ACCESS SERVICE

DEFINITIONS

Access

The ability to enter or exit a local exchange network in order to complete an interstate communication.

Access Charge

Charges assessed to the Customer through which the provider of the switch or facilities is compensated for use of the network components.

Access Service Request

The order placed with a Local Access Provider (Company) for Access.

Advance Payment

Part or all of a payment required before the start of service.

Carrier Common Line Charge

A charge to recover the non-traffic sensitive portion of the local loop, drop and associated equipment between the end office switch and the end user Customer.

Company

Navigator Telecommunications, LLC, the issuer of this tariff, a competitive local exchange carrier.

Conditioning

Action taken or equipment provided to ensure appropriate transmission characteristics for specific circuits.

Customer

The person, firm or corporation which orders service and is responsible for the payment of charges and compliance with the Company's regulations.

Customer Designated Premises

Premises designed by the Customer for the provision of access service.

Customer Serving Wire Center

The end office or wire center from which a Customer normally receives a dial tone. The point for a circuit's first point of trunking or switching.

Dedicated Facility

A facility, circuit or equipment system or subsystem set aside for the sole use of a specific Customer.

Digital Subscriber Line (DSL)

An access technology that allows simultaneous voice and high speed data to be sent over local exchange service copper facilities.

Issued: June 19, 2001

Louis F. McAlister, President
8525 Riverwood Park Dr.
North Little Rock, AR 72113-0860

Effective: June 20, 2001

ACCESS SERVICE

DEFINITIONS (Cont'd)

Dial Tone Office

The local switching center where dial tone is provided for service.

Duplex Service

Service which provides for simultaneous transmission in both directions.

End User

Users of local telecommunications carrier's services who are not carriers.

Equal Access

The service which provides trunk connection to switched network services that is equal in type, quality and price to the same service provided to AT&T.

Exchange

The geographic area established by the Company and approved by the regulatory commission for the provision of local telecommunications services.

Fiber Optic Line

A thin filament of glass with a protective outer coating through which a light beam carrying communications signals may be transmitted by means of multiple internal reflections to a receiver which translates the message.

Individual Case Basis

Pricing arrangement based on unique Customer request.

Interexchange Carrier

A carrier engaged in the provision of intrastate, interstate or international telecommunications services.

Kbps

Kilobits, denotes one thousand bits per second.

Local Access and Transport Area

Geographic areas established for defining the territory within which a Bell Operating Company may offer its exchange telecommunications and exchange access services. Other communications entities may be associated with a BOC LATA or Independent Exchange Carriers' Market Service Area.

Mbps

Megabits, denotes millions of bits per second.

Market Service Area

The geographic area established by an Independent Exchange Carrier not associated with a Bell Operating Company LATA within which they may offer exchange or exchange access telecommunications service.

Issued: June 19, 2001

Louis F. McAlister, President
8525 Riverwood Park Dr.
North Little Rock, AR 72113-0860

Effective: June 20, 2001

ACCESS SERVICE

DEFINITIONS (Cont'd)

Meet Point

A point designated by two Exchange Carriers for billing purposes.

Mixed Use

The use of Switched Access and Special Access services over the same wideband and high capacity facilities through a common interface.

Multiplexing

The process of combining multiple parallel circuits into a single communications channel.

Network

The Company's fiber optics based facilities and/or purchased facilities as part of an interconnection agreement.

Non-recurring Charge

A one-time charge, generally applied to activities associated with the establishment of service, construction, rearrangements, and/or optional features and functions.

Optional Features and Functions

These are features and functions a Customer may order to improve the quality or utility of Access Services.

Packet Data Network

A high-speed digital data transport mechanism that moves variable length packets or frames through the network to the same or different addresses.

Pay Telephone

The term denotes a coin or coinless instrument provided in a public or semipublic place where Payphone Service Provider Customers can originate telephonic communications and pay the applicable charges by (1) inserting coins into the equipment, or (2) using a credit card, or (3) third party billing the call, or (4) calling collect.

Payphone Service Provider

The term denotes an entity that provides pay telephone service, which is the provision of public, semi public or inmate pay telephone service.

Premises

Space occupied by a Customer or authorized user in a building or buildings or contiguous property (except railroad rights-of-way) not separated by a highway.

Presubscription

A process that allows an End User served by an equal access office to select in advance an interexchange carrier automatically for toll communication.

Point of Termination

A physical point within a LATA or Market Service Area at which the Company's responsibility for access service ends.

Issued: June 19, 2001

Louis F. McAlister, President
8525 Riverwood Park Dr.
North Little Rock, AR 72113-0860

Effective: June 20, 2001

ACCESS SERVICE

DEFINITIONS (Cont'd)Recurring Charges

Monthly charges to the Customer for services, facilities and equipment which continue for the agreed-upon duration of the service.

Service Order

A written request for Access Services initiated by the Customer to the Company in the format devised by the Company. It is sometimes referred to as an Access Service request (ASR). The signing of a Service Order by the Customer and acceptance by the Company initiates the respective obligations of the parties set forth herein pursuant to this tariff, but the duration of service is calculated from the Service Commencement Date.

Service Commencement Date

The first day following the date on which the Company notifies the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service which does not conform to standards set forth in the Service Order or this tariff. In the latter case, the Service Commencement Date is the date of the Customer's acceptance. The parties may mutually agree on a substitute Service Commencement Date.

Special Access Service

Generally dedicated (private line) facilities between two or more Customer Designated Premises.

Switched Access Service

Access to the Company's local switch network by an interexchange carrier for the purposes of originating and/or terminating jurisdictional communications.

Transport Interconnection Charge

A per-access minute charge applicable to transport per FCC CC Docket No. 91-213, Report and Order, March 5, 1998.

Wire Center

A building in which the Company's switching center is located for the purpose of providing service.

ACCESS SERVICE

1. APPLICATION OF TARIFF

- 1.1 This tariff sets forth the regulations, rates and charges for the provision of interstate access service (hereinafter Services) within states of operation provided over the facilities of Navigator Telecommunications, LLC.
- 1.2 Services provided to Customers of Navigator Telecommunications, LLC, (hereinafter the "Company,") include, but are not limited to Common Line, Switched Access, Optional Features & Functions and other Miscellaneous Access Services associated with the provision of Access Services.
- 1.3 Services provided to Customers of the Company will be provided subject to availability of equipment and facilities. In the event the requested service or services cannot be provisioned, the Company will so advise the Customer in writing.

Issued: June 19, 2001

Louis F. McAlister, President
8525 Riverwood Park Dr.
North Little Rock, AR 72113-0860

Effective: June 20, 2001

ACCESS SERVICE

2. GENERAL REGULATIONS

2.1 Undertaking of the Company

2.1.1 Scope

The Company undertakes to provide Service(s) and the furnishing of interstate transmission of information.

2.1.2 Terms and Conditions

2.1.2.1 Services are provided 24 hours daily, seven days per week except as set forth in other applicable sections of this tariff. Service is provided on the basis of a minimum period of one month. For purposes of computing charges in this tariff, a month is considered to have 30 days.

2.1.2.2 Customers are required to enter written service orders (ASR) with specific descriptions of service(s) ordered as more specifically covered in the Access Ordering (Section 3) of this tariff.

2.1.2.3 The Company does not undertake to transmit messages under this tariff or jointly participate in the Customer's communications. The Customer shall be solely responsible for message content.

2.1.2.4 The Company will, for maintenance purposes, test its service to the extent necessary to detect and/or clear troubles.

2.1.2.5 At the expiration of the initial term specified in each service order, or in any extension thereof, service shall continue on a month-to-month basis at the then-current rates unless terminated by either party upon 30 days written notice. Any termination shall not relieve Customer of its obligation to pay any charges incurred under the service order and this tariff prior to termination.

2.1.2.6 Service may be terminated on written notice to the Customer if the Customer is using the service in violation of the tariff or the Customer is using the service in violation of the law.

2.1.2.7 This tariff shall be interpreted and governed by the rules and/or guidelines of the Federal Communications Commission.

Issued: June 19, 2001

Effective: June 20, 2001

Louis F. McAlister, President
8525 Riverwood Park Dr.
North Little Rock, AR 72113-0860

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.1 Undertaking of the Company (Cont'd)

2.1.3 Limitations

2.1.3.1 Assignment or Transfer of Services

The Customer may assign or transfer the use of Service(s) provided under this tariff only where there is no interruption of use or relocation of the Service(s). Such assignment or transfer may be made to:

- (1) Another Customer, whether an individual, partnership, association or corporation provided the assignee or transferee assumes all outstanding indebtedness for such services, and the unexpired portion of the minimum period and any termination liability applicable to such Service(s).

In all cases of assignment or transfer, the written acknowledgment of the Company is required prior to such assignment or transfer. This acknowledgment shall be made within 15 days from the receipt of notification. All regulations and conditions contained in this tariff shall apply to such assignee or transfer.

The assignment or transfer of services does not relieve or discharge the assignor or transferor from remaining jointly or severally liable with the assignee or transferee for any obligations existing at the time of the assignment or transfer.

2.1.3.2 Provisioning Sequence

The services offered herein will be provided to Customers on a first-come, first-served basis. The first-come, first-received sequence shall be based on the received time and date recorded by stamp or other notation by the Company on the Customer's Access Service Request (ASR). ASRs must contain all the required information for each respective service so delineated in other sections of this tariff. The Customer's ASRs will not be deemed to have been received until such information is provided.

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.1 Undertaking of the Company (Cont'd)

2.1.3 Limitations (Cont'd)

2.1.3.3 Ownership of Facilities

The title to all facilities provided in accordance with this tariff remains in the Company, its agents or contractors, or successors and assigns.

