The Telephone Company will provide End User Access Service (End User Access) to end users who obtain local telephone exchange service from the Telephone Company under its general and/or local exchange tariffs.

4.1 General Description

End users that do not select a Primary Interexchange Carrier, as defined in 13. following, are subject to the PICC regulations with the exception of pay telephone service providers, whose pay telephone lines are excluded from PICC regulations. In addition, end users that are eligible for a reduced EUCL as set forth in 4.6.1(K), (M), (N), or (O) following and have toll blocking as provided under the general and/or local exchange tariffs are not subject to the PICC regulations.

## ACCESS SERVICE

4. End User Access Service (Cont'd)4.6 Rate Regulations

The End User Common Line and any applicable End User Port monthly charges, and any applicable Access Recovery Charge (ARC) will be billed to the end user of the associated local telephone exchange service.

(C)  
(C)

The Access Recovery Charge is assessed on End User common lines to recover some or all of the Telephone Company's eligible recovery of access charge reductions resulting from the Federal Communication Commission's intercarrier compensation reform required pursuant to its Report and order in WC Docket No.s 10-90 et. al. , FCC No. 11-161 (November 18, 2011) and related rules.

(N)  
|  
(N)

The total number of Telephone Company-provided lines and trunks, excluding pay telephone lines, for which the interexchange carrier customer has been selected as the predesignated carrier for interLATA, interstate calls, as defined in 13. following, will be multiplied by the appropriate Presubscribed Interexchange Carrier Charge (PICC) on a monthly basis as set forth in 31.4 following and assessed to the primary interexchange carrier of the associated local telephone exchange service. The Telephone Company will update its PICC information on the first Saturday of each month. If PIC NONE, as defined in 13. following, is designated on any lines or trunks, the appropriate PICC will be assessed to the end user customer subscribing to the line or trunk.

The Telephone Company will make reasonable efforts to change the end user line designation to PIC NONE, as described in 13.3.3(B)(4)(a) following. However, if the Telephone Company is unable to accomplish the change prior to the PICC update, the Telephone Company will continue to assess the PICC to the interexchange carrier customer until the following month's update.

The application of these rates is described in 4.6.1 and 4.6.2 following. End User Access Service rates are set forth in 31.4 following.

## ACCESS SERVICE

4. End User Access Service (Cont'd)4.6 Rate Regulations (Cont'd)4.6.1 End User Common Line, Access Recovery Charge and Presubscribed Interexchange Carrier Charges (C)

The EUCL, ARC and PICC Residence Subscriber rate regulations are designated as either Primary or Non-Primary. The Primary rate is assessed to the residential subscriber line which is any or all of the following: (1) the only line provided at that service location; (2) the line designated as Primary by the billed party or parties at that service location when first ordering local service; or (3) the first line installed at that location. Any additional residence exchange lines at the same service location, regardless of the named subscriber, will be assessed the Non-Primary rate. If the Primary line disconnects, the Non-Primary line with the greatest length of service will become the Primary line. Only one line at a service location can be classified as Primary, and all others are considered to be Non-Primary. A service location is defined as the Service Address by the Telephone Company using its billing and service records. (C)

The Telephone Company will use its own service records in the designation of an exchange residence line as Primary or Non-Primary. Such service records typically contain Customer Class of Service, Universal Service Order Codes (USOCs), Field Identifiers (FIDs), Service Address and other information which will assist the Telephone Company in the designation.
