## ACCESS SERVICE

2. General Regulations (Cont'd)2.4 Payment Arrangements and Credit Allowances (Cont'd)2.4.1 Payment of Rates, Charges, Advanced Payments and Deposits (Cont'd) (C)

- (D) Adjustments for the quantities of services established or discontinued in any billing period beyond the minimum period set forth for services in other sections of this tariff will be prorated to the number of days or major fraction of days based on a 30 day month except for the Presubscribed Interexchange Carrier Charge (PICC). The PICC is assessed for the full 30 day period. Telephone Company will, upon request and if available, furnish such detailed information as may reasonably be required for verification of any bill.
- (E) When a rate as set forth in this tariff is shown to more than two decimal places, the charges will be determined using the rate shown. The resulting amount will then be rounded to the nearest penny (i.e., rounded to two decimal places).
- (F) When more than one copy of a customer bill for services provided under the provisions of this tariff is furnished to the customer, an additional charge applies for each additional copy of the bill as set forth in 13.3.6 following.
- (G) When utility or communications assessments, franchise fees, or privilege, license, occupational, excise, or other similar taxes or fees, based on receipts are imposed by certain taxing jurisdictions upon the Telephone Company, the amounts of such taxes or fees will be billed to Customers in such a taxing jurisdiction on a prorated basis except where such Customers are exempt from the tax. The amount of charge that is prorated to each Customer's bill is determined by the communications services provided to and billed to a Customer service location in such a taxing jurisdiction with the aggregate of such charges equal to the amount of the tax or fee imposed or passed on to the telephone Company. The taxing jurisdiction and applicable factors are as follows:

(N)

<u>Jurisdiction</u>	<u>Tax Factors</u>
Kentucky (Gross Revenues Tax Surcharge)*	1.3%

\* The Gross Revenues Tax Surcharge will not be applied to switched access revenues. (N)

## (C) Equipment Bay

The Equipment Bay provides mounting space for OLTM shelves and fuse panel. Each bay includes the 7 foot bay, its installation, all necessary environmental supports such as floor space, heat, lighting, etc. and 48-volt DC power. Mounting space on the bay, including space for the fuse panel and air gaps necessary for heat dissipation is limited to 78 inches. Physical dimensions of shelves are listed with the OLTM common equipment to be mounted on the bay.

## (D) Optical Line Terminating Multiplexer (OLTM) System

The OLTM System includes all necessary common equipment shelves and associated wiring, common equipment plug-ins, fiber optic, coastal and twisted-pair cabling, and fiber cross-connect jumpers, including fixed attenuators, to establish an optical system. System capacity and configurations vary according to the type of equipment installed. The following configuration is available:

## (1) Alcatel-Lucent Optical Multiplexing System (C)

This NET OLTM provides OC-48 capacity and occupies 23 inches of equipment space. (C)