2.1.3.4 Liability

- (1) The liability of the Company for damages arising out of the furnishing of its services, including but not limited to mistakes, omissions, interruptions, delays, or errors or other defects, representations, or use of these services or arising out of failure to furnish the service, whether caused by acts or omission, shall be limited to an amount which shall not exceed an amount equal to the proportionate charge for the period during which the Service was affected. The grant of such an amount for interruption shall be the sole remedy of the Customer and the sole liability of the Company. The Company will not be liable for any direct, indirect, incidental special consequential, exemplary or punitive damages to Customer as a result of any Company service or equipment, or facilities, or the acts or omissions or negligence of the Company's employees or agents.
- (2) The Company shall not be liable for any delay or failure of performance or equipment due to causes beyond its control, including but not limited to: acts of God, fire, flood, explosion, or other catastrophes; any law, order, regulation, direction, action, or request of the U. S. Government, or of any department, agency, commission, bureau, corporation, or other instrumentality of any one or more of these federal, state, or local governments, or of any civil or military authority; national emergencies; insurrections, riots, wars; unavailability of rights-of-way or materials; or strikes, lockouts, work stoppages, or other labor difficulties.
- (3) The Company shall not be liable for (a) any act or omission of any entity furnishing to the Company or to the Company's Customers facilities or equipment used for connection to the Company's Services; or (b) for the acts or omissions of common carriers or warehousemen.

2. GENERAL REGULATIONS (Cont'd)

2.1 Undertaking of the Company (Cont'd)

2.1.3 Limitations (Cont'd)

2.1.3.4 Liability (Cont'd)

- (4) The Company shall not be liable for any damages or losses due to the fault or negligence of the Customer due to the failure or malfunction of Customer-provided equipment or facilities.
- (5) The Company does not guarantee nor make any warranty with respect to installations it provides for use in an explosive atmosphere. The Customer indemnifies and holds the Company harmless from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, whether suffered, made, instituted, or asserted by any loss, damage, or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal presence, condition, location, or use of any installation so provided. The Company reserves the right to require each Customer to sign an agreement acknowledging acceptance of the provisions of this section as a condition precedent to such installations.
- (6) The Company is not liable for any defacement of or damage to Customer premises resulting from the furnishing of service(s) or equipment on such premises or the installation or removal thereof, unless such defacement or damage is caused by negligence or willful misconduct of the Company's employees or agents.
- (7) The Company shall be indemnified, defended and held harmless by the Customer against any claim, loss or damage arising from the Customer's use of service(s), involving claims for libel, slander, invasion of privacy, or infringement of copyright arising from the Customer's own communications.
- (8) The entire liability for any claim, loss, damage or expense from any cause whatsoever shall in no event exceed sums actually paid Company by Customer for the specific Service(s) giving rise to the claim. No action or proceeding against the Company shall be commenced more than two years after the Service is rendered.
- (9) The Company makes no warranties or law, statutory representations, express or implied either in fact or by operation of or otherwise, including warranties of merchantability or fitness for a particular use.

2. GENERAL REGULATIONS (Cont'd)

2.1 Undertaking of the Company (Cont'd)

2.1.4 Provision of Equipment and Facilities

- 2.1.4.1 The Company shall use reasonable efforts to make available Service(s) to a Customer on or before a particular date, subject to the provisions of and compliance by the Customer, with the regulations contained in this tariff and subject to the availability of services from other carriers relied upon by the Company for the provision of the Company's Service(s). The Company does not guarantee availability by any such date and shall not be liable for any delays in commencing Service to any Customer.
- 2.1.4.2 The Company shall use reasonable efforts to maintain facilities and equipment that it furnishes to the Customer. The Customer may not, nor may Customer permit others to rearrange, disconnect, remove, attempt to repair, or otherwise interfere with any of the facilities or equipment installed by the Company, except upon written consent of the Company.
- 2.1.4.3 The Company may substitute, change, or rearrange any equipment or facility at any time and from time to time, but shall not thereby alter the technical parameters of the Service provided the Customer.
- 2.1.4.4 Equipment the Company provides or installs at the Customer premises for use in connection with the Service(s) the Company offers shall not be used for any purpose other than that for which the Company provided it.
- 2.1.4.5 The Customer shall be responsible for the payment of Service charges as set forth herein for visits by the Company's employees or agents to the premises of the Customer when the Service difficulty or trouble report results from the use of equipment or facilities provided by any party other than the Company, including but not limited to the Customer.
- 2.1.4.6 The Company shall not be responsible for the installation, operation, or maintenance of any Customer-provided communications equipment. Where such equipment is connected to the facilities furnished pursuant to this tariff, the responsibility of the Company shall be limited to the furnishing of facilities or Service(s) offered under this tariff, and to the maintenance and operation of such facilities or Service(s). Subject to this responsibility, the Company shall not be responsible for:
 - (1) The transmission of signals by Customer Provided Equipment or for the quality of, or defects in such transmission, or
 - (2) The reception of signals by Customer Provided Equipment.

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.1 Undertaking of the Company (Cont'd)

2.1.5 Equipment or Facilities

2.1.5.1 The Company will provide to the Customer, upon reasonable notice, the Service(s) offered in other applicable sections of this tariff at rates and charges specified therein. Service(s) will be made available to the extent that such Service(s) is or can be made available with reasonable effort, and after provision has been made for the Company's telephone exchange services.

2.1.5.2 The Company reserves the right to limit or allocate the use of existing facilities, or of additional facilities offered, when necessary because of a lack of facilities or due to some other cause beyond the Company's control.

2.1.5.3 The Service(s) provided under this tariff will include any entrance cable or drop wiring and wire or intra-building cable to that point where provision is made for termination of the Company's outside distribution network facilities at a suitable location inside a Customer-designated premises. Such wiring or cable will be installed by the Company to the Point of Demarcation.

2.1.5.4 The Company may, where such action is reasonably required in the operation of its business, substitute, change or rearrange any facilities used in providing Service(s) under this tariff. The Company shall not be responsible if any such substitution, change or rearrangement renders any Customer-furnished equipment or Service(s) obsolete or requires modification or alteration thereof or otherwise affects the operating characteristics of the equipment, facility or Service. The Company will provide reasonable notification to the Customer in writing. The Company will work cooperatively with the Customer and provide reasonable time for any redesign and implementation required by the change in operating characteristics.

2.1.6 Notification of Service-Affecting Activities

The Company will provide the Customer reasonable notification of Service-affecting activities that may occur in normal operation of its business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements, and routine preventive maintenance. Generally, such activities are not specific to an individual Customer, but affect many Customers' service(s). No specific advance notice period is applicable to all Service activities. The Company will work cooperatively with the Customer to determine the reasonable notification requirements. With some emergency or unplanned Service-affecting conditions, such as an outage resulting from cable damage, notification to the Customer might not be possible.

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.1 Undertaking of the Company (Cont'd)

2.1.7 Non-Routine Installation

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours, but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional installation charges will be adjusted to reflect increases in costs incurred by the Company.

2.1.8 Special Construction/Special Arrangements

2.1.8.1 Subject to the plans of the Company and to all of the regulations contained in this tariff, special construction or special arrangements to acquire facilities may be undertaken on a reasonable-efforts basis at the request of the Customer. Special construction is that construction undertaken of a type other than that which the Company would normally utilize in furnishing its Service(s): over a route other than that which the Company utilize in furnishing its Service(s); where facilities are not presently available, and no other requirement exists for the facilities so constructed; on a temporary basis until permanent facilities are available; in a quantity greater than that which the Company would normally construct; facilities required on an expedited basis and/or requiring abnormal costs; or in advance of its normal construction. Special Construction charges will be determined and approved by the Customer prior to the start of such construction.

2.1.8.2 Special arrangements generally refer to the procurement of facilities where Company facilities are not available and where arrangements or agreements from another entity are required to provision the Service. Special arrangements do not normally require additional costs, but may require additional time to provision.

2. GENERAL REGULATIONS (Cont'd)

2.2 Obligations of the Customer

2.2.1 Responsibilities of the Customer

The Customer shall be responsible for the following:

- (a) Ensuring that the characteristics and methods of operation of any circuits, facilities or equipment not provided by the Company and associated with the facilities utilized to provide Service(s) under this tariff shall not interfere with or impair Service over facilities of the Company; cause damage to their plant; impair privacy or create hazards to employees or the public;
- (b) The Service provided under this tariff shall not be used for an unlawful purpose or used in an abusive manner which would reasonably be expected to frighten, abuse, torment or harass another or interfere with use of Service by one or more other Customers;
- (c) Customers who intend to use the Company's offerings for resale and/or for shared use may be required to file a letter with the Company confirming that their use of the Company's offerings complies with relevant laws and FCC regulations, policies, orders, guidelines and decisions;
- (d) Payment of all applicable charges pursuant to this tariff;
- (e) Damage to or loss of the Company's facilities or equipment caused by acts or omissions of the Customer; or noncompliance by the Customer; or by fire or theft or other casualty on the Customer premises, unless caused by the negligence or willful misconduct of the Company's employees or agents;
- (f) Providing at no charge, as specified from time to time by the Company, any needed personnel, equipment, space, and power to operate Company facilities and equipment installed on the premises of the Customer, and the level of heating and air conditioning necessary to maintain proper operating environment on such premises;
- (g) Where applicable, obtaining, maintaining, and otherwise having full responsibility for all rights-of-way and conduit necessary for installation of cables and associated equipment used to provide services to the Customer from the building service entrance or property line to the location of the equipment space. Any costs associated with the obtaining and maintaining the rights-of-way described herein, including the costs of altering the structure to permit installation of the Company-provided facilities, shall be borne entirely by, or may be charged by the Company, to the Customer;

2. GENERAL REGULATIONS (Cont'd)

2.2 Obligations of the Customer (Cont'd)

2.2.1 Responsibilities of the Customer (Cont'd)

- (h) Providing a safe place to work and complying with all laws and regulations regarding the working conditions on the premises at which the Company employees and agents shall be installing or maintaining the Company's facilities and equipment. The Customer may be required to install and maintain Company facilities and equipment within a hazardous area if, in the Company's opinion, injury or damage to the Company's employees or property might result from installation or maintenance by the Company. The Customer shall be responsible for identifying, monitoring, removing, and disposing of any hazardous material (e.g., friable asbestos) prior to any construction or installation work;
- (i) Complying with all laws and regulations applicable to, and obtaining all consents, approvals, licenses, and permits as may be required with respect to the location of Company facilities and equipment in any Customer premises or the rights-of-way for which Customer is responsible as stated, preceding, and granting or obtaining permission for Company agents or employees to enter the premises of the Customer at any time for the purpose of installing, inspecting, maintaining, testing, repairing, or upon termination of service as stated herein, removing the facilities or equipment of the Company;
- (j) Not creating or allowing to be placed any liens or other encumbrances on the Company's equipment or facilities; and
- (k) Customers will use the Service provided by the Company in a manner, and at all times, consistent with the tariff obligations identified herein and shall not utilize the Company's Service(s) in any manner that:
 - (1) Interferes with or impairs the Services(s) of the Company, other carriers, or other Customers;
 - (2) Causes damage to Company facilities;
 - (3) Interferes with the privacy of communications;
 - (4) Creates a hazard to the Company's employees or the public; or
 - (5) Interferes, frightens, abuses, torments, harasses or unreasonably interferes with the use of the Company's Service by others.

