### 1.1.3 EXPLANATION OF SYMBOLS - Coding Of Tariff Revisions

Revisions to this tariff are coded through the use of symbols. These symbols appear in the right margin of the page. The symbols and their meanings are:

R - to signify reduction.  
I - to signify increase.  
C - to signify changed regulation.  
T - to signify a change in text but no change in rate or regulation.  
S - to signify reissued matter.  
M - to signify matter relocated without change.  
N - to signify new rate or regulation.  
D - to signify discontinued rate or regulation.  
Z - to signify a correction.

Other marginal codes are used to direct the tariff reader to a footnote for specific information. Codes used for this purpose are lower case letters of the alphabet, e.g., x, y and z. These codes may appear beside the page revision number in the page header or in the right margin opposite specific text.

**Location of Material** - To locate material in this tariff, refer to the Master Table of Contents on Page 2 for the page number of the Section desired. For a more precise listing, refer to the detailed Table of Contents which starts on Page 3.

**Computation of Charges** - The charge for an BTS call is based on such factors as: (1) the distance between the rate centers of the originating (calling) and terminating (called) stations; (2) the time of day and the day of the week when the call takes place; (3) the duration of the call; (4) the class of service; and (5) Other Line charges or service charges, when applicable. The specific factors which apply to a given BTS call are listed in the rate section applicable to the service.

**BUSINESS TELECOMMUNICATIONS SERVICE**

**3.10. DEFINITIONS**

**Access Line** - a transmission path that connects a Customer premises to an AT&T Central Office.

**Access Line Grouping** - an access line or group of access lines with the same assigned Software Defined Network identifying number, Global Software Defined Network Service identifying number, or with the same assigned Hospitality Network Service identifying number. A group of access lines for a Software Defined Network Service may be either local exchange service access or special access lines, but must be all of one type. Global Software Defined Network Service uses either special access lines or local exchange service access. Special access lines must be between one Customer premises and one AT&T Central Office to be an Access Line Grouping.

**ANI** - ANI (Automatic Number Identification) refers to the delivery of the calling party's billing number by a local exchange carrier to any interconnecting carrier for billing or routing purposes and to the subsequent delivery of such number to end users.

**Assembly** - a configuration consisting of Customer equipment and/or a Customer-provided communications system or systems, which is connected to BTS.

**AT&T Central Office** - the physical point of access for a service to the AT&T interoffice network. Criteria for establishing AT&T Central Offices and a list of AT&T Central Offices with services provided are in Tariff F.C.C. No. 10.

**AT&T Local Exchange Services** - Local Services offered pursuant to State Tariffs of AT&T and/or wholly-owned subsidiaries of AT&T. AT&T Digital Link Local Service and any local services provided by Teleport Communications Group Inc. (TCG) or subsidiaries of TCG are not included in this definition.

**AT&T long distance service** - the direct distance dialing capabilities of the BTS network (i.e., Dial Station calls). (T)  
(T)

**AT&T Digital Link Local Service** - Local Service calling whose usage, e.g., minutes of use or usage billing is eligible for discount under, and contributes towards the satisfaction of commitments for various Volume and/or Term and Discount Plans (Plans) for Services offered under this Tariff which include intrastate usage. These Plans include intrastate usage/usage billing for the satisfaction of usage/revenue commitments and provide discounts in AT&T State Tariffs for intrastate calling or interstate discounts in this Tariff based on intrastate usage/usage billing.

Issued: August 30, 2012

2nd Revised Page 56  
Cancels 1st Revised Page 56  
Effective: August 31, 2012

**BUSINESS TELECOMMUNICATIONS SERVICE**

**3.10. DEFINITIONS (continued)**

**Charge Number** - refers to the delivery of the calling party's billing number in a Signaling System 7 environment by a local exchange carrier to any interconnecting carrier for billing or routing purposes, and to the subsequent delivery of such number to end users.

**Collect Call** - a billing arrangement which bills the charge for an BTS call to the called station's telephone number.

**Commonwealth of the Northern Mariana Islands (includes Saipan)** - CNMI

**Commercial Calling Card** - A Calling Card issued by AT&T or a Local Exchange company that is billed to an account associated with a line for which the subscriber pays a rate that is described solely as a business or commercial rate in the applicable Local Exchange Company tariff for switched services; or a Credit/Charge Card issued by a non-carrier to a Customer whom the issuer defines as a Commercial or Business account.

