## ACCESS SERVICE

7. Special Access Service (Cont'd)7.2 Rate Regulations (Cont'd)7.2.10 Ethernet Virtual Private Line

The rates and charges for Ethernet Virtual Private Line (EVPL) service are set forth in Sections 18.3.12 and 20.3.12 following and are in addition to any applicable rates and charges set forth in any other sections of this tariff. Monthly recurring rates and nonrecurring charges applicable for EVPL service are billed in advance.

(C)

(A) Monthly recurring charges are flat recurring rates that apply each month or fraction thereof that a specific rate element is provided regardless of the amount of usage. For billing purposes, each month is considered to have 30 days.

(B) Nonrecurring charges are one-time charges that apply for a specific work activity (i.e., installation of service or change to an existing service) and are developed at full cost recovery on a labor hours per labor time basis. In addition, an EVPL Reconfiguration charge, as set forth in 18.3.12 and 20.3.12 following, will apply for each Ethernet Virtual Connection (EVC) or Quality of Service (QoS) established initially or when the customer requests the EVC or QoS be reconfigured after the initial set up. The EVPL Reconfiguration charge is in addition to all applicable charges associated with the new configuration. The EVPL Reconfiguration charge will not apply to customers who purchase EVPL under the 7 year Fixed Rate Term Plan (FRTP).

(C)

Special construction charges, as set forth in CenturyLink Operating Companies Tariff F.C.C. No. 5, may apply when technical limitations and/or lack of facilities exist, or if it is necessary to construct facilities to satisfy service requests.

## ACCESS SERVICE

7. Special Access Service (Cont'd)7.2 Rate Regulations (Cont'd)7.2.10 Ethernet Virtual Private Line (Cont'd)(C) Term Discount Plan

An Ethernet Virtual Private Line Term Discount Plan (TDP) is available for EVPL service and applies to UNI and NNI port connections, EVPL channel mileage, EVC connections and the QoS. A TDP provides the customer discounted rates for the rate elements listed.

The customer has the option of ordering EVPL under a term commitment period of 3 years or 5 years. The customer must notify the Telephone Company in writing the length of its selected term commitment period. In order for a circuit to be eligible for TDP pricing, the customer must commit a UNI and/or NNI port connection to a TDP. All committed ports must be ordered for the same term commitment period (i.e., all 3 years or all 5 years) and remain in-service at the same bandwidth capacity throughout the entire term commitment period. UNI or NNI port connections installed after the establishment of the customer's TDP may be ordered on a month-to-month basis or added as additional committed ports to a customer's existing term commitment period as described in (1) following.

The monthly rates for EVPL service under a TDP are set forth in 18.3.12 and 20.3.12 following.

## ACCESS SERVICE

7. Special Access Service (Cont'd)7.2 Rate Regulations (Cont'd)7.2.10 Ethernet Virtual Private Line (Cont'd)(D) Fixed Rate Term Plan

An Ethernet Virtual Private Line Fixed Rate Term Plan (FRTP) is available for EVPL service and applies to UNI and NNI port connections, EVPL channel mileage, EVC connections and QoS. A FRTP provides the customer discounted rates for the rate elements listed below.

The customer orders the EVPL FRTP under a term commitment period of 7 years. In order for a circuit to be eligible for FRTP pricing, the customer must commit a UNI and/or NNI port connection to the FRTP. All EVPL circuits ordered under the FRTP will begin in month one.

The monthly rates for EVPL service under a FRTP are set forth in 18.3.12 and 20.3.12 following.

(C)

Although the customer commits the UNI and NNI port connections to the FRTP, the following rate elements will receive FRTP rates:

UNI Port Connection  
NNI Port Connection  
EVPL Channel Mileage  
EVC Connection  
QoS

The EVPL Channel Mileage and QoS rate elements will not apply to secondary EVCs. The primary EVC and secondary EVC must terminate at the same location and the secondary EVC going to the customer designated premises shall be equal in bandwidth to that of the primary EVC. The customer will designate which EVC is to be utilized at any time as the primary EVC. Both EVCs cannot be used simultaneously as the primary EVC.

## ACCESS SERVICE

7. Special Access Service (Cont'd)7.2 Rate Regulations (Cont'd)7.2.10 Ethernet Virtual Private Line (Cont'd)(D) Fixed Rate Term Plan (Cont'd)

The customer may move the EVPL circuit and replace it with another EVPL circuit at a different location during the 7 year term commitment without early termination liability charges provided (1) the customer agrees to retain the new EVPL circuits at the new location for the remainder of the 7 year term period; (2) the relocated EVPL circuit is of equal or greater value to the one being removed; and (3) customer submits the orders for the disconnection of the existing EVPL circuit and the installation of the new EVPL circuit at the new location at the same time.

If the provisions set forth in the previous paragraph are not met, then termination liability charges, set forth in (2) following, will apply for the customer's failure to satisfy the term commitment period requirement for their committed port connections.

Nonrecurring charges will not apply to EVPL arrangements installed under a FRTP. Monthly rates for the entire 7 year term commitment period of the FRTP will not be increased by the Telephone Company for the 7 year term commitment period for each EVPL arrangement.

At the end of the 7 year term commitment period, the customer may subscribe to a new 7 year FRTP for EVPL service. If the customer does not notify the Telephone Company in writing within 60 calendar days prior to the expiration of the 7 year term commitment period of their intent to renew their FRTP, the EVPL rates will convert to the prevailing month-to-month rates set forth in Sections 18.3.12 and 20.3.12 following; or the customer may elect to commit to any other term plan that may be offered by the Telephone Company that is in effect at the time of expiration of their FRTP.

## ACCESS SERVICE

7. Special Access Service (Cont'd)7.14 Ethernet Virtual Private Line (Cont'd)7.14.1 Basic Service Description (Cont'd)(E) Quality of Service (Cont'd)

- Silver: The Silver QoS supports interactive video applications. The Silver QoS is policed to a maximum bandwidth.
- Best Effort: This QoS is the default QoS for other traffic that is not defined as Gold or Silver. Traffic that does not match any other QoS will be mapped as Best Effort. Traffic with the Best Effort QoS will have the lowest priority on the network and will support lower priority data applications, such as email and file transfer protocol (FTP).

EVPL reporting is available to customers who purchase the Gold or Silver QoS EVPL service. EVPL reporting allows customers to view their EVPL network via the use of a web interface and secure connection. EVPL reporting provides alarm surveillance, service level agreement reporting and performance report for the various network components that comprise the customer's EVPL network.

Rates and charges for EVPL are set forth in 18.3.12 and 20.3.12 following.
