SECTION 1 INTRODUCTION AND SUMMARY

Introduction

The Consolidated Communications Companies, consisting of Consolidated Communications of Texas Company d/b/a Consolidated Communications and Consolidated Communications of Fort Bend Company d/b/a Consolidated Communications, hereby provide a Description and Justification for its limited Tariff Review Plan revisions to F.C.C. Tariff No. 1 with individual company rates (Section 17 and Section 18, respectively), along with supporting documentation proposed under transmittal 38 of the Consolidated Communications Companies. This information is being filed in accordance with the Commission's 2012 TRP Notice released March 28, 2012 (DA 12-482 and DA 12-575) and fulfills the requirements established in Sections 61.41 through 61.49 of the Commission rules.

Description of the Consolidated Communications Companies Operations

The Consolidated Communications Companies (CCC) consists of two separate legal entities: Consolidated Communications of Texas Company (CCTX) d/b/a Consolidated Communications and Consolidated Communications of Fort Bend Company (CCFB) d/b/a Consolidated Communications. Both of these entities are price cap companies pursuant to FCC Order DA 08-1026¹ that fall under Sections 61.41 through 61.49 of the Commission's Rules and relevant Commission Orders.² They provide local service, toll, private line services, access services, DSL, CLASS services, and other modern telecommunications services to their customers.

CCTX originated with three separate telephone companies that merged over the years. Lufkin Telephone Exchange officially began business in 1898 and was incorporated in the state of Texas in 1910. Conroe Communications Company began providing service in the Conroe area in 1899 and was purchased by the owners of Lufkin Telephone Exchange and incorporated as the Conroe Telephone Company in 1929. The Alto Telephone Company was purchased in 1963. Ownership of the 3 entities was consolidated in 1969 to form Lufkin-Conroe Communications Company. In 1997, Lufkin-Conroe Communications Company and its subsidiaries were purchased by Texas Utilities Company and became TXU Communications Telephone Company. In April 2004, Consolidated Communications, Inc. purchased the company, changing the name to Consolidated Communications of Texas Company (CCTX).

CCTX is a rural East Texas telecommunications carrier providing service to approximately 87,000 access lines in two distinct market areas: Conroe and Lufkin. The 16 communities served include: Alto, Apple Springs, Central, Conroe, Cut-N-Shoot, Diboll, Etoile, Fuller Springs, Grangerland, Hudson, Lake Conroe, Lufkin, Montgomery, Riverbrook, Walden, and

¹ See, Order, Consolidated communications Petition for Conversion to Price Cap Regulation and for Limited Waiver Relief, DA 08-1026.

² See, Order, July 2012 Annual Access Charge Tariff Filings, released March 28, 2012, DA 12-482 ("2012 Filing Order"); and Tariff Review Plans, Material to be filed in support of 2012 Annual filings, DA 12-575, released April 19, 2012 ("2012 TRP Order").

Wells. The 7 exchanges of the Conroe market area contain approximately 54,000 access lines, primarily in Montgomery County.

The Lufkin market area serves 9 exchanges and 33,000 access lines in a separate area 85 miles north of the Conroe area, centered on the city of Lufkin in Angelina County. The area economy is supported primarily through manufacturing of paper and metal products, retail sales, service companies, government entities, and farming.

CCFB began business in 1898 as Fort Bend Telephone Company and was incorporated in Texas in 1910. In May 2000, Fort Bend Telephone Company and its affiliates were purchased by Texas Utilities Company and became Fort Bend Telephone Company d/b/a TXU Communications. In April 2004, TXU Communications, including Fort Bend Telephone Company, was purchased by Consolidated Communications, Inc., which changed the name to Consolidated Communications of Fort Bend Company (CCFB).

CCFB is also a rural carrier with approximately 32,000 access lines in 5 East Texas exchanges: Beasley, Brookshire, Damon, Katy, and Needville. CCFB possesses the same rural characteristics as CCTX, providing service in Brazoria, Harris, Fort Bend and Waller counties.

