ACCESS SERVICE

7. Special Access Service (Cont'd)7.12 Ethernet Virtual Private Line (Cont'd)7.12.1 Basic Service Description (Cont'd)(C) Ethernet Virtual Private Line (EVPL) Channel Mileage

EVPL channel mileage charges apply to EVPL service based on the service speed and when the total distance associated with the data channel exceeds 30 miles between Telephone Company serving wire centers. EVPL channel mileage provides transport between two Telephone Company serving wire centers. Air mileage is measured using V&H coordinates between the Telephone Company serving wire centers. The EVPL channel mileage rate element will be applied on a per mile basis for each mile exceeding the first 30 miles of transport. (C)

(D) Ethernet Virtual Connection (EVC)

The EVC connects two or more customer UNI port connections. The EVC prevents data transfer between locations that are not part of the same EVC. The EVC is available at speeds of 10 Mbps, 20 Mbps, 30 Mbps, 40 Mbps, 50 Mbps, 70 Mbps, 100 Mbps, 200 Mbps, 300 Mbps, 400 Mbps, 500 Mbps, 700 Mbps and 1000 Mbps (1 Gbps).

EVC reconfigurations performed by the core network under normal operating conditions should occur without packet loss. An EVC is capable of interconnecting with other EVCs of equal bandwidth in the same metropolitan area.