**Cooperative LEC** - A local exchange company with which AT&T has made cooperative business arrangements for operational functions such as bill preparation, service provisioning and customer support. Services provided by a Cooperative LEC associated with the Customer's subscription to a service provided under this Tariff are considered intrastate services for purposes of this Tariff.

**Company** - AT&T, its Concurring Carriers and its Connecting Carriers, (T)  
either individually or collectively.

**Consumer Calling Card** - Any Calling Card that is not a Commercial Calling Card.

**Cross-Reference Billing** - An option wherein Customers of AT&T Corporate Calling Card Service may be billed via a commercial credit card account.

**Customer** - the person or legal entity which orders BTS (either directly or through an agent) and is responsible for payment of tariffed charges for services furnished to that Customer.

**Customer-Provided Communications System** - dedicated private line channels and equipment (e.g., microwave or cable system) furnished by the Customer for communications between premises.

**Customer Dialed Calling Card Station** - that service where the charges for the call are billed to a Company authorized Calling Card.

**Customer Equipment** - terminal equipment, a multiline terminating system or protective circuitry located at a non-Company premises.

Issued: August 30, 2012

**BUSINESS TELECOMMUNICATIONS SERVICE**

**3.10. DEFINITIONS**

**Customer-Provided Test Equipment** - non-Company test equipment which is located at a Customer or Users premises and is used for the detection and/or isolation of a communications service fault.

**Dial Station** - that service where the person originating the call dials the telephone number desired, completes the call without the assistance of a Company operator and the call is billed to the originating number.

**Direct Electrical Connection** - a physical connection (i.e., not through a switch) of the electrical conductors in a communications path.

**Dual Party Relay (DPR)** - see Telecommunications Relay Service.

**800 Service** - service that is called either AT&T 800 Service or AT&T Toll-Free Service.

**Electronic Funds Transfer** - Transmission of monetary payment to a Customer or vendor account in lieu of cash, check or other payment instrument.

**Exchange** - a unit established by the Local Exchange Company for the administration of communications service in a specified area which usually embraces a city, town, or village and its environs. It consists of one or more central offices together with the associated plant used in furnishing communications service within that area.

**Exchange Area** - the territory served by an exchange.

**Future Value Long Distance Certificates** - are AT&T long distance certificates that increase in value over time. (T)

**Grandfathered** - a term which describes Customer Equipment that was directly connected as specified below and that is grandfathered under Part 68 of the Federal Communications Commission's Rules and Regulations because:

- A. The terminal equipment was directly connected to the telecommunications network or local exchange service prior to July 1, 1979.
- B. The multiline terminating system was directly connected to the telecommunications network or local exchange service prior to January 1, 1980.
- C. The protective circuitry was directly connected to the telecommunications network or local exchange service prior to the dates set forth in A. and B. preceding.

**HIGH CAPACITY (HICAP)** - As used with AT&T MultiQuest HICAP Service, denotes a call handling capacity of greater than 1800 calls per minute.

**HOME RATE AREA (HRA)** - The geographic region licensed to the Cellular Carrier by the Federal Communications Commission where cellular calls are rated at the home rate.

**8. Rates (continued)**

**8.6. AT&T BUSINESS LONG DISTANCE SERVICE (Cont'd)**

**8.6.1. Minimum Usage Charge (Cont'd)**

**A. Application of Minimum Usage Charge (Cont'd)**

The Minimum Usage Charge does not apply when the AT&T Business Long Distance Service Main Billed Account is furnished to the Customer for less than a full billing month due to the Customer establishing or discontinuing such Main Billed Account during a monthly billing cycle, except as otherwise expressly provided in this tariff.

Minimum Usage Charge is accrued in full as of the first day of the billing cycle in which service is furnished. Therefore, the Minimum Usage Charge is not subject to pro-rating, if service is disconnected prior to the end of a billing cycle.

MINIMUM USAGE CHARGE

- per Main Billed Account     \$20.95

Example: if the charges billed to the Customer's Main Billed Account are less than \$100.00, the Customer will be billed the actual charges incurred plus the Minimum Usage Charge. If the actual charges billed to the Customer's Main Billed Account are \$100.00 or greater, the Minimum Usage Charge does not apply.