SECTION 2 OVERVIEW OF FILING PACKAGE

Tariff Support Material

This support material is submitted pursuant to Part 61.49 of the Federal Communications Commission (Commission) Rules and Regulations and the Order issued in WCB/Pricing 12-07, July, 2012 Annual Access Charge Tariff Filings released March 28, 2012, and Tariff Review Plans issued in WCB/Pricing 12-08, Material to be Filed in Support of 2012 Annual Access Tariff Filings, released April 19, 2012.

In addition to the description and justification contained in this volume, the following information is submitted to provide specific support data at the proposed tariff level of detail for the Consolidated local operating companies.

Description and Justification

SECTION 3 TARIFF SUPPORT

PCI Development

In Accordance with the Commission's Rules, the PCI for each service basket were calculated as shown in Exhibit 2, RDEV-1, Page 1 of 3. A GDP-PI factor of 2.1486% was used in calculating the PCI and is based on the percentage change in the Gross Domestic Product Price Index (GDP-PI) between the quarter ending December 31, 2011 and the corresponding quarter of the 2010 GDP-PI.

As directed by the Commission,³ a workpaper identifying the transmittal or letter filing date where the last index changes were implemented for the price cap categories has been included in Exhibit 2, RDEV-1, Page 3. Also, pursuant to DA 08-1026⁴, Consolidated has excluded ICLS receipts from its CMT PCI calculations.

The prospective PCI values for the Special Access Basket are calculated using formula found in 61.45(b) of the Commission's rules. Calculation of PCI values is shown in Exhibit 2, RDEV-1, Page 1 of 3.

Determination of Exogenous Changes

In Accordance with the Commission's Rules, Consolidated developed certain exogenous changes for inclusion in the price cap formula. These changes include: (1) North American Number Plan Administration; (2) Regulatory Fees; and (3) Telecommunications Relay Service Fees.

Exogenous cost changes were individually developed for each of the items outlined above, and in the aggregate for all changes. Consolidated used base year 2010 (time of its last tariff filing) to estimate exogenous costs embedded in rates. Consolidated has also normalized the exogenous amounts to reflect any shift in revenue growth. The result is that no exogenous adjustment is made if the support rate has not changed. In other words the rate per line remains unchanged if the factor is unchanged. A brief description of each change follows and a summary of the exogenous changes is shown in Exhibit 2, RDEV-1, Page 2 of 3. The detail of the exogenous changes is shown in its TRP, Form EXG-1, Pages 1 and 2.

³ 2012 TRP Notice, Supra., Paragraph 11.

⁴ See, Order, Consolidated Communications Petition for Conversion to Price Cap Regulation and for Limited Waiver Relief, DA 08-1026 para 18.

North American Numbering Plan Administration

On June 27, 2001, the Federal Communications Commission release an order approving the compensation plan for the North American Numbering Plan Administration (NANPA) for fiscal year 2001.⁵ The Commission reviewed and accepted the North American Numbering Plan Administrator submission and ordered that a contribution factor of 0.0000254⁶. This factor is used as an estimate for application to end user revenues of each telecommunications carrier in the United States to fund the program for the 2012 fiscal year (July 2012 to June 2013). The impact of the NANPA support has been included as an exogenous cost in this filing as shown in Exhibit 2, RDEV-1, Page 2 of 3.

Regulatory Fees

Earlier Commission decisions⁷ allow local exchange companies to reflect the impact of regulatory fees as an exogenous cost in annual price cap filings. The impact of regulatory fee changes for the July 2012 – June 2013 fiscal year was calculated using a factor of .00375 as prescribed in the Commission's *Regulatory Fee Order*,⁸ and has been used as an estimate and included as an exogenous cost in this filing and is shown in Exhibit 2, RDEV-1, Page 2 of 3. In addition, because of the timing of last year's regulatory fee order, CCC elected to leave its last annual filing unchanged and reflect the difference in this year's filing. Because of this event, it is now necessary to normalize the exogenous rate over the full year thereby reversing the accelerated ratemaking. This exogenous allocation can be seen in RDEV-1, Page 2a.

