

**Cincinnati Bell Telephone LLC**

**Tariff FCC No. 35**

**Transmittal No. 864**

**DESCRIPTION & JUSTIFICATION**

With this filing CBT proposes to revise its tariff language in Section 6 – Switched Access Service to clarify billing to Mobile Telephone Switching Offices (MTSOs).

CBT proposes to make revisions in Section 6.2 - Provision and Description of Switched Access Service Feature Groups and Section 6.7.13 Mileage Measurement to clarify the tariff language concerning the billing of Switched Transport mileage to MTSOs. Specifically, CBT proposes changes to Sections 6.2.2 (A) (7) – Feature Group B and Section 6.2.4 (A) (9) – Feature Group D to detail the applicable rate elements when the wireless carrier supplies the connection from the access tandem to the MTSO, and when the Telephone Company supplies the connection from the access tandem to the MTSO. CBT also proposes changes to section 6.7.13 (G) – Mileage Measurement to clarify the sources of V & H coordinate data.

This filing does not contain any specific rate changes but does clarify the application of rate elements to avoid any disputes on proper application in the future.
