- (2) The Carrier Customer must specifically state that, due to the Carrier Customer's termination of its access arrangements with the Company, the Shared Customer will be placed in a "NO-PIC" status for all interLATA toll dialing until such time as the Shared Customer or a submitting carrier informs the Company of the Shared Customer's new interLATA PIC. The Carrier Customer also must state that it will be responsible for any PIC change charge assessed on the End User Customer by the Company or another Carrier as a result of the Carrier Customer's blocking of the Shared Customer's traffic;

2. General Regulations (Cont'd)2.9 Effect on Interstate Interexchange Carrier Presubscription

Where the Carrier Customer affirmatively has terminated its access service arrangements with the Company, and has blocked or arranged for the Company to block the Shared Customer from its interstate interexchange service, the Company will place the Shared Customer in a "NO-PIC" status for all interstate toll dialing until such time as the Shared Customer or a submitting carrier informs the Company of the End User Customer's new PIC.

The Carrier Customer will be responsible for any PIC change charge assessed on the End User Customer by the Company or another Carrier.

2.10 Payment of Charges

2.10.1 The Carrier Customer is responsible for the payment of all charges for access service furnished to it by the Company.

2.10.2 The Carrier Customer terminating its access arrangements with the Company is responsible for compensating the Company for all costs of blocking (where blocking is requested by the Carrier Customer), the PIC change charge, if any, incurred by the Company as a result of the Carrier Customer's termination of service to that Shared Customer, and any all additional costs associated with this process.

2.10.3 The Company reserves the right to assess late payment charges for Carrier Customers whose account(s) carries principal owing from the prior billing period. Any charges not paid in full by the due date indicated on the billing statement may be subject to a late fee of 1.5% per month.

2.10.4 Recurring monthly charges may be invoiced one month in advance. Invoicing cycles are approximately thirty (30) days in length.

2.10.5 Carrier Customers must notify the Company either verbally, in person, or in writing of any disputed charges within thirty (30) days of the billing date, otherwise all charges on the invoice will be deemed accepted. All charges remain due and payable at the due date, although a Carrier Customer is not required to pay disputed charges while the Company conducts its investigation into the matter.

2.11 Contested Charges

All bills are presumed accurate, and shall be binding on the Carrier Customer unless objection is received by the Company no more than thirty (30) days after such bills are rendered. In the event that a billing dispute between the Carrier Customer and the Company for service furnished to the Customer cannot be settled with mutual satisfaction, the Carrier Customer may contact the Company in person, by telephone or in writing, and take the following course of action:

2.11.1 First, the Carrier Customer may request, and the Company will provide, an in-depth review of the disputed amount. (The undisputed portion and subsequent bills must be paid on a timely basis or the service may be subject to disconnection.)

2.11.2 Second, if there is still a disagreement about the disputed amount after investigation and review by the Company, the Carrier Customer may file an appropriate complaint with the Federal Communications Commission. The address of the Commission is:

Federal Communications Commission
445 12th Street, S.W.
Washington, D.C. 20554
Toll-Free 1-888-CALL-FCC

2.12 Taxes

State and local sales, use and similar taxes are billed as separate items and are not included in the quoted rates for service.

2.13 Definitions

Toll VoIP-PSTN Traffic

The term "Toll VoIP-PSTN Traffic" denotes a customer's interexchange voice traffic exchanged with the Telephone Company in Time Division Multiplexing format over PSTN facilities, which originates and/or terminates in Internet Protocol (IP) format. "Toll VoIP-PSTN Traffic" originates and/or terminates in IP format when it originates from and/or terminates to an end user customer of a service that requires IP-compatible customer premises equipment.