Telecommunications Relay Service

The Americans with Disabilities Act (ADA) required that all common carriers providing interstate voice telecommunications provide Telecommunications Relay Service (TRS) to customers effective July 26, 1993. In its *Third Report and Order* in CC Docket No. 90-571,⁹ the Commission required that all common carriers providing interstate telecommunications services contribute to an interstate shared fund to support the TRS function. The impact of the TRS exogenous cost for this filing is calculated using the .001058 as prescribed in the Commission's *TRS Order*¹⁰ and is displayed on Exhibit 2, RDEV-1, Page 2 of 3. In addition, because of the

⁵ *In the Matter of Administration of the North American Number Plan*, CC Docket No. 92-237 and *North American Number Plan Cost Recovery Contribution Factor and Fund Size*, NDS File No. L-00-72, Order (DA 01-1524), released June 7, 2001 (NANP Order)

⁶ *In the Matter of Administration of the North American Numbering Plan*, Proposed North American Numbering Plan Administration Fund Size Estimate and Contribution Factor for July 2012 through June 2013 (filed May 21, 2012) Public Notice, DA 12-799, CC Docket No. 92-237.

⁷ *Price Cap Treatment of Regulatory Fees Imposed by Section 9 of the Communications Act*, 9 FCC 6060 (1994), erratum (November 2, 1994).

⁸ *In the Matter of Assessment and Collection of Regulatory Fees for Fiscal Year 2011*, Notice of Proposed Rulemaking, (filed July 22, 2011) FCC Order 11-114, MD Docket 11-76 (*Regulatory Fee Order*).

⁹ *In the Matter of Telecommunications Relay Services and the Americans with Disabilities Act of 1990*, Third Report and Order, CC Docket No. 90-571, released July 20, 1993 (*Third Report and Order*).

¹⁰ *National Exchange Carrier Association submits payment formulas and funding requirements for the Interstate Telecommunications Relay Service Fund for the July 2011 through June 2012 fund year*, CG Docket No. 03-123, FCC Order 11-104, Released June 30, 2011

timing of last year's TRS order, CCC elected to leave its last annual filing unchanged and reflect the difference in this year's filing. Because of this event, it is now necessary to normalize the exogenous rate over the full year thereby reversing the accelerated ratemaking. This exogenous allocation can be seen in RDEV-1, Page 2a.

Rate Detail and other Exhibits

Rate Detail files will be submitted as part of the Consolidated TRP submission to display demand quantities, current rates, proposed rates, and the associated quantities for the specific baskets. For CMT, proposed SLC rates are set at current capped levels pursuant to Consolidated's price cap order¹¹ and PCCC and CCL rates continue to be zero. For non-CMT baskets, PCI, SBI, and sub-index calculations are shown.

Consolidated also includes a revenue impact analysis in Exhibit 3, RDET1 to display overall impacts of any rate changes in the filing.

Additional Forms were added as a result of the November 18, 2011 release of the *USF/ICC Transformation Order*,¹² and are attached as exhibits to the filing as follows:

ARC Spreadsheet (CONFIDENTIAL) – The ARC Spreadsheet demonstrates the calculations necessary to arrive at an ARC rate for filing carriers. This is a new spreadsheet in the TRP created to comply with section 51.915(e) of the Commission's rules.¹³

Access Reduction Spreadsheet (CONFIDENTIAL) – The Access Reduction spreadsheet identifies the rates that are required to be reduced pursuant to section 51.907(b)-(g) of the Commission's rules and calculates the amount of the reductions. The spreadsheets also show the calculation of a price cap ILEC's eligible recovery pursuant to section 51.915(d) of the Commission's rules. This is a new spreadsheet in the TRP created to comply with sections 51.907(b)-(g) and 51.915(d) of the Commission's rules.¹⁴

The Access Reduction Spreadsheet establishes the rates in effect as of December 29, 2011 for both its intrastate and interstate components (see columns A and B). To determine "billed" and "collected" revenue, Consolidated used the following review and analyses:

Billed Revenue

To determine the FY2011 revenue, Consolidated downloaded monthly billing details for the the period of 10/1/2010 through 9/30/2011. Using the monthly reports, Consolidated performed

¹¹ See, Order, Consolidated Communications Petition for Conversion to Price Cap Regulation and for Limited Waiver Relief, DA 08-1026 para 17.