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.2 Obligations of the Customer (Cont'd)

2.2.2 Claims

With respect to any Service or facility provided by the Company, Customer shall indemnify, defend, and hold harmless the Company from and against all claims, actions, damages, liabilities, costs, and expenses for:

- (a) Any loss, destruction, or damage to property of the Company or any third party, or the death or injury to persons, including, but not limited to, employees, or invitees of either party, to the extent caused by or resulting from the negligent or intentional act or omission of the Customer, its employees, agents, representatives, or invitees; or
- (b) Any claim, loss, damage, expense, or liability for infringement of any copyright, patent, trade secret, or any proprietary or intellectual property right of any third party, arising from any act or omission by the Customer, including, without limitation, use of the Company's Service(s) and facilities in a manner not contemplated by the agreement between Customer and Company.

2.3 Customer Equipment and Channels

2.3.1 General

A Customer may transmit or receive information or signals via the facilities of the Company. The Company's Services are designed primarily, but not exclusively, for the transmission of voice grade telephonic signals, except as otherwise stated in this tariff. The Company does not guarantee that its Service(s) will be suitable for purposes other than voice grade telephonic communication except as specifically stated in this tariff.

2.3.2 Terminal Equipment

2.3.2.1 Terminal equipment on the Customer premises and the electric power consumed by such equipment shall be provided by and maintained at the expense of the Customer.

2.3.2.2 The Customer is responsible for ensuring that Customer-provided equipment connected to Company equipment and facilities is compatible with such equipment and facilities. The magnitude and character of the voltages and currents impressed on Company-provided equipment and wiring by the connection, operation, or maintenance of such equipment and wiring shall be such as not to cause damage to the Company-provided equipment and wiring or injury to the Company's employees or to other persons. Any additional protective equipment required to prevent such damage or injury shall be provided by the Company at the Customer's expense.

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.3 Customer Equipment and Channels (Cont'd)

2.3.3 Interconnection of Facilities

2.3.3.1 Any special interface equipment necessary to achieve compatibility between the facilities and equipment of the Company used for furnishing Communications Services and the channels, facilities, or equipment of others shall be provided at the Customer's expense.

2.3.3.2 Communications Services may be connected to the services or facilities of other communications carriers only when authorized by, and in accordance with the terms and conditions of the tariffs or contracts of other communications carriers which are applicable to such connections.

2.3.3.3 Facilities furnished under this tariff may be connected to Customer provided terminal equipment in accordance with the provisions of this tariff. All such terminal equipment shall be registered by the Federal Communications Commission pursuant to Part 68 of Title 47, Code of Federal Regulations; and all Customer-provided wiring shall be installed and maintained in compliance with those regulations.

2.3.4 Inspections

2.3.4.1 Upon notification to the Customer, and at a reasonable time, the Company may make such tests and inspections as may be necessary to determine that the Customer is complying with the requirements set forth above for the installation, operation and maintenance of Customer-provided facilities, equipment, and wiring in the connection of Customer-provided facilities and equipment to Company-owned facilities and equipment.

2.3.4.2 If the protective requirements for Customer provided equipment are not being complied with, the Company may take such action as it deems necessary to protect its facilities, equipment, and personnel. The Company will notify the Customer promptly if there is any need for further corrective action. Within ten days of receiving this notice, the Customer must take this corrective action and notify the Company of the action taken. If the Customer fails to do this, the Company may take whatever additional action is deemed necessary, including the suspension of service, to protect its facilities, equipment and personnel from harm.

2. GENERAL REGULATIONS (Cont'd)

2.3 Customer Equipment and Channels (Cont'd)

2.3.5 Prohibited Uses

2.3.5.1 The Service(s) the Company offers shall not be used for any unlawful purpose or for any use as to which the Customer has not obtained all required governmental approvals, authorization, licenses, consents, and permits.

2.3.5.2 The Company may require applicants for Service who intend to use the Company's offerings for resale and/or shared use to file a letter with the Company confirming that their use of the Company's offerings complies with relevant laws, and FCC regulations, policies, guidelines, orders and decisions.

2.3.5.3 The Company may require a Customer to immediately stop its transmission of signals if said transmission is causing interference to others.

2.4 Payment Arrangements

2.4.1 Payment for Service

The Company shall bill on a current basis all charges incurred by and credits due to the Customer under this tariff attributable to Service(s) established or discontinued during the preceding billing period. End User Common Line Service (End User Service) charges are billed in advance.

The Customer is responsible for the payment of all charges for facilities and Service(s) furnished by the Company. All bills, other than those for End User Service, are due 31 days after the bill day (payment date) or by the next bill date, whichever is the shortest interval, and are payable in immediately available funds.

2.4.1.1 The Customer is responsible for payment of appropriate sales, use, gross receipts, excise, access or other local, state and federal taxes, charges, fees or surcharges (however designated) imposed or based upon the provision, sale or use of the Company's Service(s).

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.4 Payment Arrangements (Cont'd)

2.4.2 Billing and Collection of Charges

- 2.4.2.1 The Company will establish a bill day each month for Customer accounts. Each bill will include industry standard descriptions of Service(s) rendered for the period covered, any known unbilled non-usage sensitive charges for prior periods and unbilled usage charges for any prior period.
- 2.4.2.2 A Non-recurring Charge is due and payable within 30 days after the invoice date.
- 2.4.2.3 The Company shall present invoices for Recurring Charges monthly to the Customer, in advance of the month in which Service is provided; Recurring Charges shall be due and payable within 30 days after invoice date.
- 2.4.2.4 Charges based on measured usage will be included on the next invoice rendered following the end of the month in which the usage occurs, and will be due and payable within 30 days after invoice date.
- 2.4.2.5 When Service does not begin on the first day of the month, or end on the last day of the month, the charge for the fraction of the month in which Service was furnished will be calculated on a pro-rate basis with every month considered to have 30 days.
- 2.4.2.6 Billing of the Customer by the Company will begin on the Service Commencement Date, which is the first day following the date on which the Company notifies the Customer that the Service or facility is available for use, except that the Service Commencement Date may be postponed by mutual agreement of the parties, or if the Service or facility does not conform to standards set forth in this tariff. The Service Order Billing accrues through and includes the day that the Service, circuit, arrangement or component is discontinued.

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.4 Payment Arrangements (Cont'd)

2.4.2 Billing and Collection Charges (Cont'd)

2.4.2.7 If any portion of the Customer's payment is received by the Company after the date due, or if any portion of the payment is received by the Company in funds which are not immediately available, then a late payment penalty shall be due the Company. The late payment penalty shall be the portion of the payment not received by the due date, multiplied by a late factor. The late factor shall be the lesser of:

- (a) The highest interest rate (in decimal value) which may be levied by law for commercial transactions, compounded daily for the number of days from the payment date to and including the date the Customer actually makes the payment to the Company; or
- (b) \$0.000292 per day, compounded daily for the number of days from the payment date to and including the date the Customer actually makes payment to the Company.
- (c) Late payment penalty charges will apply to amounts withheld pending settlement of the dispute, when the billing dispute is resolved in favor of the Company. Late payment charges are calculated as set forth in (a) or (b) preceeding except that when the Customer disputes the bill on or before the payment date and pays the undisputed amount on or before the payment date, the penalty interest period shall not begin until 10 days following the payment date.

2.4.2.8 In addition to other penalties or fees, the Customer will be assessed a charge of \$20.00 for each check submitted by the Customer to the Company which a financial institution refuses to honor for insufficient funds or a non-existent account.

2.4.2.9 If Service is disconnected by the Company in accordance with Section 2.5.6 following, and later restored, restoration of Service will be subject to all applicable reconnection or reestablishment charges.

2.4.3 Advance Payments

To safeguard its interests, the Company may require a Customer to make an advance payment before services and facilities are furnished.

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.4 Payment Arrangements (Cont'd)

2.4.4 Jurisdictional Reporting Requirements

2.4.4.1 The Company cannot in all cases determine the jurisdictional nature of Customer traffic and its related access minutes. In such cases the Customer may be called upon to provide a projected estimate of its traffic, split between interstate and intrastate jurisdictions. Updates to jurisdictional levels may be made by the Customer not more frequently than quarterly. When mixed interstate and intrastate access is provided, all charges, including non-recurring charges, usage charges, and optional features and functions will be prorated between the jurisdictions.

2.4.4.2 When a Customer orders Switched Access, the Customer may provide the projected jurisdictional usage for the end office in its order. Alternatively, the Company, where the jurisdiction can be determined from the call detail, will determine the projected jurisdictional usage percentage as follows:

- (a) For originating access minutes, the projected jurisdictional usage percentage will be developed on a monthly basis where Switched Access Service minutes are measured by dividing the measured interstate (generally calls between states) minutes by the total originating access minutes.
- (b) For terminating access minutes, the data used by the Company to develop the projected interstate percentage for originating access minutes will be used to develop the projected interstate percentage for such terminating access minutes.