ACCESS SERVICE

3. Description of Service3.1 Timing of Calls

- 3.1.1 The Carrier Customer's monthly usage charges for the Company's switched access service are based upon the total number of minutes the Carrier Customer uses.
- 3.1.2 Carrier Customer traffic to the Company's end offices will be measured (i.e. recorded or assumed) by the Company at end office switches or access tandem switches. Originating and terminating Calls will be measured (i.e. recorded or assumed) by the Company to determine the basis for computing chargeable access minutes. In the event that End User Customer message detail is unavailable because the Company has lost or damaged tapes or experienced recording system outages, the Company will estimate the volume of lost Carrier Customer access minutes of use based upon previously-known values.
- 3.1.3 For originating Calls over Feature Group D ("FGD"), usage measurement/chargeable time begins when the originating FGD switch receives the first wink supervisory signal forwarded from the Customer's point of origination. The measurement of originating Call usage ends when the originating FGD switch receives disconnect supervision from either the originating End User's end office, indicating the originating End User has disconnected, or the Carrier Customer's point of termination, whichever is first recognized by the switch.
- 3.1.4 For terminating Calls over FGD, the measurement of access minutes begins when the terminating FGD switch receives answer supervision from the terminating End User's end office, indicating that the terminating End User has answered. For terminating Calls over FGD, the measured minutes are chargeable access minutes. Where assumed minutes are used, the assumed minutes are the chargeable access minutes. The measurement of terminating Call usage over FGD ends when the terminating FGD switch receives disconnect supervision from either the terminating End User's end office, indicating the terminating End User has disconnected, or the Customer's point of termination, whichever is recognized first by the switch.
- 3.1.5 For billing purposes, FGD access minutes or fractions thereof (the exact value of the fraction being a function of the switch technology where the measurement is made), are accumulated over the billing period for each end office and then are rounded up to the nearest access minute for each end office and billed in increments of one (1) minute.

3.2 Service Commencement Date

The Service Commencement Date is the date on which a Carrier Customer first sends or receives traffic from the Company's End User Customer or the date specified on the Service Order, whichever occurs first and whichever is applicable.

3.3 Service Cancellation Date

The Service Cancellation Date is the date on which a Carrier Customer notifies the Company, in writing, of its intention to terminate its access arrangements with the Company, or the date on which the Company notifies the Carrier Customer, in writing, of its intention to terminate access service to the Carrier Customer.

In the event that the Company terminates service without notice for the reasons set forth in Section 2.8.2(B), the Service Cancellation Date shall be the date that the Company terminates service with the Carrier Customer.

ACCESS SERVICE

3. Description of Service (Cont'd)3.4 Access Service Offerings

Where technically and economically feasible, the Company offers local exchange telecommunications services to business Customers pursuant to contractual arrangements. The Customer's total monthly use of the Company's service is charged at the applicable rates, in addition to any monthly service charges.

3.4.1 Carrier Switched Access Service

Switched Access Service is available to Carrier Customers for their use in furnishing service to End Users. This service allows for a communications path between a Carrier Customer's premises and an End-User Customer. Switched Access Service provides the ability to originate Calls from an End-User Customer to a Carrier Customer's premises, and to terminate Calls from a Carrier Customer's premises to an End-User Customer. There are several rate categories that apply to Carrier Switched Access Service: Carrier Switched Access Originating or Terminating and Toll-Free Database Query.

(A) Carrier Switched Access Originating or Terminating

Carrier Switched Access Originating provides the Carrier Customer with a communications path between a Carrier Customer's premises and an End-User Customer where a Call is originated from the End User Customer or terminated from another Calling Party. The Company provides originating and terminating switched access service based on aggregate traffic volumes from the following cost categories:

- (1) Carrier Common Line Originating - The Common Line cost category establishes the charges related to the use of Company-provided end user common lines by customers and end users for interstate access.
- (2) Local Switching – Originating or Terminating – The Local Switching cost category establishes the charges related to the use of end office switching equipment, the terminations in the end office of end user lines, the termination of calls at Company Intercept Operators or recording, the Signaling Transfer Point (STP) costs, and the SS7 signaling function between the end office and the STP.

- (3) Common Trunk Port - Originating or Terminating – The Common Trunk Port service provides for termination of Common Transport trunk facilities. The charge applies per MOU per trunk termination.
- (4) Tandem Switching – Originating or Terminating – A per access minute of use rate applies for the switching functions provided when the call passes between two other carriers.
- (5) Tandem Facility – Originating or Terminating – The Tandem Facility rate is applied per access minute per airline mile.
- (6) Tandem Termination – Terminating – The Tandem Termination rate applies per access minute for each termination.
- (7) Toll-Free Database Query - The Toll-Free Database Query charge applies to each Toll-Free 8XX Call originated by an End User Customer. The Company will perform Customer identification based on screening the ten (10) digits of the 8XX number to determine the location to which the Call is routed
- (8) Multiplexing – Multiplexing provides the capability of channelizing Switched Transport facilities to individual services that require a lower capacity or bandwidth.