¹² See *USF/ICC Transformation Order*, 26 FCC Rcd at 17934-35, para. 801 (although many of the switched access rate elements are subject to the transition adopted, other rates are not being specifically reduced at this time.) See also *id.* At 18109-115, paras. 1297-1314 (seeking comment on the appropriate transition for rate elements not specifically addressed in the Order).

¹³ 47 C.F.R. §51.915(e)

¹⁴ *Id.* At §§ 51.907(b)-(g), 51.915(d).

several data filters to extrapolate demand and revenue by carrier, jurisdiction and rate element. Consolidated filtered out any prior period billing from these data exports. The filtered data was then copied into the fiscal year summary.

Collected Revenue

To determine the actual collected revenue as of March 31, 2012, Consolidated evaluated the Carrier Aging Report as of April 1, 2012. Using this report Consolidated was able to identify any carrier with unpaid balances of that date. From there, Consolidated reviewed the actual carrier bills to determine to any unpaid balance that was specific to the fiscal year billed revenue for the intrastate jurisdiction. To achieve this result, a monthly CABS report was reviewed to determine what invoices, between the bill period October 2010 to September 2011, had an unpaid balance as of March 31, 2012. The CABS report is automatically generated by the billing system, and lists all the balances due by carrier and by invoice month. The report from the April 2012 billing was the source of the unpaid balance analysis. The report contains a column that has the original billed amount and another column that shows the current unpaid balance for that invoice. Using the two columns a percentage of revenues collected compared to revenues billed was calculated. Consolidated excluded all Late Payment Charges (LPC) in the analysis.

Consolidated then developed a percentage split between originating and terminating collected revenues based on relative intrastate terminating MOU demand divided by the total intrastate MOU demand (both originating and terminating) for the period. Making an assessment of “collected only” terminating revenues to develop fiscal year 2011 collected intrastate terminating demand (see column D), Consolidated calculates the price out of intrastate terminating demand using both intrastate and interstate rates (see columns E and F). A calculation is then made to determine the amount equal to 50% of the difference between the price out columns (see column G). Proposed intrastate terminating rates are then input (see column H). The rates highlighted in green will be changed in the company’s intrastate access tariffs. Using the input proposed rates, a new price out is calculated using intrastate terminating demand (see column I). This new price out is compared to the price out using the original rates (column E) to calculate the difference between the original and proposed revenues (column J). The total of Column J is then reconciled to the required price out (column G) to ensure that the 50% reduction threshold is met.

Reciprocal Compensation Spreadsheet (CONFIDENTIAL) – The Reciprocal Compensation spreadsheet demonstrates the calculations necessary to comply with section 51.705 of the Commission’s rules and calculates the eligible recovery for reciprocal compensation rate reductions pursuant to section 51.915(d). This is a new spreadsheet in the TRP created to comply with section 51.705 and 51.915(d) of the Commission’s rules.¹⁵

Eligible Recovery Spreadsheet - The Eligible recovery sheet is created to summarize eligible recovery outputs by operating company from the access reduction, reciprocal compensation, and TRP exogenous forms.

¹⁵ *Id.* At §§ 51.705, 51.915(d).

Tariff Rate Comparison (CONFIDENTIAL) – The Tariff Rate Comparison sheet is created to show the implementation of ARC rates in exchanges in relation to the FCC revenue benchmark restrictions in the ICC Transformation Order.