2.4.4.3 When originating call details are insufficient to determine the jurisdiction for the call, the Customer shall supply the projected interstate percentage or authorize the Company to use the Company-developed percentage. The projected intrastate percentage of use will be obtained by subtracting the projected interstate percentage for originating and terminating access minutes from 100 (intrastate usage percentage = 100 - interstate percentage).

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.4 Payment Arrangements (Cont'd)

2.4.5 Deposits

2.4.5.1 To safeguard its interests, the Company may require a Customer to make a deposit to be held as a guarantee for the payment of charges. A deposit may be requested prior to providing Service(s) or at any time after the provision of a service to the Customer. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills as provided for in this tariff.

2.4.5.2 A deposit may be required in addition to an advance payment.

2.4.5.3 When a Service or facility is discontinued, the amount of a deposit, if any, will be applied to the Customer's account and any credit balance remaining will be refunded. Before the Service or facility is discontinued, the Company may, at its option, return the deposit or credit it to the Customer's account.

2.4.5.4 Interest on deposits will be due the Customer at the same percentage rate as set forth in 2.4.2.7(a) or 2.4.2.7(b) preceding, whichever is lower.

2.4.5.5 Such a deposit will be refunded or credited to the Customer's account after a one year, prompt-payment record is established.

2.4.6 Discontinuance of Service

2.4.6.1 Upon nonpayment of any amounts owing to the Company, the Company may by giving ten days prior written notice to the Customer, discontinue or suspend Service without incurring any liability.

2.4.6.2 Upon violation of any of the other material terms or conditions for furnishing Service, the Company may, by giving 30 days prior notice in writing to the Customer, discontinue or suspend Service without incurring any liability if such violation continues during the period.

2.4.6.3 Upon condemnation of any material portion of the facilities used by the Company to provide Service to a Customer or if a casualty renders all or any material portion of such facilities inoperable beyond feasible repair, the Company, by notice to the Customer, may discontinue or suspend Service without incurring any liability.

2.4.6.4 Upon any governmental prohibition or required alteration of the Service(s) to be provided or any violation of any applicable law or regulation, the Company may immediately discontinue Service without incurring any liability.

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.4 Payment Arrangements (Cont'd)

2.4.6 Discontinuance of Service (Cont'd)

2.4.6.5 Upon the Company's discontinuance of Service to the Customer under Section 2.4.6.1 or 2.4.6.2, the Company, in addition to all other remedies that may be available to the Company at law or in equity or under any other provision of this tariff, may declare all future monthly and other charges which would have been payable by the Customer during the remainder of the term for which such Service(s) would have otherwise been provided to the Customer to be immediately due and payable.

2.4.7 Cancellation of Application for Service

Provisions for the cancellation of an Application for Service are provided here and are set forth in other applicable sections of this tariff.

2.4.7.1 Where the Customer cancels an application for Service prior to the start of Service or prior to any special construction, no charges will be imposed except for those specified below.

2.4.7.2 Where, prior to cancellation by the Customer, the Company incurs any expenses in installing the Service or in preparing to install the Service that it otherwise would not have incurred, a charge equal to the costs the Company incurred, less net salvage, shall apply.

2.4.7.3 Where the Company incurs any expense in connection with special construction, or where special arrangements of facilities or equipment have begun, before the Company receives a cancellation notice, a charge equal to the costs the Company incurred, less net salvage, shall apply. In such cases, the charge will be based on such elements as the cost of the equipment, facilities, and material, the cost of installation, engineering labor, and supervision, general and administrative expense, other disbursements, depreciation, maintenance, taxes, provision for return on investment, and any other costs associated with special construction or arrangements incurred by the Company.

2.4.7.4 The special charges described above will be calculated and applied on a case-by-case basis.

2.4.8 Changes in Service Requested

If the Customer makes or requests material changes in circuit engineering, equipment specification service parameters, premises locations, or requests expedited provisioning, or otherwise materially modifies any provision of the application for service, the Customer's installation fee and/or recurring charges shall be adjusted accordingly.

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.4 Payment Arrangements (Cont'd)

2.4.9 Allowances for Interruptions in Service

A Service is interrupted when it becomes unusable to the Customer because of a failure of a facility component used to furnish Service under this tariff or in the event that the protective controls applied by the Company result in a complete loss of Service by the Customer. An interruption begins when an inoperable Service is reported to the Company and ends when the Service is operable. If the Customer reports a Service, facility or circuit inoperable, but declines to release it for testing and repair, it is considered to be adversely affected, but not interrupted. In case of an interruption to any Service, allowance for the period of interruption, if not due to the negligence of the Customer, shall be provided.

2.4.9.1 For Switched Access Service, no credit shall be allowed for an interruption of less than 24 hours. The Customer shall be credited for an interruption of 24 hours or more at the rate of 1/30 of any applicable monthly rate or assumed minutes of use charge for each period of 24 hours or major fraction thereof that the interruption continues. The credit allowance(s) for an interruption or for a series of interruptions shall not exceed any monthly rate for the Service interrupted in any one monthly billing period.

2.4.9.2 A credit allowance does not apply in the following cases:

- (a) Interruptions caused by the negligence of, or noncompliance with the provisions of this tariff by the Customer, or other common carrier providing service connected to the Service of the Company.
- (b) Interruptions of a Service due to the failure of equipment or systems provided by the Customer or others.
- (c) Interruptions of a Service during any period in which the Company is not afforded access to the premises.
- (d) Interruptions of Service during any period when the Customer has released Service to the Company for maintenance purposes or for implementation of a Customer order for a change in Service arrangements.
- (e) Interruptions of Service due to circumstances or causes beyond the control of the Company or where the Customer continues to use the Service on an impaired basis.
- (f) In the case of an interruption to any Service, allowance for the period of interruption if the interruption is not due to the negligence of the Customer.

Issued: June 19, 2001

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.4 Payment Arrangements (Cont'd)

2.4.9 Allowances for Interruptions in Service (Cont'd)

2.4.9.3 The credit allowance(s) for an interruption or for a series of interruptions shall not exceed any monthly rate for the service interrupted in any one monthly billing period.

2.4.9.4 Use of an Alternative Service Provided by the Company.

Should the Customer elect to use an alternative service provided by the Company during the period that a Service is interrupted, the Customer must pay the tariffed rates and charges for the alternative service used.

2.4.9.5 Re-establishment of Service Following Fire, Flood, etc.

Charges do not apply for the re-establishment of Service following a fire, flood or other occurrence attributed to an Act of God provided that the Service:

may be extended a reasonable period if the renovation of the original location on the premises is not practical.

Non-recurring charges will apply for establishing Service at a new location on the same premises or for temporary Service at a different premises pending re-establishment of Service at the original location. The Customer shall, in cooperation with the Company, participate in planning the actions to be taken to enable or maintain maximum network capability following natural or man-made disasters affecting Service(s).

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.4 Payment Arrangements (Cont'd)

2.4.10 Billing Disputes

2.4.10.1 All bills are presumed accurate, are due and payable on the due date, and shall be binding on the Customer unless objection is received by the Company as specified in this section of the Tariff. A disputed charge must be brought to the Company's attention by written notification within thirty (30) days of the payment due date unless the Customer pays the bill in full by the payment due date. If the Customer pays the bill in full by the payment due date, it may initiate a billing dispute within ninety (90) days of the payment due date.

Although the Customer is not required to pay any disputed charges during the time period in which the Company conducts its investigation into the charges, the undisputed portion and subsequent bills must be paid on a timely basis, or penalty interest will be due and the service may be subject to disconnection, pursuant to Section 2.5.6, and/or other such remedies as are specified in this Tariff.

2.4.10.2 In the event that the Customer disputes any of the charges billed to the Customer by the Company, the Customer must submit a good faith claim to the Company, in writing, which includes the following information:

- (a) The account number under which the bill has been rendered;
- (b) The date the affected bill was rendered;
- (c) The specific items being disputed;
- (d) The basis, in detail, for the dispute; and
- (e) The amount of the bill that is not disputed.

2.4.10.3 If, in the opinion of the Company, the Customer fails to provide adequate explanation and support to justify its refusal to pay the disputed charges, the Company may request such additional information and explanation ("supplemental information") as will allow the Company to evaluate the dispute. In the event that Customer fails to provide the supplemental information within thirty (30) days of receiving notice from the Company of the need for supplemental information, the claim shall be denied.

2.4.10.4 The date of the dispute shall be the date on which the Customer furnishes the Company the account information specified in 2.4.10.2.

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.4 Payment Arrangements (Cont'd)

2.4.10 Billing Disputes (Cont'd)

2.4.10.5 The date of the resolution of the dispute shall be the date on which the Company completes its investigation of the dispute, and notifies the Customer of the disposition. If the dispute is resolved in favor of the Customer, in whole or in part, the Company shall apply a credit to the Customer's bill for the amount the dispute is resolved in the Customer's favor, if payment has been withheld pending the outcome of the investigation. If the Customer has paid the disputed amount and subsequently disputed the amount, the Company shall issue a credit to the Customer's bill, in the amount the dispute is resolved, plus interest, calculated from the date of the dispute to the date of resolution, as appropriate. Interest shall be calculated as the lesser of:

- (a) The highest interest rate (in decimal value) which may be levied by law for commercial transactions for the number of days from the first date to and including the last date of the period involved, or
- (b) .0005 per day for the number of days from the first date to and including the last date of the period involved.

2.4.10.6 If the dispute is resolved in favor of the Company, in whole or in part, unpaid disputed amounts must be paid within seven (7) calendar days after the date the Company notifies Customer that the investigation and review are completed and the dispute is denied. Failure to pay this amount may result in the Company exercising its remedies for non-payment under this Tariff.

If the dispute is resolved in favor of the Company, any payments withheld pending resolution of the dispute shall be subject to the late payment penalty as set forth above in 2.4.2.7.

If the dispute is resolved in favor of the Company but the disputed amount was paid on the bill due date, the matter will be closed. Neither a late payment charge nor an interest charge is applicable.

2.4.10.7 In addition to the rights otherwise set forth herein, including but not limited to the rights to suspend or terminate service for non-payment, the Company reserves the right to pursue any other remedies available to it at law and equity.

2.4.10.8 In the event the Company pursues collection claims through judicial proceedings at law or in equity, whether by claim or counterclaim, the Company will be entitled to recover the costs and expenses of any such proceedings, including reasonable attorneys' fees and/or collection agency fees, if it prevails in whole or in part with respect to its collection claims in such proceedings.

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.5 Access Billing

2.5.1 Title or Ownership Rights

The payment of rates and charges by Customers for the Services offered under the provisions of this tariff does not assign, confer, or transfer title or ownership rights to proposals or facilities developed or utilized respectively by the Company in provision of such Services.

2.5.2 Billing Standards

2.5.2.1 The Company shall produce verifiable and auditable access bills in general conformance with accepted industry standards for companies that do not provide bills under a mechanized Carrier Access Billing System/Billing Output Specification (CABS/BOS) equivalent System. Access Bills will be consistent with the Small Exchange Carrier Access Billing (SECAB) Guidelines developed by the Ordering Billing Forum (OBF) of the Alliance for Telecommunications Industry Solutions (ATIS).

2.5.2.2 An access bill is comprised of one or more billing elements, including usage sensitive charges, distance sensitive charges, flat-rated charges, individual-case-based (ICB) charges, and non-recurring or special miscellaneous charges that may be appropriate.

2.5.3 Meet Point Billing

When an access service is provided by more than one telecommunications company, each Company jointly providing the Service will receive an order or a copy of the Access Service Request from the Customer. Each telecommunications company must ensure that appropriate usage information is provided to the other telecommunications company for access minutes purposes.

2.5.3.1 The Company will provide Service under a multiple bill option. Under a multiple bill option, each Company providing Service will render an access bill to the Customer for its portion of the Service based on its access tariff rates and regulations.

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.5 Access Billing (Cont'd)

2.5.3 Meet Point Billing (Cont'd)

2.5.3.2 For Switched Access Multiple Bills, the end office company is generally the Initial Billing Company (IBC). The IBC is the company that calculates the access minutes to be billed to the Customer and provides these data to each connecting company providing the Service, i.e., the Subsequent Billing Company(s). Each billing company will:

- (a) Prepare its own bill;
- (b) Determine its charge(s) for access elements;
- (c) Determine and include all recurring and non-recurring rates and charges of its access tariffs; and
- (d) Reflect its Billing Account Reference (BAR) and all connecting company Billing Account Cross Reference (BACR) code(s).

The Customer will remit payment directly to each bill rendering company.

2.5.4 Duration of Use Charges

2.5.4.1 Customer traffic to end offices will be measured by the Company at end office switches. Originating and terminating calls will be measured by the Company to determine the basis for computing chargeable access minutes.

2.5.4.2 For originating calls, usage measurement begins when the originating switch receives the first wink supervisory signal forwarded from the Customer's point of termination.

2.5.4.3 The measurement of originating usage ends when the originating switch receives disconnect supervision from either the originating end user's end office or the Customer's point of termination, whichever is recognized first by the switch.

2.5.4.4 For terminating calls, the measurement of access minutes begins when the terminating switch receives answer supervision from the terminating user's end office.

2.5.4.5 The measurement of terminating call usage ends when the terminating switch receives disconnect supervision from either the terminating end user's end office, or the Customer's point of termination, whichever is recognized first by the switch.

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.5 Access Billing (Cont'd)

2.5.5 Distance Charges

2.5.5.1 Where charges for an access service are based on distance, the distance between two points is measured as airline distance between rate centers as listed in the National Exchange Carrier Association FCC No. 4, Wire Center Tariff or Local Exchange Routing Guide (LERG) issued by Bellcore which contains Numbering Plan Area (NPA) and Exchange Number Assignment (NXX) (area code and first three digits of a seven-digit telephone number).

2.5.5.2 The airline distance between any two rate centers is determined as follows:

- (a) Obtain the V (vertical) and H (horizontal) coordinates for each rate center from the above referenced document(s),
- (b) Compute the difference between the V coordinates of the two rate centers; and the difference between the two H coordinates,
- (c) Square the difference obtained in (b) above,
- (d) Add the square of the V difference and the square of the H difference obtained in (c) above,
- (e) Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained,
- (f) Obtain the square root of the whole number result obtained in (e) above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage applicable.

(1) Issued under the authority of Special Permission No. 99-59 of the Federal Communications Commission.

Effective: June 20, 2001

ACCESS SERVICE

2. GENERAL REGULATIONS (Cont'd)

2.5 Access Billing (Cont'd)

2.5.6 Suspension, Termination or Refusal of Service

2.5.6.1 Service may be suspended or terminated for nonpayment (subject to exceptions provided in Section 2.5.7) of any bill or deposit until such bill or deposit is paid. If Service is suspended or terminated for nonpayment, the Customer must remit a connection charge as well as any payment due and any deposit requested by the Company prior to reconnection or reestablishment of Service.

2.5.6.2 Suspension or termination of Service will not be made until after: (1) at least 30 days written notification has been served personally on the Customer; (2) at least 30 days after verification of receipt of certified mail has been made by the Company; or (3) at least 30 days after the Customer has refused a certified or registered written notification mailed to the Customer billing address. Service shall not be suspended or terminated on weekends, legal holidays or on days when the business office of the Company is not open for business.

2.5.6.3 When a Customer refuses to pay bills rendered or deposits requested (subject to exceptions shown in Section 2.5.7) the Company may refuse to process existing orders for Service(s) or to accept new orders for Service.

2.5.6.4 The Company, after providing notice in writing to the Customer, may suspend, terminate or refuse Service(s) in the event of unauthorized use of Service(s) or facilities received from the Company, where the Customer is indebted to the Company for previously furnished Service(s) or facilities or where the use of Service(s) or facilities have been abandoned. Customers will have an appropriate opportunity to respond to such notice.

2.5.7 Exceptions to Suspension, Termination or Refusal of Service

2.5.7.1 Service(s) shall not be suspended, terminated, or refused in the following instances:

- (a) For nonpayment of billed amounts that are in dispute while an investigation of the dispute is being made by the Company (undisputed amounts and subsequent bills must be paid on a timely basis; the Company shall be the sole determiner of a frivolous dispute);
- (b) For nonpayment of Service which has been billed but not rendered; or
- (c) For nonpayment of billed amounts for charges other than those for the Service.

ACCESS SERVICE

3. ACCESS ORDERING

3.1 General

This section sets forth the regulations and order related charges for Service(s) shown in other sections of this tariff. Order charges are in addition to other applicable charges for Service(s) provided. An Access Service Request (ASR) is an order to provide the Customer with Switched and or Access Related Service, or to provide changes to existing access services.

A Customer may order any number of services of the same type and between the same premises on a single ASR. All details for services for a particular order must be identical except for those for multi-point Service.

The Customer shall provide to the Company the following information in addition to other requirements of this section:

- (1) Customer name and premises address,
- (2) Billing name and address, if different from Customer name and address,
- (3) Customer contact name(s) and telephone number(s) for order confirmation, order provisioning information, order negotiation, interactive engineering design, installation and billing.

3.1.1 Service Installation

The Company will provide Access Service in accordance with the Customer's requested Service date, subject to the constraints established by the Company schedule of Service dates.

The Company schedule shall specify the applicable service interval for Service(s) and the quantities of Service(s) that can reasonably be provided by a service date. Said schedule will be available to Customers upon request and will be provided in a reasonable period of time.

Installation of Service(s) will be during Company business days and hours. Customer requests for installations outside of scheduled work hours, if agreed to by the Company, will be subject to applicable additional labor charges.

The Company will not accept orders for Service that are for a date more than six months from the current date. The Company will, however, accept information for planning purposes in advance of order placement.

ACCESS SERVICE

3. ACCESS ORDERING (Cont'd)

3.1 General (Cont'd)

3.1.2 Expedited Orders

When a Customer places an Access Service Request (ASR) and requests a Service date that is prior to the Company's applicable interval service date of the Company, or when a Customer requests an earlier Service date on an existing ASR, the Company, in addition to other applicable charges for modification or Service date change, will determine if it can meet the requested date and what additional labor and/or extraordinary costs are required. The Customer will be notified of the additional estimated costs for authorization.

Upon authorization of additional costs by the Customer, the Company will keep a record to accumulate such costs and assure that costs will not exceed 10 percent of the estimated charges to the Customer.

3.1.3 Selection of Facilities

The option to request a specific path or channel is not provided to the Customer, but within the purview of the Company.

3.2 Ordering Requirements

3.2.1 Switched Access Service

When ordering Switched Access Service, the following information shall be provided by the Customer:

- (1) The number of Busy Hour Minutes of Capacity (BHMC) from the Customer designated premises to the end office or the number of trunks desired between the Customer designated premises and the entry switch;
- (2) Optional Features desired; and
- (3) Projected percentage of jurisdictional use.

ACCESS SERVICE

3. ACCESS ORDERING (Cont'd)

3.2 Ordering Requirements (Cont'd)

3.2.2 Miscellaneous Services

3.2.2.1 Miscellaneous Services may include, but are not limited to testing, special facilities routing, and additional labor. These items may be ordered initially or may subsequently be added to a pending order at any time up to and including the service date for the Access Service. When a Service date change results from ordering these Miscellaneous Services, the appropriate Service Date Change and/or Design Change charge will apply.

3.2.2.2 When the Company determines that Additional Engineering is necessary to accommodate a Customer request, the Customer will be notified by the Company of the reason for, and amount of Additional Engineering. A firm order will only be established where the Customer agrees to the Additional Engineering. The Company will assure that Additional Engineering charges do not exceed the estimate by more than 10 percent.

3.2.2.3 In any instance where an Access Order affects more than one communications company, the Customer must also provide a copy of the order to the company(s) involved.

3.3 Access Ordering Charges

3.3.1 Access Order Charge

3.3.1.1 An Access Order Charge is applied to all Customer requests for new, additions, or changes and rearrangements to existing Switched Access Service except as follows:

- (1) When a Service Date Change Charge is applicable;
- (2) When a Design Change Charge is applicable;
- (3) When a change to a pending order does not result in the cancellation of the pending order and the issuance is a new order;
- (4) When a Miscellaneous Service Order Charge is applicable;
- (5) When a Presubscription Charge is applicable; or
- (6) When a Company initiated network reconfiguration requires a Customer's existing access service to be reconfigured.

ACCESS SERVICE

3. ACCESS ORDERING (Cont'd)

3.3 Access Ordering Charges (Cont'd)

3.3.1 Access Order Charge (Cont'd)

3.3.1.2 An Access Order Charge will be applied on a per order basis to each order, or copy of an order received by the Company.

3.3.2 Access Order Change Charge

Access Order Change Charges involve service date changes and/or design changes. A change would be a Customer request any time prior to the Service date for the requested Service(s). Any increase in the number of Switched Access lines, trunks or BHMC will be treated as a new order (for the increased amounts) rather than a change order.

3.3.3 Service Date Change Charge

A change of Service date is a change of the scheduled Service date by the Customer to either an earlier date or a later date does not exceed 30 calendar days from the original Service date. The Customer may request a change of Service date on a pending Access Service Request prior to the Service date, and if the Company can accommodate the change, a new Service date will be set, and a service date change charge will apply.

3.3.4 Design Change Charge

A design change is any change to an Access Service Request that requires engineering review prior to the requested service date. Design changes do not include a change of CDP, first point of switching. Changes of this nature require the issuance of a new order and the cancellation of the original order. Design changes would include such items as the addition or deletion of optional features or functions, change in type of transport termination, type of channel interface group or technical specification changes.

The Company will review the requested Customer change and notify the Customer whether the change is a design change, if it can be accommodated, and if a new Service date is required. On Customer approval, a Design Change Charge would apply in addition to any other charges (e.g., service date change).

ACCESS SERVICE

3. ACCESS ORDERING (Cont'd)

3.3 Access Ordering Charges (Cont'd)

3.3.5 Miscellaneous Service Order Charge

A Miscellaneous Service Order Charge is for compensation of administrative expenses associated with issuing the order associated with the provision of Miscellaneous Services such as overtime repair, standby repair, testing, and other labor. The charge does not apply to Service(s) where a pending Service order exists, such as additional engineering, overtime installation, standby acceptance testing, testing with other companies with acceptance testing and additional cooperative acceptance testing.

3.3.6 Cancellation of Access Order Charge

3.3.6.1 A Customer may cancel an Access Order for the installation of Service on any date prior to the Service date. The cancellation date is the date on which the Company receives written notice from the Customer. When a Customer cancels an Access Service Request, a Cancellation Charge will apply as follows:

- (1) Installation of Switched facilities is considered to have started when the Company incurs any cost in connection with provisioning the Service that otherwise would not have been incurred.
- (2) When installation of access facilities has been started prior to the cancellation, a charge equal to the lower of either the cost incurred in such installation, less net salvage, or the charges for a minimum period for the service will apply.
- (3) Any partial cancellation (e.g., cancellation in the number of trunks, channels ordered) will be treated as a cancellation and subject to applicable charges as stated in this Section.

Where the Customer cancels an Access Service Request prior to the start of installation of access facilities and no costs have occurred, no charges shall apply.

ACCESS SERVICE

4. SWITCHED ACCESS - CARRIER COMMON LINE ACCESS SERVICE

4.1 General

The Carrier Common Line portion of Switched Access is associated with the local loop, drop and associated equipment from the end office switching center to the End User Customer. The Company will provide the use of Company common lines by a Customer for access to end users at rates and charges set forth in Section 9. Jurisdictional rates apply for originating, terminating, and terminating only usage.

The Customer facilities at the premises of the ordering Customer shall provide the necessary on-hook and off-hook supervision.

All Switched Access Service provided to the Customer will be subject to the Carrier Common Line charges, excluding the Common Channel Signaling Access exemption.

4.1.1 Rate Categories

Rate categories for Carrier Common Line are as follows:

- Carrier Common Line Originating per Access Minute
- Carrier Common Line Terminating per Access Minute

ACCESS SERVICE

5. SWITCHED ACCESS - END USER ACCESS CHARGES

5.1 General

The Company will provide End User Access Service to end users who obtain local exchange service from the Company under its local exchange tariff. This service is known as an End User Common Line (EUCL). An EUCL charge applies to each single-line residence and each multi-party line service as if the Customer had subscribed to single-line service. Similarly, when an end user is provided single local business exchange service, multiparty and Centrex services, the EUCL charge applies to each individual line or trunk. In the case of multiparty service, each party is deemed to be a user of an EUCL.

When a payphone service provider is provided a pay telephone line in the Ameritech, AT&T Southeast, CenturyTel, Spectra, SWB, Embarq, SNET, or Windstream service areas, the payphone EUCL will apply. The multiline business/payphone EUCL will apply in the Verizon and Qwest service areas.

(N)

When an end user is provided a local residence exchange service, the EUCL may be reduced for end users eligible for the telephone lifeline assistance plan as approved by the FCC.

End user fees or surcharges may be assessed on Payphone Service Providers, multi-line Businesses, and single line business and residence Customers, when appropriate, to meet funding requirements called for in Universal Service programs ordered in FCC Rules and Regulations and implemented in New York. These programs include Lifeline Assistance, Link-up Assistance, Schools and Libraries funding and Rural Health Care.

5.1.1 Rate Categories

The rate categories will be determined by regulatory rules, but may include any of the following or another method as determined by the FCC:

- Rate per end user line,
- Rate per access minute, or
- Surcharge per line or Surcharge on revenues.

ACCESS SERVICE

6. SWITCHED ACCESS SERVICE

6.1 General

Switched Access Service provides for the use of common switching, terminating, and trunking facilities between a Customer designated premises and an end-user's premises for originating and terminating traffic. The Company provides Switched Access service, which is furnished in quantities of trunks or busy hour minutes of capacity (BHMC). Switched Access Service consists of local transport and the appropriate end office switching and functions to enable an interexchange carrier Customer to provide message toll service (MTS), wide area telephone service (WATS), directory information and 1+, or when required, an access code of 101XXXX services.

6.1.1 Rate Categories

Rate categories and descriptions include the following:

- 6.1.1.1 Local Transport: Local Transport rate categories consist of two elements: Tandem Switched Termination per access minute charge and Tandem Switched Facility rate per mile per access minute charge. A Customer may also request optional features and functions which have appropriate charges.

The Tandem Switched Facility rate recovers a portion of the costs of transmission facilities, including intermediate transmission circuit equipment, between the end points of interoffice circuits (Remote to Host Office and Host/End Office to Tandem.)

The Tandem Switched Termination rate recovers a portion of the costs of circuit equipment necessary for the termination of each end of each measured segment of the Tandem Switched Facility. The Tandem Switched Termination rate applies even if the Tandem Switched Facility mileage is zero.

The Company will work cooperatively with the Customer to arrange routing and serving arrangements.

- 6.1.1.2 End Office/Local Switching: Charges related to the Company local end office switching entity which routes traffic to and from end users to interexchange carrier Customers. The end office rate category includes two elements; Local Switching per access minute of use, and an in Information/Intercept Surcharge per access minutes of use or Information Surcharge per information call use as determined by the serving arrangement.

ACCESS SERVICE

6. SWITCHED ACCESS SERVICE (Cont'd)

6.2 Switched Access Service Specifications – Company Requirements

The provision of Switched Access Service has certain obligations of the Company in addition to those listed in Section 2, preceding. They are as follows:

6.2.1 Network Management

The Company will administer its network to insure the provision of acceptable service levels to all communications users of those services. Generally service levels are acceptable when Customers are able to establish connections without delay. The Company maintains the right to apply protective controls in the provision of Switched Access Service. Generally protective controls would be taken as a result of occurrences such as failure or overload of Company or Customer facilities, natural disasters, mass calling demands, or national security demands.

6.2.2 Transmission Specifications

Each Switched Access Service transmission path is provided with industry standard transmission for its type of service. The Company will work in cooperation with the Customer to insure that those parameters are met. In the event the established specifications are not maintained, the Company may require immediate corrective action and may work independently or in cooperation with the Customer to remedy the situation.

6.2.3 Provision of Service Performance Data

Service Performance data relative to end-to-end call completion and related performance items may be made available to the Customer subject to availability and format on a previously arranged and scheduled basis. Such information will generally be provided in paper format. If other than paper format is desired, charges may apply and would be based on an individual case basis. Trunk Group Measurement reports in the form of CCS, peg count and overflow based on previously agreed to intervals may also be provided.

6.2.4 Testing

Certain testing services offered under the tariff are subject to the availability of qualified personnel and test equipment. Acceptance Testing and Routine Testing will be provided at no additional charge and shall be mutually arranged by the Company and the Customer.

ACCESS SERVICE

6. SWITCHED ACCESS SERVICE (Cont'd)

6.3 Switched Access Specifications – Customer Requirements

The provision of Switched Access Service has certain obligations of the Customer in addition to those set forth in Section 2 preceding, as follows:

6.3.1 Report Requirements

The Customer is responsible for providing reports to the Company, when applicable. Such reports include:

- (a) Jurisdictional Reports – are required when Customer orders Access Service with both intrastate and interstate use so that charges may be apportioned in accordance with those reports.
- (b) Code Screening Reports – are required when Customer orders service class routing, trunk access limitation or call gapping arrangements. The Customer must report the number of trunks and/or appropriate codes to be instituted in each end office for each of the arrangements ordered.
- (c) Trunk Group Measurement Reports – with the agreement of the Customer, trunk group data in CCS, peg count and overflow for its end of all access trunk groups, where technologically feasible will be made available to the Company. These data which will be used to monitor trunk group utilization and service performance, will be based on previously arranged intervals and format.
- (d) Supervisory Signaling – necessary on-hook, off-hook supervision shall be provided by the Customer's facilities in order to provide answer and disconnect supervision.

ACCESS SERVICE

6. SWITCHED ACCESS SERVICE (Cont'd)

6.4 Toll Free Service Access Code Database Service Access Service

Toll Free Service Access Code Data Base Access Service is provided with switched access service. When a 1+ (e.g., 800, 888, or other toll free number) + NXX + XXXX call is originated by an end user, the Company will utilize the Signaling System 7 (SS7) network to query a Toll Free Service Access Code Data Base to perform the identification function. The call will then be routed to the identified Customer over FGD switched access. The manner in which Toll Free Service Access Code Data Base Access Service is provided is dependent on the availability of SS7 service at the end office from which the service is provided as outlined below:

- (1) When Toll Free Service Access Code Data Base Access Service originates at an end office equipped with Service Switching Point (SSP) capability for querying centralized data bases, all such service will be provisioned from that end office.
- (2) When Toll Free Service Access Code Data Base Access Service originates at an end office not equipped with SSP Customer identification capability, the Toll Free Service Access Code call will be delivered to the access tandem on which the end office is homed and which is equipped with the SSP feature to query centralized data bases.

Query charges as set forth following are in addition to those charges applicable for switched access service.

ACCESS SERVICE

6. SWITCHED ACCESS SERVICE (Cont'd)

6.5 Rate Regulations

This section contains a brief description and the general regulations governing the rates and charges that apply for Switched Access Service.

6.5.1 Description and Application of Rates

Switched Access Service rates are generally of two types, usage rates and non-recurring rates. Usage rates may be minute, and/or distance sensitive, occurrence and/or quantity sensitive or combinations of these usage elements. Non-recurring rates are one-time charges that apply for a specific work activity. Examples would include installation of service, rearrangements of service, moves and changes of service, provision of optional features and functions not ordered initially, service date changes, service design changes, cancellation of access, orders for additional engineering, and expedited orders.

6.5.1.1 Minimum Monthly Charge

Switched Access Service is provided subject to a minimum monthly charge for the total capacity provided. The charge shall be calculated based on the sum of the recurring charges of rate elements associated with services ordered, based on a 30-day month.

6.5.2 Special Construction

Subject to FCC regulations and approval, the Company may, where certain Access Services or arrangements are required to meet Customer requirements, utilize rates based on an Individual Case Basis, as reflected in Section 2 – Special Construction.

ACCESS SERVICE

7. MISCELLANEOUS ACCESS SERVICE

7.1 General

Miscellaneous Access Service may be provided by the Company at the request of a Customer on an individual case basis if such service arrangements are: not offered under other sections of this tariff; the facilities utilized to meet the request are of a type normally used by the Company in furnishing service; the service or arrangements are compatible with other services and facilities; the service is available and within the Company's personnel and capital resources. Charges may include non-recurring, recurring and/or special, terminating costs or combinations thereof.

7.2 Services Offered

Miscellaneous Access Services may include, but are not limited to the following: Special Construction; Additional engineering or Labor; Maintenance of Service; New Access Services; Testing Services; Presubscription. Miscellaneous Access Service is provided to Customers on an individual case basis in accordance with rules of the FCC.

7.2.1 Special Construction

Special construction would include the costs for the provision of an Access Service that may not be available over such routes, facilities or equipment normally provided. Provisioning of this service would be on an ICB (Individual Case Basis).

7.2.2 Additional Engineering or Labor

Additional Engineering will apply when requested and approved by the Customer for the following: (1) when a Customer requests additional information subsequent to the Company-provided DLR information; (2) when additional engineering time is required for a customized order; or (3) when a Customer requests a design change and additional engineering time is required.

Additional Labor will apply when requested and approved by the Customer for the following: (1) for overtime installation or repair specifically requested by the Customer outside of normal Company working hours; (2) standby of Company personnel for acceptance testing on installations or cooperative testing in excess of one hour; or (3) when labor is required to meet a specific Customer request not covered by any other section of this tariff.

7.2.3 New Services

New services not previously offered under this tariff will be provided initially on an individual case basis in conformance with FCC rules.

ACCESS SERVICE

7. MISCELLANEOUS ACCESS SERVICE (Cont'd)

7.2 Services Offered (Cont'd)

7.2.4 Testing

When the Customer requests testing which is beyond that which is normally provided at Company locations in connection with Service(s) and at Customer designated premises, additional charges will apply when accepted and approved by the Customer. All testing of this type shall be subject to availability of the necessary qualified personnel and test equipment. A request for testing that is not consecutive with an employee's scheduled work period is regarded as a call out. A minimum call out of four hours will apply.

7.2.5 Presubscription

Presubscription is the process by which an end user Customer may select and designate to the Company an interexchange carrier (IC) for the provision of interstate toll service. This IC is referred to as the end user's pre-designated IC.

New end users will be asked to presubscribe to an IC at the time they place an order with the Company for Telephone Exchange Service. They may select either of the following options. There will be no charge for this initial selection.

- designate a primary IC for all of its lines,
- designate a different IC for each of its lines.

Only one IC may be selected for each individual line, or lines terminating in the same hunt group. Subsequent to the installation of Telephone Exchange Service and after the end user's initial selection of a predesignated IC, for any change in selection, a non-recurring charge applies.

If the new end user fails to designate an IC as its predesignated IC prior to the date of installation of Telephone Exchange Service, the Company will (1) allocate the end user to an IC based upon current IC presubscription ratios, (2) require the end user to dial an access code (101XXXX) for all interstate calls, or (3) block the end user from interstate calling. The end user will be notified which option will be applied if they fail to presubscribe to an IC. An allocated or blocked end user may designate another, or initial, IC as its predesignated IC one time at no charge, if it is requested within six months after the installation of Telephone Exchange Service.

For any change in selection after 6 months from the installation of Telephone Exchange Service, a non-recurring charge applies.

ACCESS SERVICE

7. MISCELLANEOUS ACCESS SERVICE (Cont'd)

7.2 Services Offered (Cont'd)

7.2.5 Presubscription (Cont'd)

If an IC elects to change or discontinue use of a Carrier Identification Code (CIC), the IC will identify to the Company any affected end users and advise the Company of the new CIC to be assigned to these end users. If the CIC change involves a change of carrier for any end users, the IC will notify the affected end users of the change. The Company will change the predesignated carrier code of each end user identified by the IC to the new CIC and bill the IC the non-recurring charge for each end user line or trunk that is changed.

A Customer may initiate a presubscription change at any time. The Company will maintain a listing of all available interexchange carriers and provide them on a random sequential basis to aid the Customer in the selection process. The change of an IC is subject to the appropriate non-recurring charge.

If an IC requests a primary interexchange carrier (PIC) change on behalf of a billed party with the appropriate authorization and the Customer advises the Company the authorization is denied and the IC is unable to substantiate the change, the Customer will be reassigned to its previously selected IC if a change has already taken place and the IC that requested the change will be subject to an Unauthorized PIC Change Charge in addition to the normal PIC change charge.

7.2.6 Maintenance of Service

The Customer shall be responsible for payment of a Maintenance of Service charge when the Company dispatches personnel to the Customer designated premises and trouble is found to be with Customer facilities or equipment.

7.2.7 Specialized Service or Arrangements

Specialized Service or Arrangements may be provided by the Company at the request of the Customer on an individual case basis (ICB) if such services or arrangements meet the following:

- (1) The service(s) or arrangement(s) are not offered under other sections of the tariff (including, but not limited to, Special Access and Frame Relay services);
- (2) The service(s) or arrangement(s) are a type normally used by the Company, the service(s) or arrangement(s) are compatible with other Company Service(s), facilities and engineering and maintenance practices; and
- (3) The offering is subject to availability of Company personnel and capital resources.

ACCESS SERVICE

7. MISCELLANEOUS ACCESS SERVICE (Cont'd)

7.2 Services Offered (Cont'd)

7.2.8 Blocking Service

7.2.8.1 International Blocking Service

The Company will provide International Blocking Service to Customers who obtain Feature Group D Switched Access Service under this tariff. This service is only provided at appropriately equipped Company end offices.

On each line or trunk for which International Blocking Service is ordered, the Company will block all direct dialed international calls that use the call sequence of 011+ the appropriate access code dialing arrangements for international calling. When capable, the Company will route the blocked calls to a recorded message.

An International Blocking Service charge as set forth in Section 9 following is applicable for each new or existing exchange line or trunk or Feature Group D Switched Access line to which International Blocking Service is added or removed. This charge does not apply when blocking is removed from an exchange line or trunk or Feature Group D Switched Access line at the same time that it is disconnected.

Effective: June 20, 2001

ACCESS SERVICE

7. MISCELLANEOUS ACCESS SERVICE (Cont'd)

7.2 Services Offered (Cont'd)

7.2.9 Originating Line Screening (OLS) Service

The Telephone Company will provide OLS Service to end user Customers who obtain local exchange service from the Company under its general or local exchange tariffs. OLS Service enables Customers to determine whether there are billing restrictions on lines from which a call is placed. OLS Service delivers a code on operator assisted calls made from an aggregator location to identify privately owned payphones, inmate and hotel/motel locations.

OLS Service is provided at no charge when ordered with the installation of new local exchange service. However, when OLS Service is added to existing exchange lines, an OLS Service charge is applied as set forth in Section 9.5.4.10. This charge is applied for each exchange line to which an OLS code is assigned. The Customer must specify the number of lines and each individual telephone number equipped.

A Miscellaneous Service Order Charge as set forth in Section 9 will apply to orders adding OLS Service that are placed subsequent to the initial installation of the associated exchange line. This charge does not apply when the OLS code is removed from an exchange line at the same time that it is disconnected.

At the request of the Customer, the Company will confirm OLS codes associated with a line from which a call is placed.

7.2.10 Billing name and Address Service

7.2.10.1 General Description

- (A) Billing Name and Address (BNA) Service is the provision by the Telephone Company, to an interstate service provider who is a Customer of the Telephone Company, of the complete billing name, street address, city or town, state and zip code for a telephone number or calling card account number assigned by the Telephone Company. An interstate service provider is defined as an interexchange carrier, an operator service provider, an enhanced service provider or any other provider of interstate telecommunications services.
- (B) BNA Service is provided only for the purposes of allowing Customers to bill their end users for telephone services provided by the Customer, order entry and Customer service information, fraud prevention, identification of end users who have moved to a new address, any purpose associated with equal access requirement, and information associated with Local Exchange Carrier (LEC) calling calls card calls, collect and third party calls.

BNA information may not be resold or used for any other purpose including, but not limited to, marketing or merchandising activities.

ACCESS SERVICE

7. MISCELLANEOUS ACCESS SERVICE (Cont'd)

7.2 Services Offered (Cont'd)

7.2.10 Billing Name and Address Service (Cont'd)

7.2.10.1 General Description (Cont'd)

- (C) BNA information associated with listed/published telephone numbers will be provided. Requests for BNA information associated with non-published and unlisted telephone numbers will be provided, unless the subscriber to a non-published or unlisted telephone number has affirmatively that requested its BNA not be disclosed.

7.2.11 Undertaking of the Telephone Company

- (A) A standard format for the receipt of BNA requests and the provision of BNA information will be established by the Telephone Company.
- (B) Standard response to BNA requests will be by email. Standard format will be Microsoft Excel spreadsheet. Optional response via CD-ROM will be offered.
- (C) Where facilities are available, the Customer may request an optional specialized output format required to meet a specific Customer need.
- (D) The Telephone Company will make every effort to provide accurate and complete BNA data. The Telephone Company makes no warranties, expressed or implied, as to the accuracy or completeness of this information.
- (E) The Telephone Company will not disclose BNA information to parties other than interstate service providers and their authorized billing agents as defined in 7.2.10.1(A) preceding. BNA disclosure is limited to those purposes as defined in 7.2.10.1(B) preceding.
- (F) The Telephone Company reserves the right to request from an interstate service provider who has placed an order for BNA service, the source data upon which the interexchange carrier has based the order. This request is made to ensure that the BNA information is to be used only for purposes as described in 7.2.10.1(B) preceding. The Telephone Company will not process the order until such time as the interstate service provider supplies the requested data.

(T)
|

ACCESS SERVICE

7. MISCELLANEOUS ACCESS SERVICE (Cont'd)

7.2 Services Offered (Cont'd)

7.2.12 Obligations of the Customer

- (A) Customers shall establish a BNA Customer account with the Telephone Company. (N)
- (B) The Customer shall order BNA Service on a separate BNA Order. The order must identify both the Customer's authorized representative and the address to which the information is to be sent. (T)
- (C) The Customer shall treat all BNA information as confidential. The Customer shall insure that BNA information is used only for the purposes as described in 7.2.10(B) preceding. (T)
- (D) The Customer shall not publicize or represent to others that the Telephone Company jointly participates with the Customer in the development of the Customer's end user records it assembles through the use of BNA Service. (T)
- (E) Upon request, the Customer will provide to the Telephone Company the source data upon which the Customer has based an order for BNA service. The Telephone Company will not process the order until such time as the Customer provides the requested data (T)

7.2.13 Rate Regulations

- (A) A one-time BNA Customer account initiation fee shall apply, as shown in Section 9.5.4. (N)
- (B) For each order for BNA information received by the Telephone Company, a BNA Order Charge applies. In addition, a charge applies for each Customer specific record provided. The BNA Order Charge and the Per Record Charge are specified in Section 9.5.4. (T)
- (C) Where available, the Customer may order an output format other than a standard spreadsheet via email or CD-ROM in order to meet a Customer's specific requirement. This option is subject to an hourly programming charge as specified in Section 9.5.4 following and is in addition to the BNA Order and the BNA Record Charges.

ACCESS SERVICE

8. TELECOMMUNICATIONS SERVICE PRIORITY

8.1 General

This section contains tariff information relative to the provision or treatment of access services for the National Security Emergency Preparedness (NSEP) Telecommunications Service Priority (TSP) System. The NSEP TSP System authorizes priority treatment to certain domestic telecommunications services for which provisioning or restoration priority (RP) levels are requested, assigned, and approved in accordance with the Federal Communications Commission's Part 64 Rules, Subpart D, Section 64.401 with Appendix A for such part.

8.2 Description

The NSEP TSP System is the regulatory, administrative, and operational system authorizing and providing for priority treatment; i.e., provisioning and restoration, of NSEP telecommunication services. As such, it establishes the framework for telecommunication service vendors to provision, restore, or otherwise act on a priority basis to ensure effective NSEP telecommunication services. The NSEP TSP System allows the assignment of priority levels to any NSEP service across three time periods or stress conditions:

Peacetime/Crisis/Mobilizations,
Attack/War,
Post-Attack/Recovery.

Although priority levels normally will be assigned by the Executive Office of the Vice President and retained by service vendors only for the current time period, they may be preassigned for the other two time periods at the request of service users who are able to identify and justify in advance, their wartime or post-attack NSEP requirements.

8.3 Implementation

The Company will in the provision or restoration of its Service(s) and in cooperation with other carriers, within the limits of good management, make available or restore the necessary facilities to provide service or to provide temporary emergency service.

Where appropriate, the Company may make use of government-owned facilities to provide, restore or provide temporary emergency service.

ACCESS SERVICE

9. RATES AND CHARGES

9.1 General

Rates for service will include non-recurring charges, recurring charges for the rate elements or items specified in previous sections of this tariff, miscellaneous charges, or ICB charges or combinations of same and are identified herein.

ACCESS SERVICE

10. WIRELESS TERMINATION

10.1 General Provisions

This section of the tariff details how traffic between Navigator Telecommunications, LLC. and CMRS (Commercial Mobile Radio Service) providers will be billed.

Navigator will use the following default factors to bill CMRS traffic:

2% InterMTA 98% IntraMTA

All categories of traffic will be defaulted as:

75% Terminating (Wireless to Landline)

25% Originating (Landline to Wireless)

These default factors shall be used until revised by mutual agreement or when actual usage records are available.

10.2 Compensation Rate Application

Navigator will bill CMRS providers and be compensated by CMRS providers for the net difference of IntraMTA Traffic between them as described in Paragraph 10.3.1 following at the terminating per MOU rate set forth in Paragraph 10.5 following.

Navigator and CMRS providers contemplate the exchange of InterMTA traffic. Charges for the transport and termination of InterMTA traffic shall be in accordance with Navigator's state commission approved intrastate access tariff or Navigator's interstate access tariff filed and approved by the FCC. Paragraph 10.3.2 following describes how Navigator will bill CMRS providers for this traffic.

10.3 Example of Rate Application

Navigator will prepare its bill in accordance with existing CABS/SECABS billing systems using the following formula:

10.3.1 Navigator will bill CMRS providers for the 50% net difference of the IntraMTA traffic (98% of the total traffic) originated by each CMRS provider and terminated to Navigator and originated by Navigator and terminated to each CMRS provider. This 50% net difference is derived by subtracting the CMRS providers' 25% portion of the total IntraMTA MOUs from Navigator's 75% portion of the total IntraMTA MOUs.

For example: The total IntraMTA traffic (98% of 200K MOU of total traffic) between Navigator and a CMRS provider is 196K MOU. Using the formula described above, Navigator's share of this traffic is 147K MOU (75%) and the CMRS providers' share of this traffic is 49K MOU (25%). The net difference of 98K MOU (50%) is derived by subtracting the CMRS provider share of 49K MOU from the Navigator share of 147K MOU. Navigator would then bill the CMRS provider the net difference of 98K MOU times the terminating compensation rate per MOU of \$0.013.

Issued: October 25, 2005

Effective: November 10, 2005

Louis F. McAlister, President
8525 Riverwood Park Dr.
North Little Rock, AR 72113-0860

ACCESS SERVICE

10. WIRELESS TERMINATION (Cont'd)

10.3 Example of Rate Application, cont'd

- 10.3.2 Navigator will bill CMRS providers for the 50% difference of the InterMTA traffic (2% of the total traffic) originated by each CMRS provider and terminated to Navigator and originated by Navigator and terminated to each CMRS provider. This 50% net difference is derived by subtracting the CMRS providers 25% portion of the total InterMTA MOUs from Navigator's 75% portion of the total InterMTA MOUs.

For example: Using the same billing cycle traffic used in the example in Paragraph 10.3.1 above, the total InterMTA traffic (2% of 200K MOU of total traffic) between Navigator and a CMRS provider is 4K MOU. Using the formula described above, Navigator's share of this traffic is 3K MOU (75%) and the CMRS providers' share of this traffic is 1K MOU (25%). The net difference of 2K MOU (50%) is derived by subtracting the CMRS provider share of 1K MOU from the Navigator share of 3K MOU. Navigator would then bill the CMRS provider the net difference of 2K MOU times the charges contained in Navigator's intrastate or interstate access tariffs as described in Paragraph 10.2 above.

10.4 Timing

Navigator and CMRS providers will exchange billing information on a monthly basis. Payment arrangements are as shown in Section 2.4.

10.5 IntraMTA Terminating Compensation Rate

	<u>Per Terminating Conversation Minute</u>
Termination (End Office switching)	\$0.013
